# ACHIEVEMENT PRESENTATION

The Qwidex achievement system is a unique solution that opens up new opportunities for partners around the world. We strive to encourage customers to actively participate in the process of forming and creating the global Qwidex ecosystem and believe that motivation through a unique achievement system can help the company create high-quality and in-demand products on the global market.

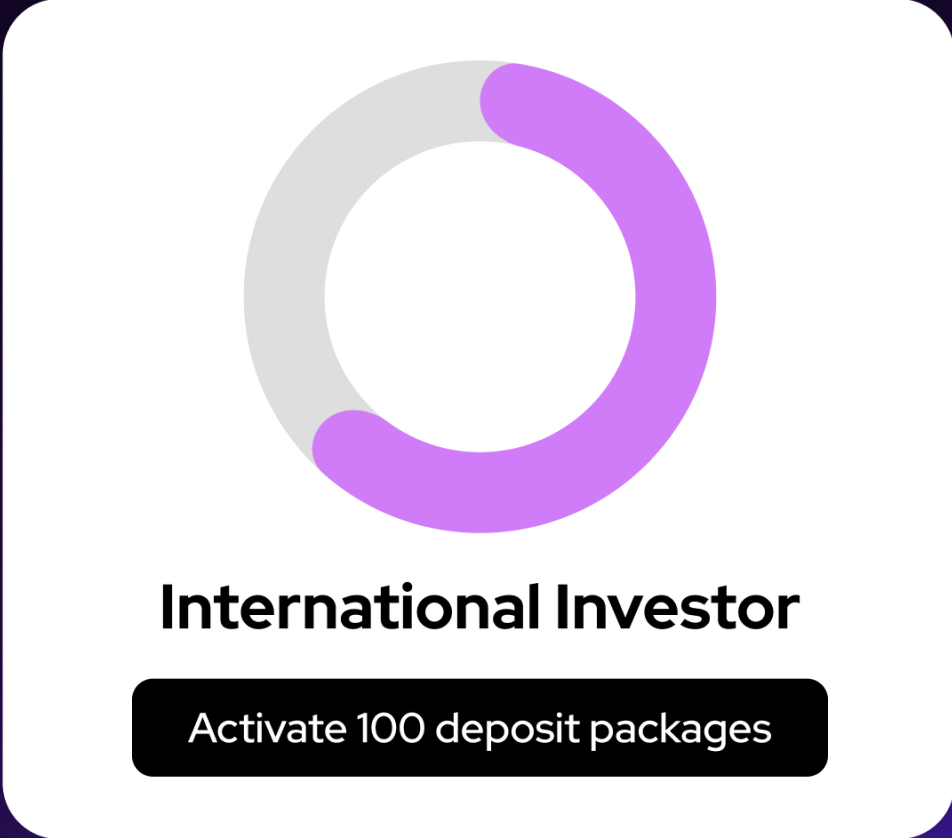

## Main goal

The goal of the Qwidex achievement system is to allow people to join the company's ecosystem and gain access to unique products and services absolutely free of charge. We have created a clear and progressive reward system so that each partner gets the maximum benefit from interacting with Qwidex.

# Operating principles of the system

The achievement system is based on several key principles:

**International Investor**  
Activate 100 deposit packages

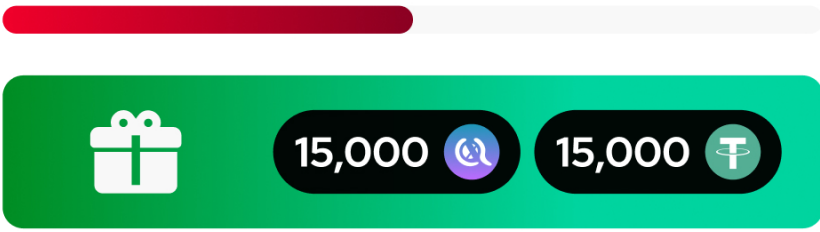

**Availability**  
Partners clearly see what actions will help them move up the achievement system.

**Pioneer**  
Activate 1 deposit package

**Step-by-step development**  
Achievements include levels that will allow partners to advance through the system step by step.

