Registration and authorization

Registration

Step 1

To use Qwidex services you should register including several simple steps.

Please note that when you use the referral link for registration you will see the correspondent Upliner field above.

If you do not use the referral link for registration then the Upliner field will not be displayed.

To make the registration process with Qwidex easier you may use one of the proposed authorization methods. Thus, the main info fields in the register form will be filled in automatically

You may also skip this step and fill in the register form by yourself using Skip button.

Financial PIN Code

Create your 6-number password:

[Use a light password](#)

* The financial code is used to confirm financial transactions that you make in your personal account. Remember and write down your financial password in a safe place.

☐ I confirm that I have carefully read the information about the importance of the financial code and stored it in a safe place.

☐ I confirm with the user agreement.

Create account

Registration and authorization

Registration

Step 3

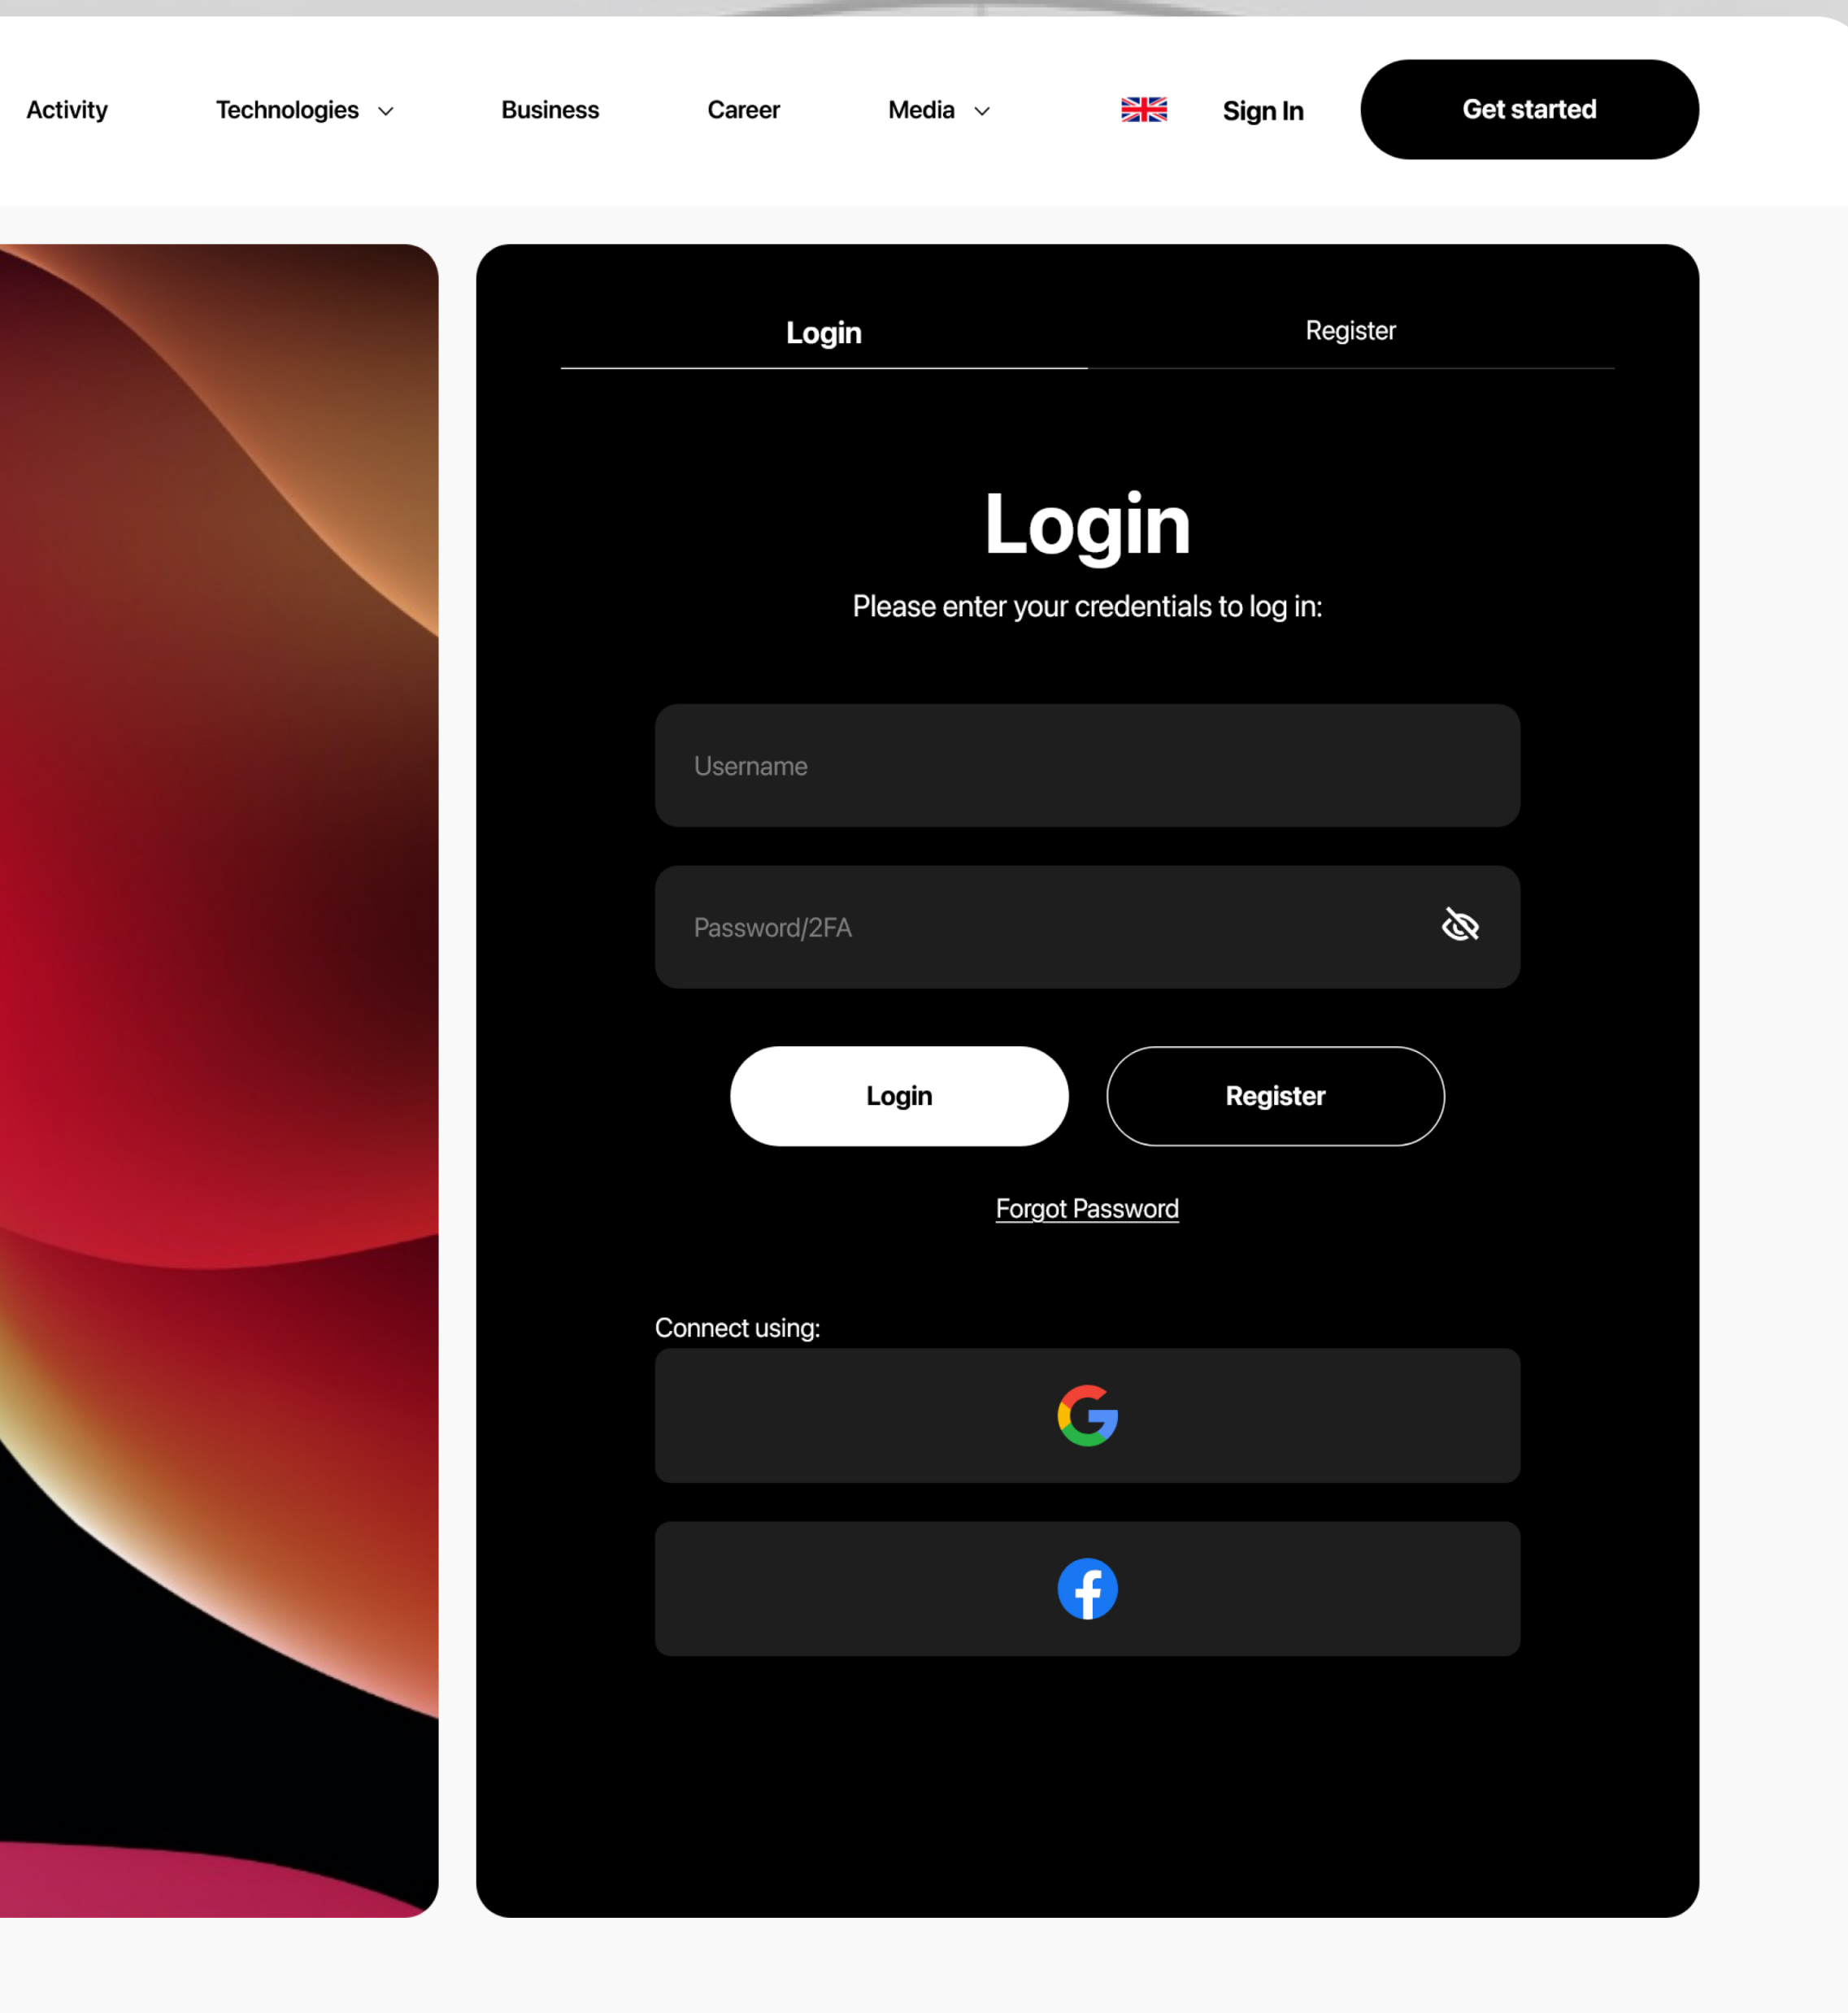

In this phase you should create the financial pin-code. You may create this financial pin-code, containing 4 or 6 digits, to provide higher security level. You should use the switch below to create easier or more complex financial pin-code.

The financial pin-code is very important for maximum safety of the working environment. Using the financial pin-code the withdrawal and exchange operations are confirmed, as well as financial data editing, changing of password in the private account settings.

Pay attention!

Please note that the financial code can not be changed after registration of the account. The Qwidex team strongly recommends to keep in mind and record the financial pin-code, created when registering, in a reliable place. If the financial pin-code is lost, please appeal to the Qwidex support service and follow the further instructions.

Registration and authorization

Authorization

Use your e-mail and password which you specified when registering in order to enter your personal account. You may also use one of the methods for quick authorization if you used this function when registering.

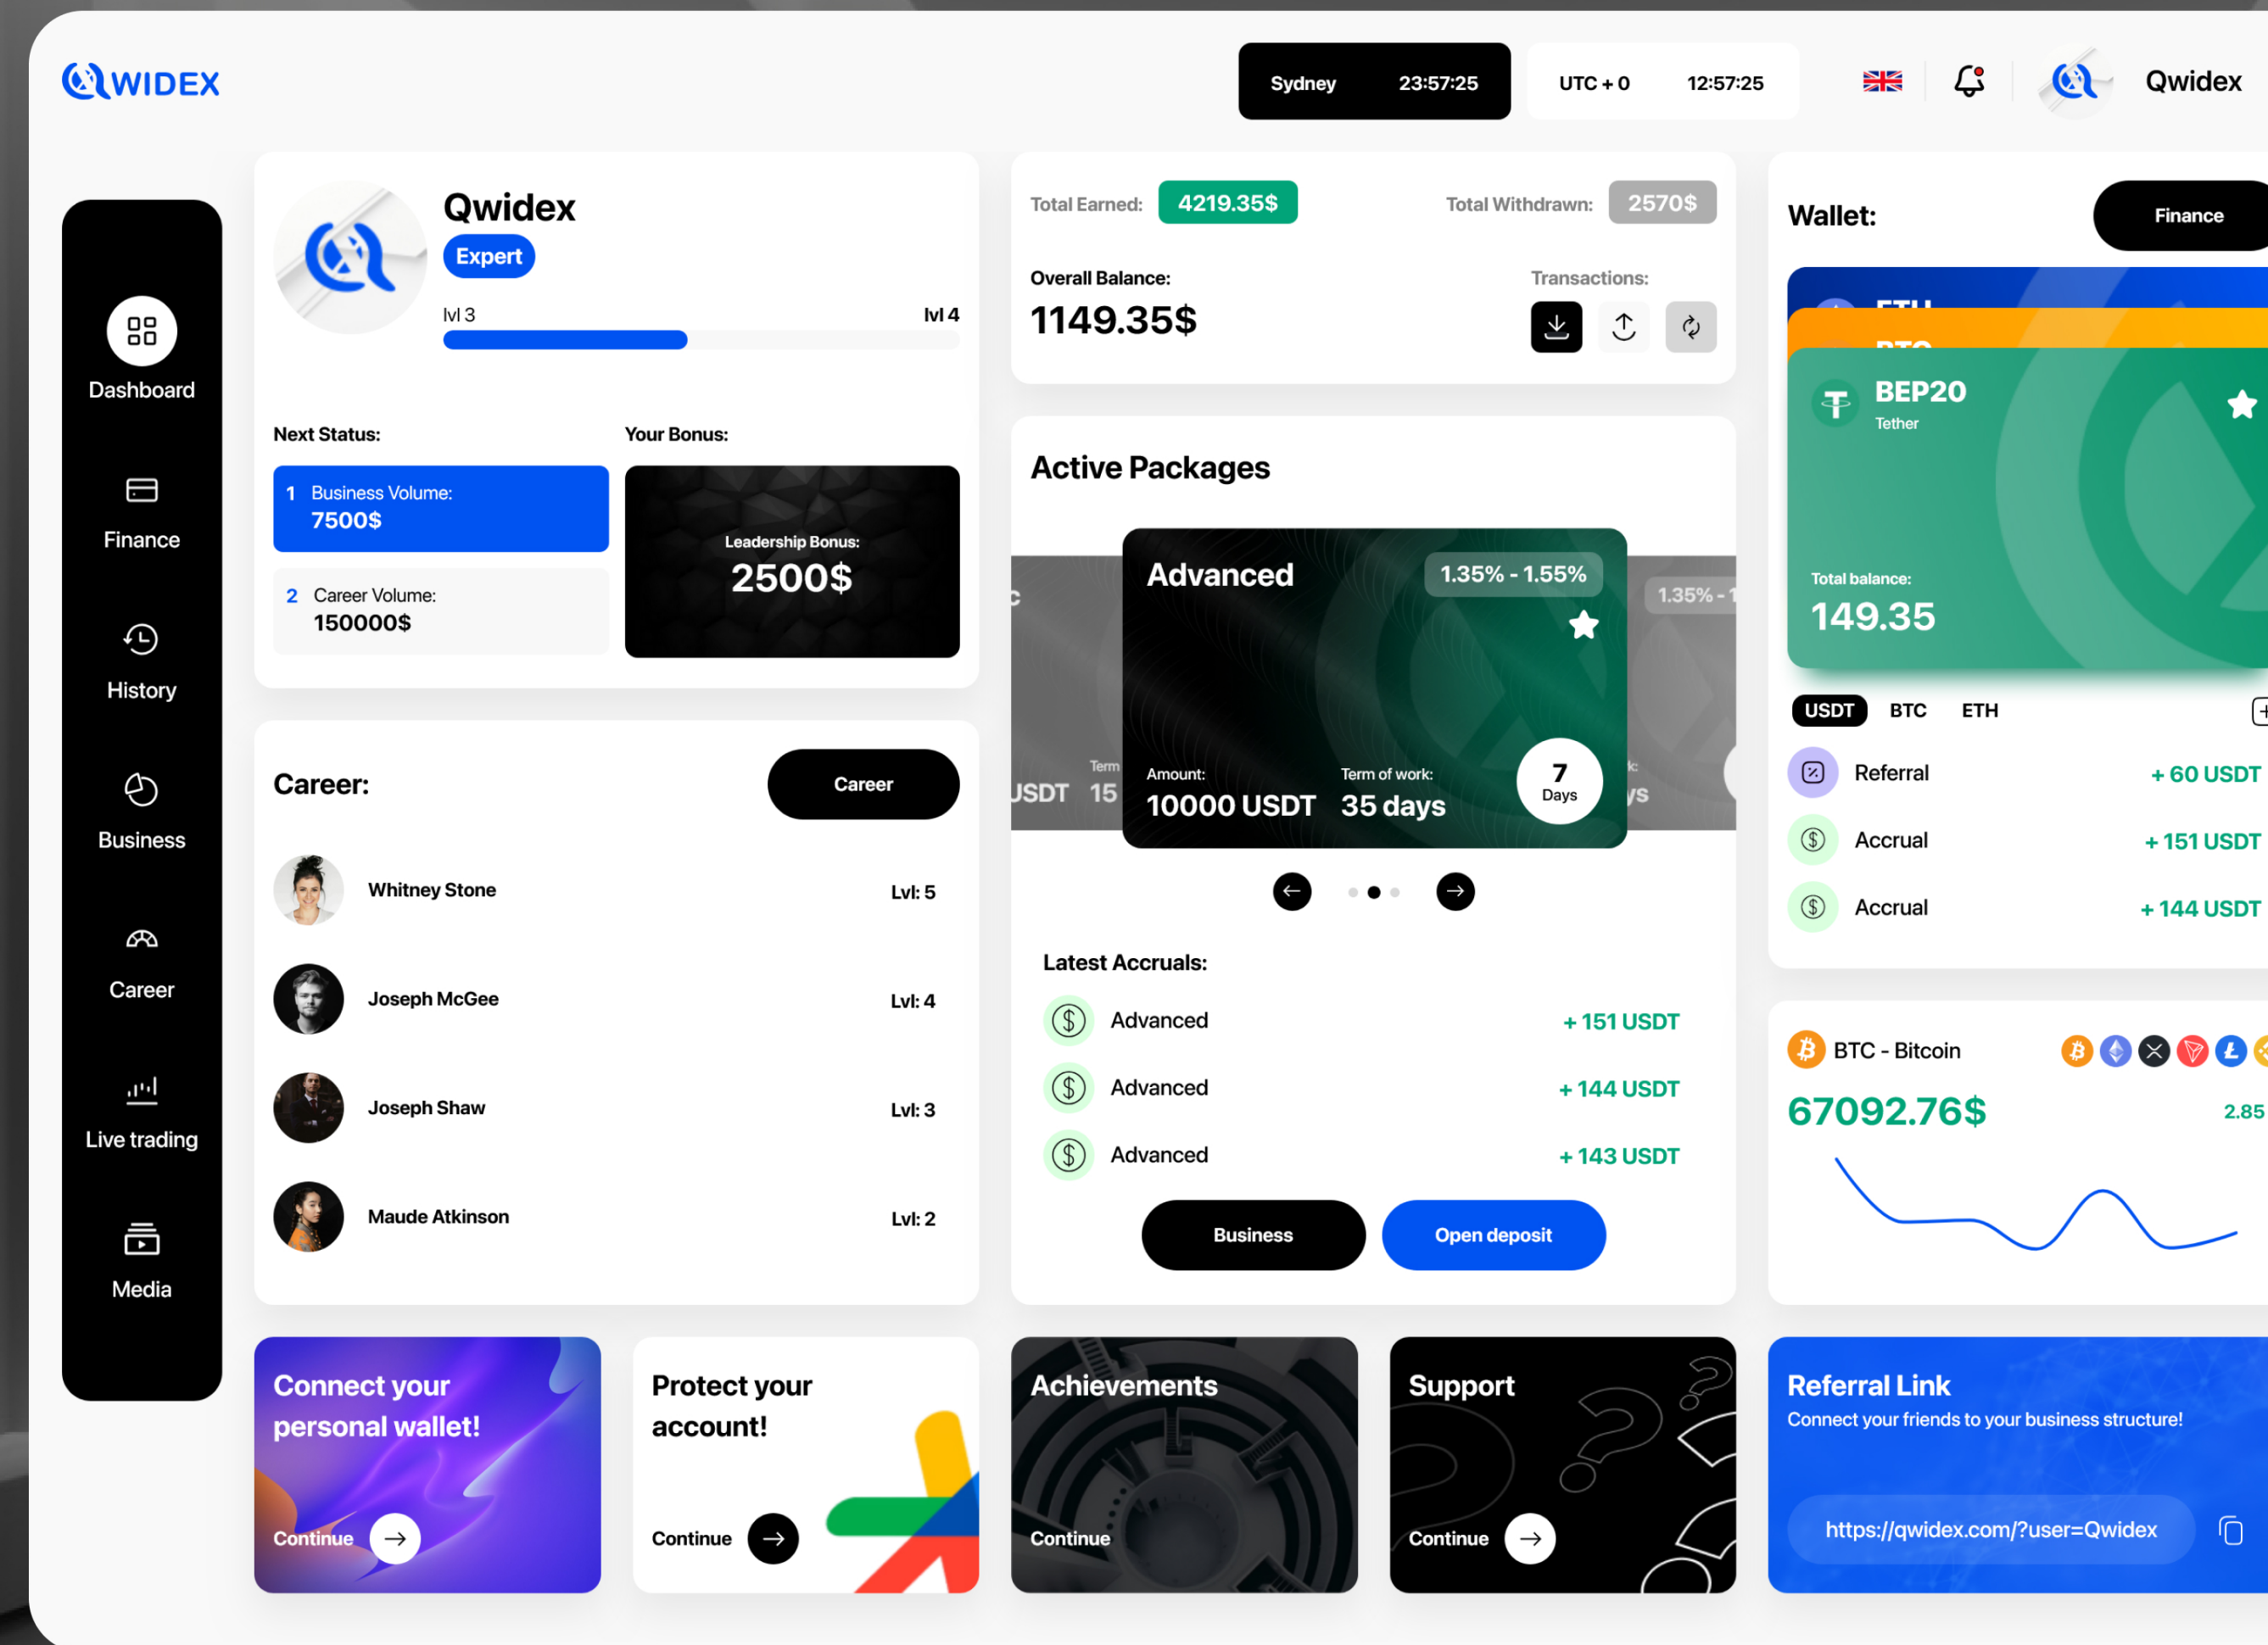

You may use “Forgot password” function if you lost your personal account password. You should use several simple steps and restore the access to the personal account as quick as possible.