**Accumulate 1,500,000 QDX tokens**  
Accumulate 1,500,000 QDX tokens on a balance to get a reward and complete achievement.

**Reward for activity**  
Each completed task brings the partner closer to achieving financial goals without requiring personal investment.

# Types of achievements

We have divided achievements into two types:

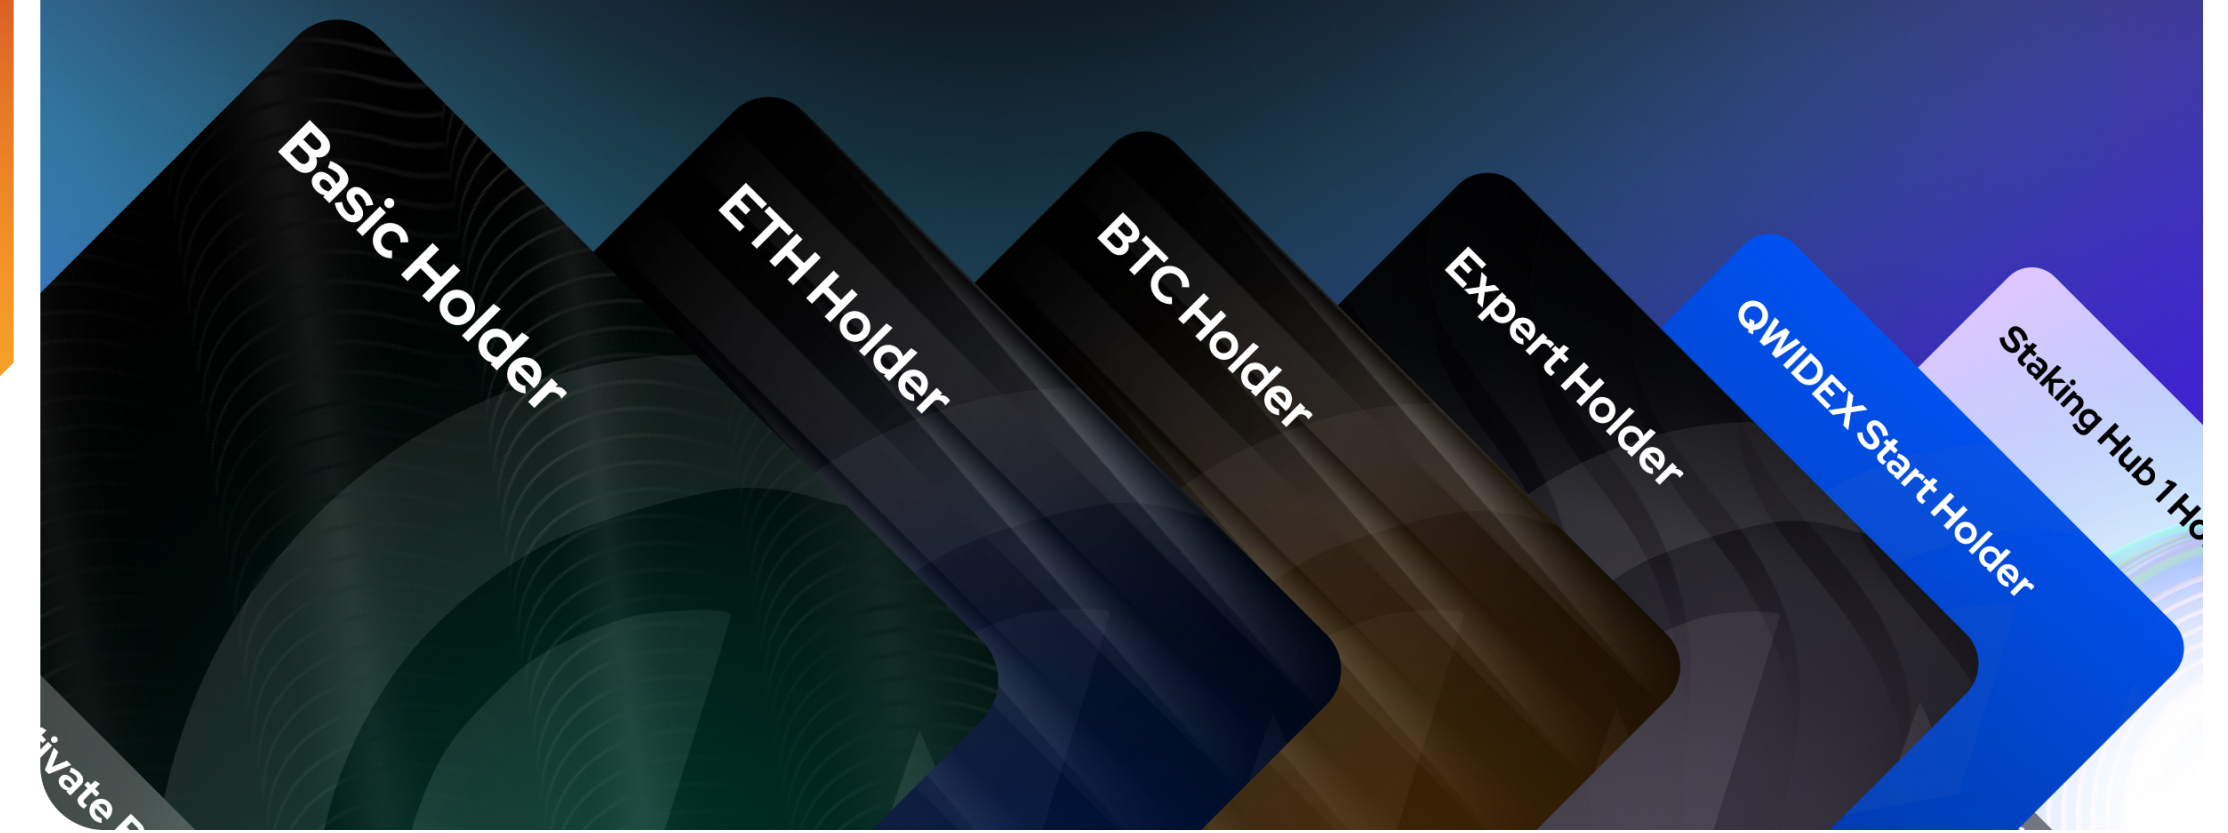

## Serial

Serial achievements have different levels of tasks that follow each other, so when you complete a given goal and get a reward, the task automatically changes to the next one.

## United

Single achievements are unique tasks that have no depth and are not dependent on each other. So, when you complete the goal and get the reward, the achievement is complete.

\* Each achievement provides customers with corresponding bonuses in QDX tokens, collecting which you can use the company's limited products.

# Achievement Categories and Rewards

Our achievements fall into several categories:

**Business**  
Achievement category based on Partner Business Progress.

**Career**  
Achievement category based on Partner Career Progress.

**Exclusive**  
Achievement category based on special tasks within your personal account.

**Collection**  
Achievements that are in progress or have already been completed are automatically displayed in your personal collection, in the order in which they were completed.

\* Each achievement provides customers with corresponding bonuses in QDX tokens, collecting which you can use the company's limited products.

# The value of the system for partners and the company

The achievement system allows you to:

## Motivate partners

Create motivational goals for your partners to develop achievements and personal goals.

## Access to limited products

Products of the Qwidex company that stimulate the efficiency of earnings in the company.

## Help in development

The global Qwidex ecosystem is just beginning to emerge and has many stages and unique solutions ahead.

By implementing the achievement system, we are starting the path of forming and creating a global Qwidex ecosystem, which aims to take a leading position in the Tier 1 consumer market. By participating in the achievement system, the company's partners play an important role in creating high-quality products for the global Qwidex ecosystem, as well as in forming a key consumer circle.

## QDX Limited

### Profitability calculator

Use Qwidex detailed profitability calculator to make the preliminary assessment of your investment efficiency and match the most appropriate investment package for you.

## S-Hub

### Pay attention to:

- The percent of the daily profit is fixed;
- The profit is accrued daily;
- The received profit is available on main balance immediately;
- The invested capital is returned automatically when the investment package finishes its operation;

## S-Hub +

### Pay attention to:

- The percent of the daily profit is fixed;
- The profit is accrued daily;
- The received profit will be available on main balance when the investment package finishes its operation;
- The invested capital is returned automatically when the investment package finishes its operation;