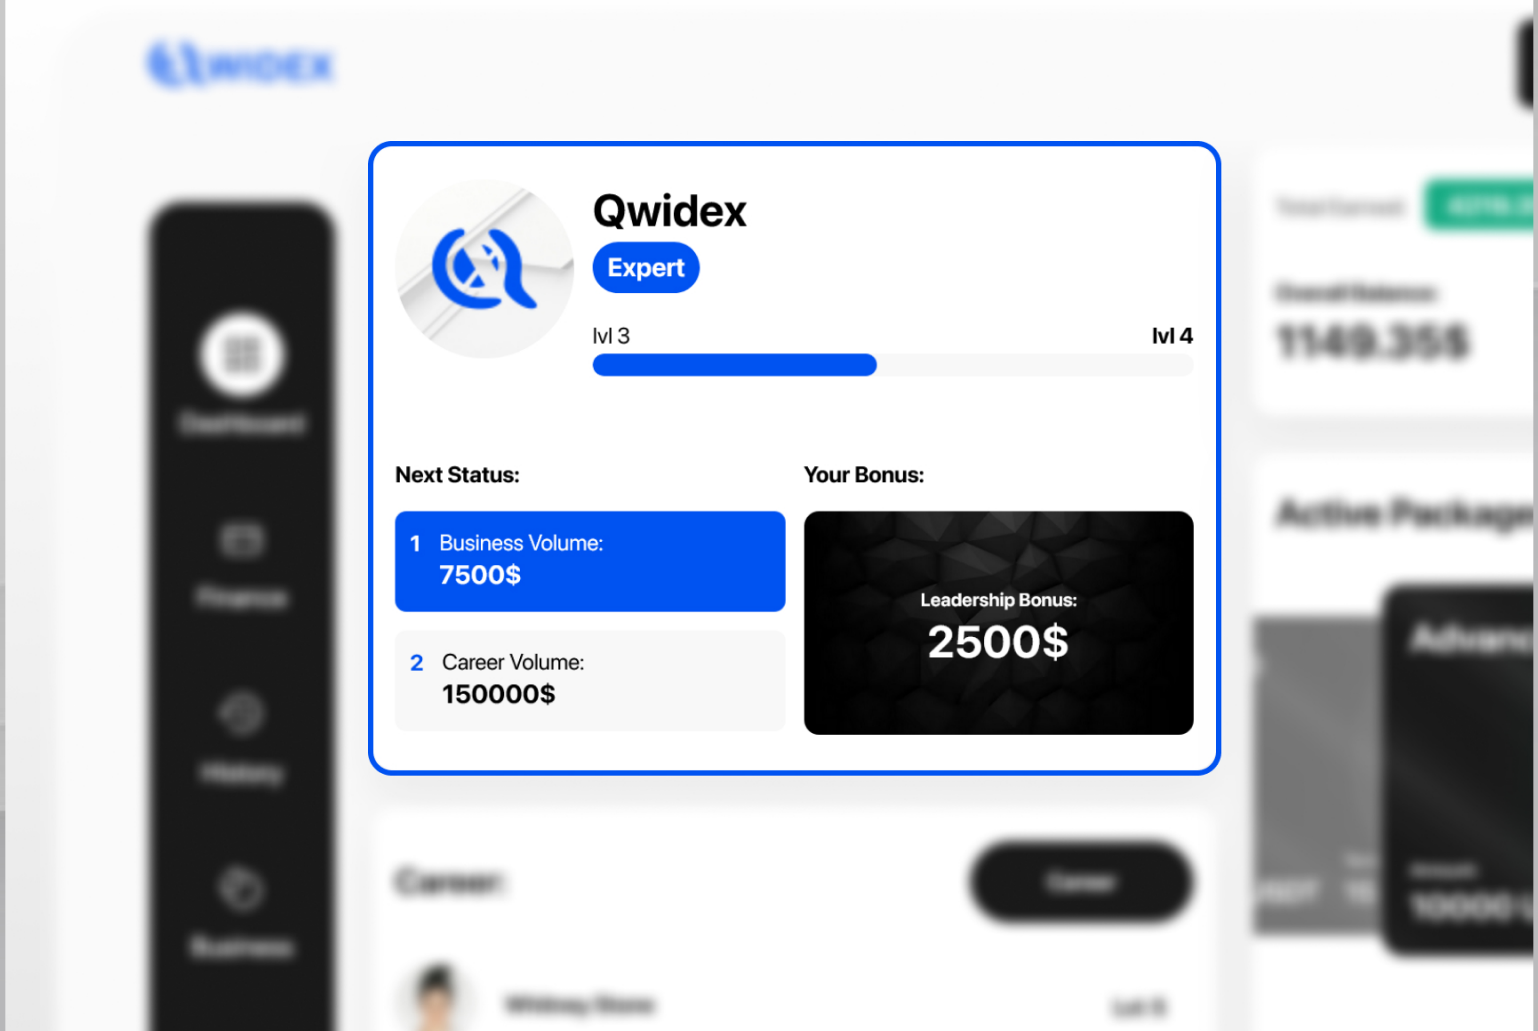

Personal account

Welcome to the Qwidex personal account dashboard. Here we have the main functions which allow to control business quickly and comfortably.

The navigation menu in the personal account will allow you to navigate the categories for access to more detailed information and other functions, if necessary.

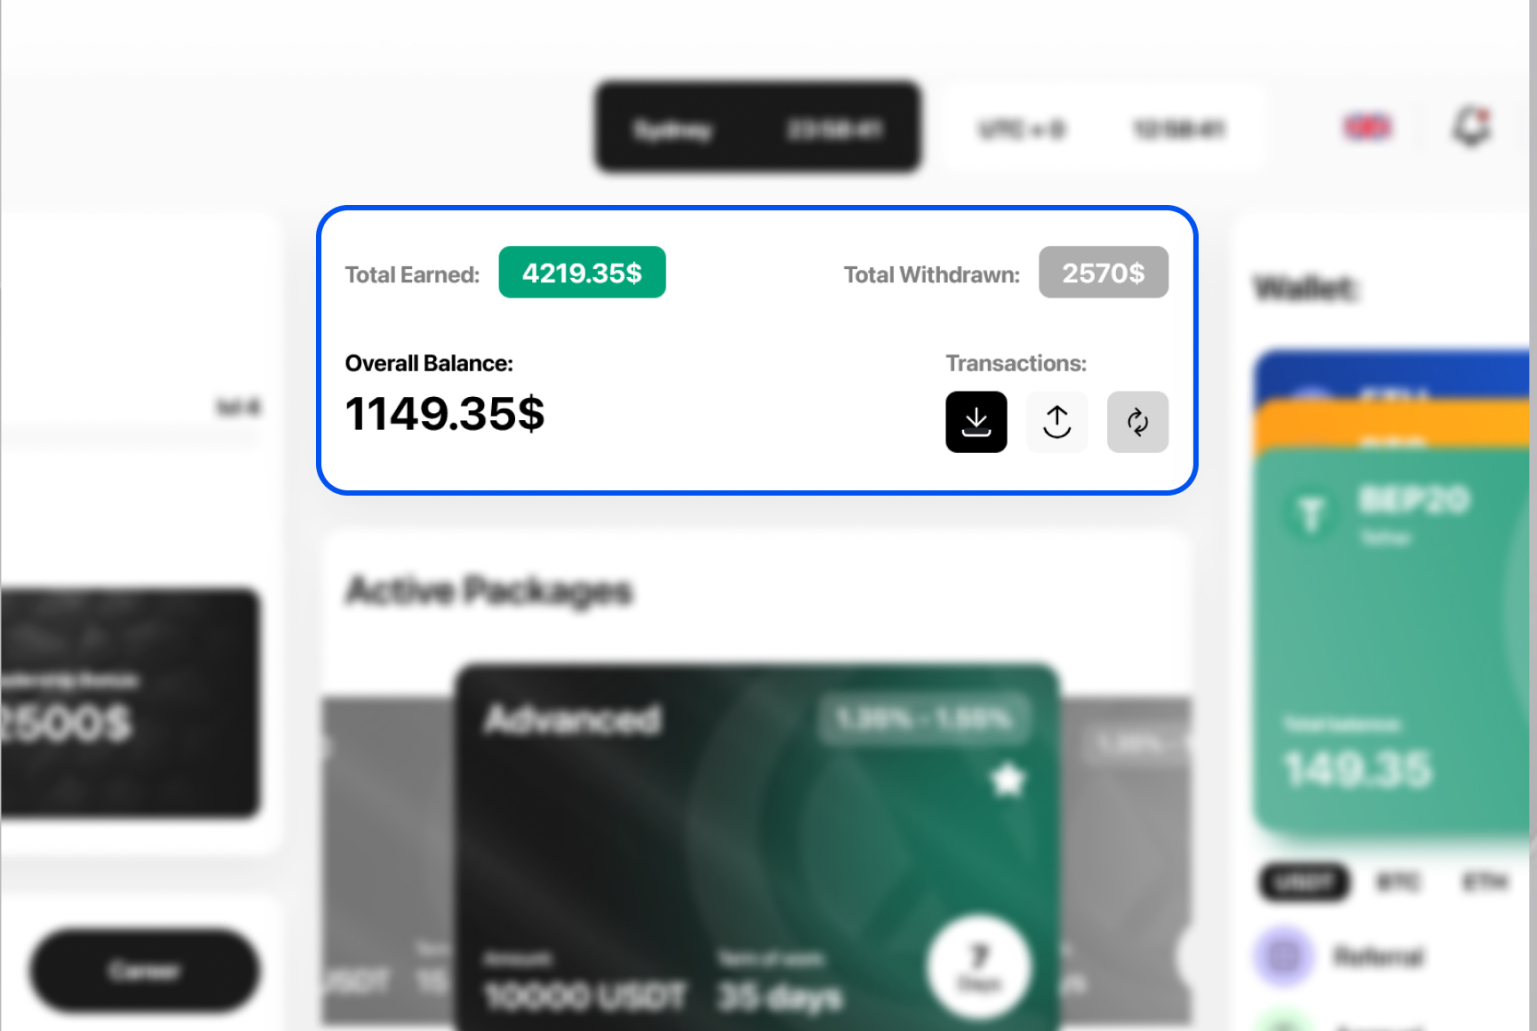

1. Personal account progress

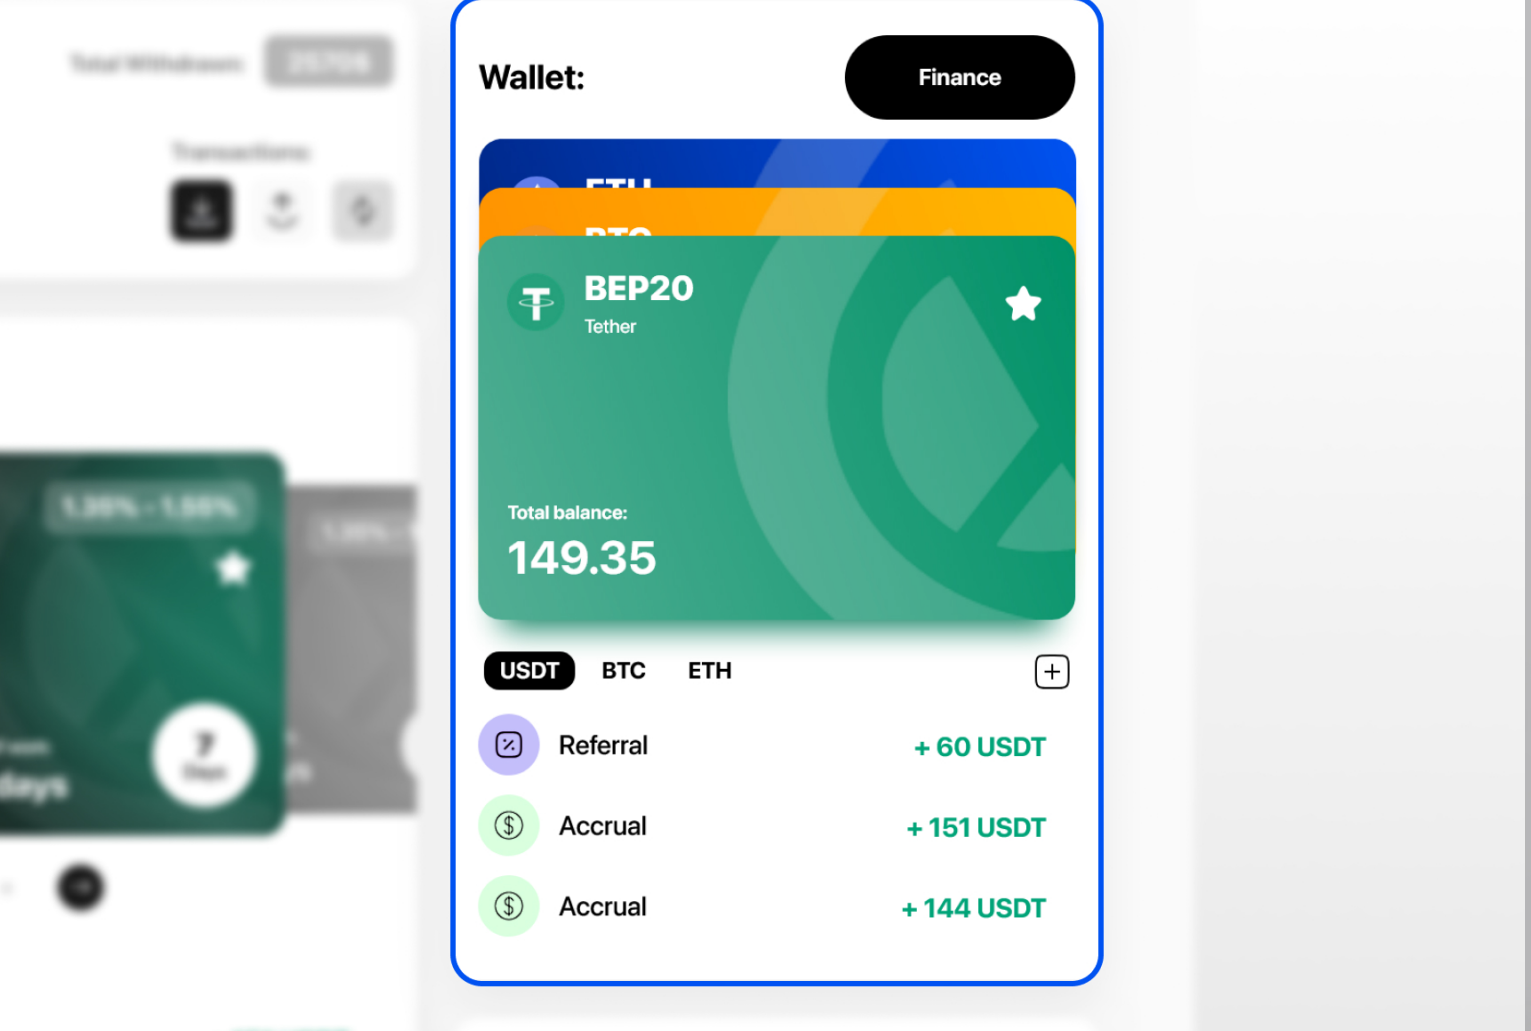

Here the career status information is displayed, as well as the aims for increasing this career status. Move up the career ladder and receive additional awards for achieving new statuses.

2. Overall financial account

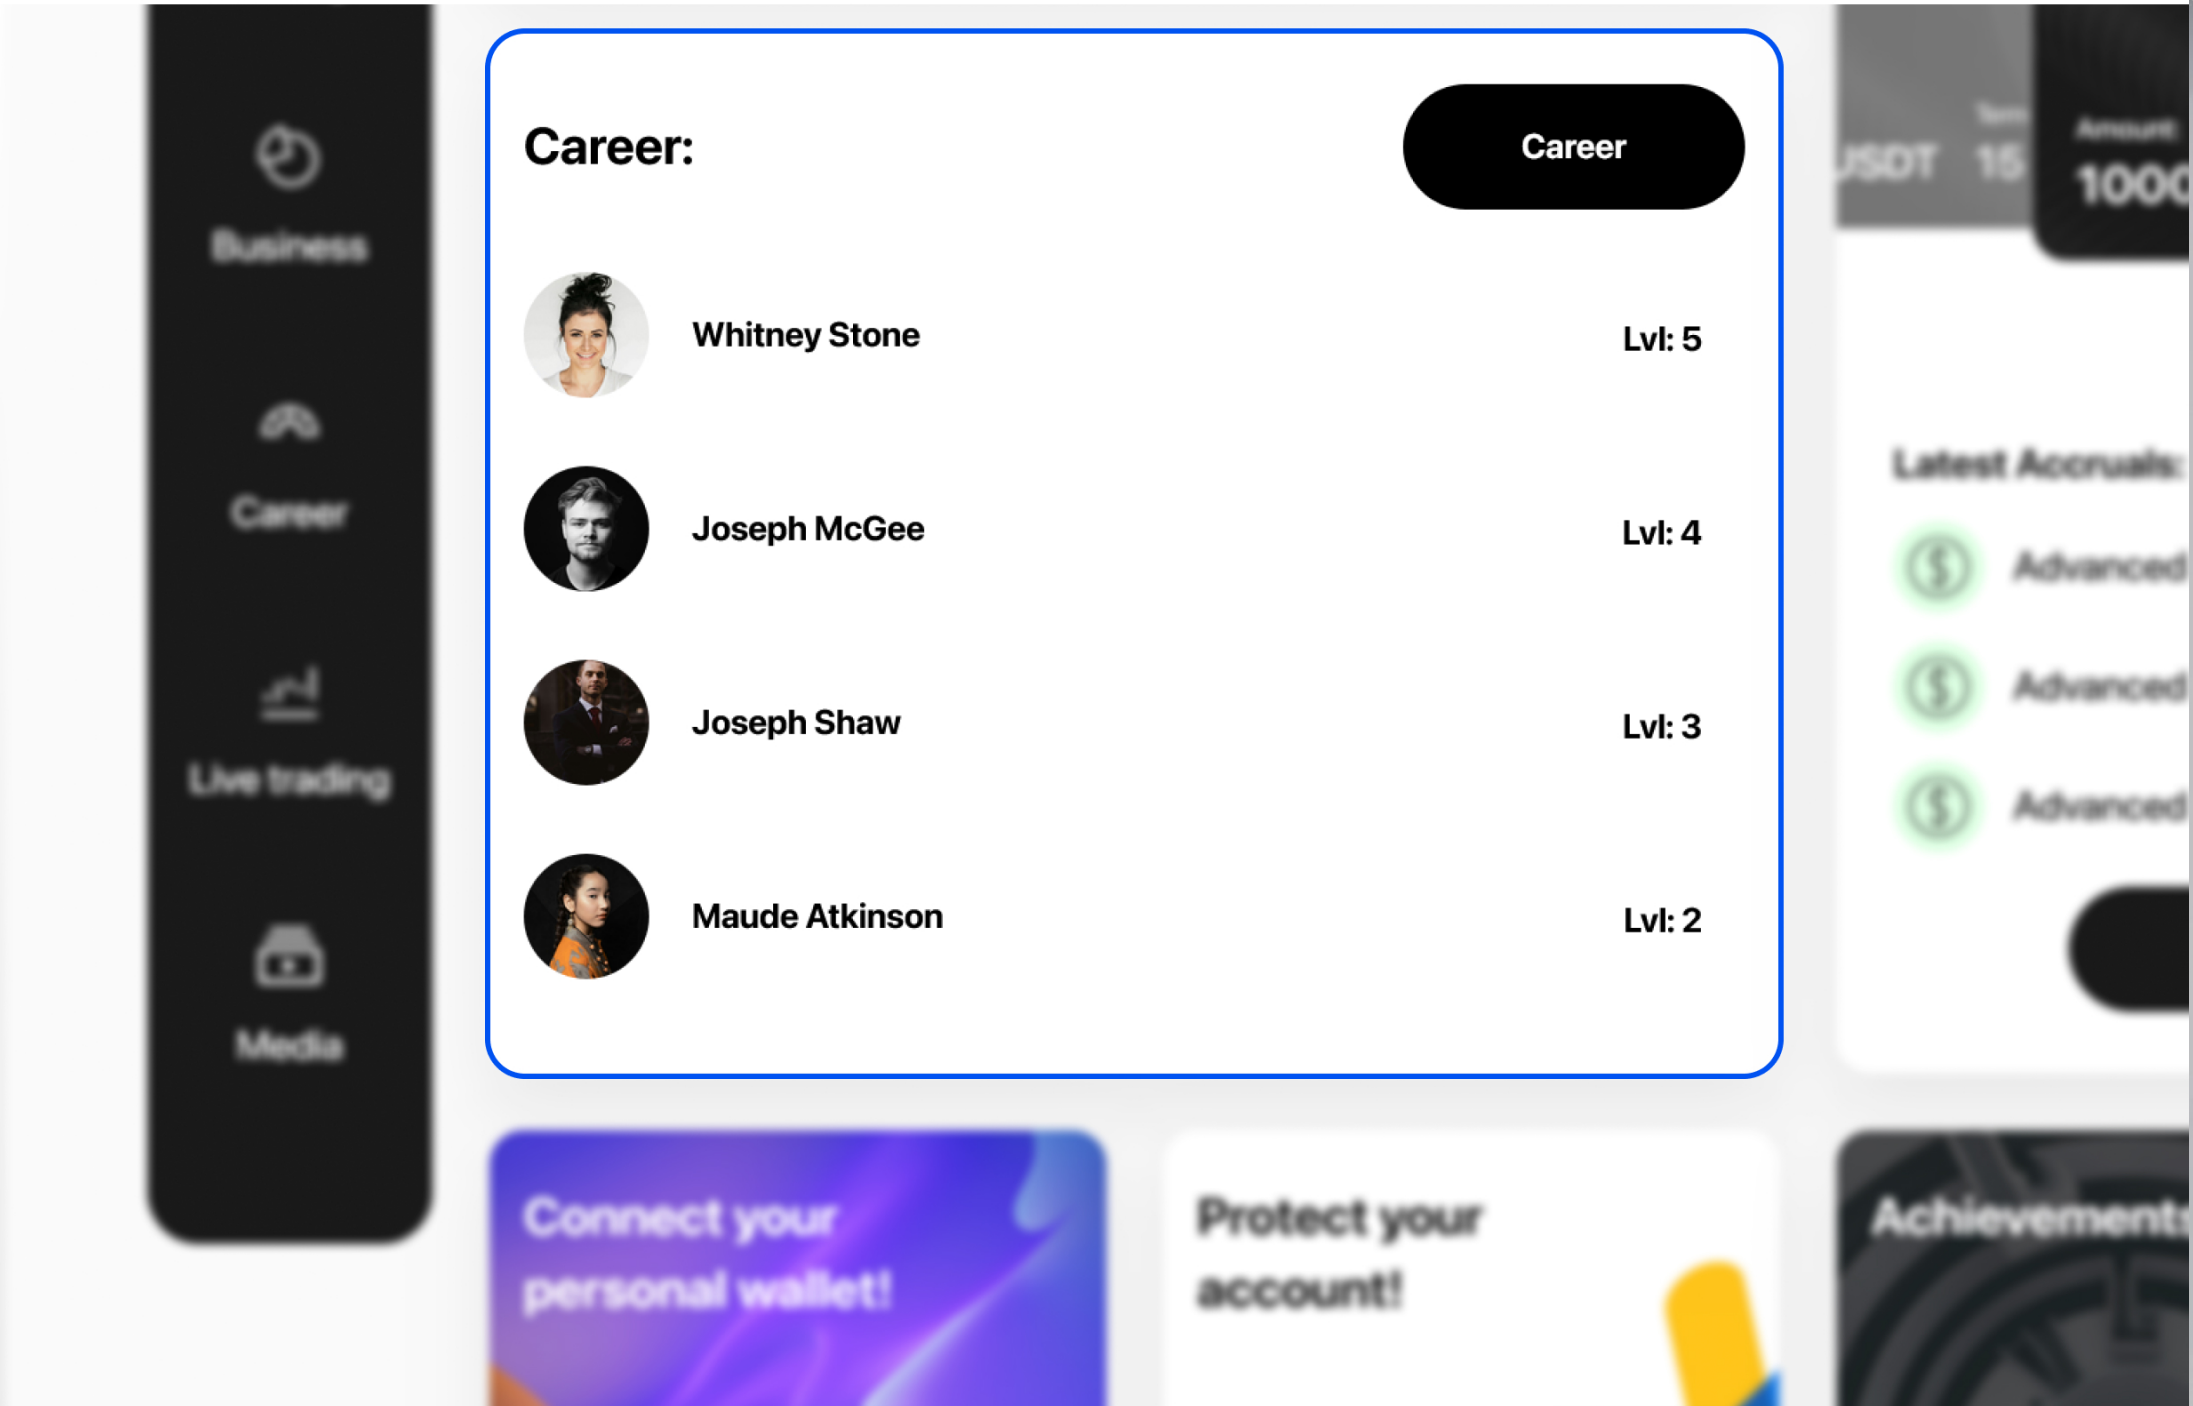

Displays the overall balance from all currency accounts of the personal account, as well as provides quick access to replenishment, withdrawal and exchange operations. Please note the info fields above which display the total sum of earned and withdrawn money.

3. Wallet

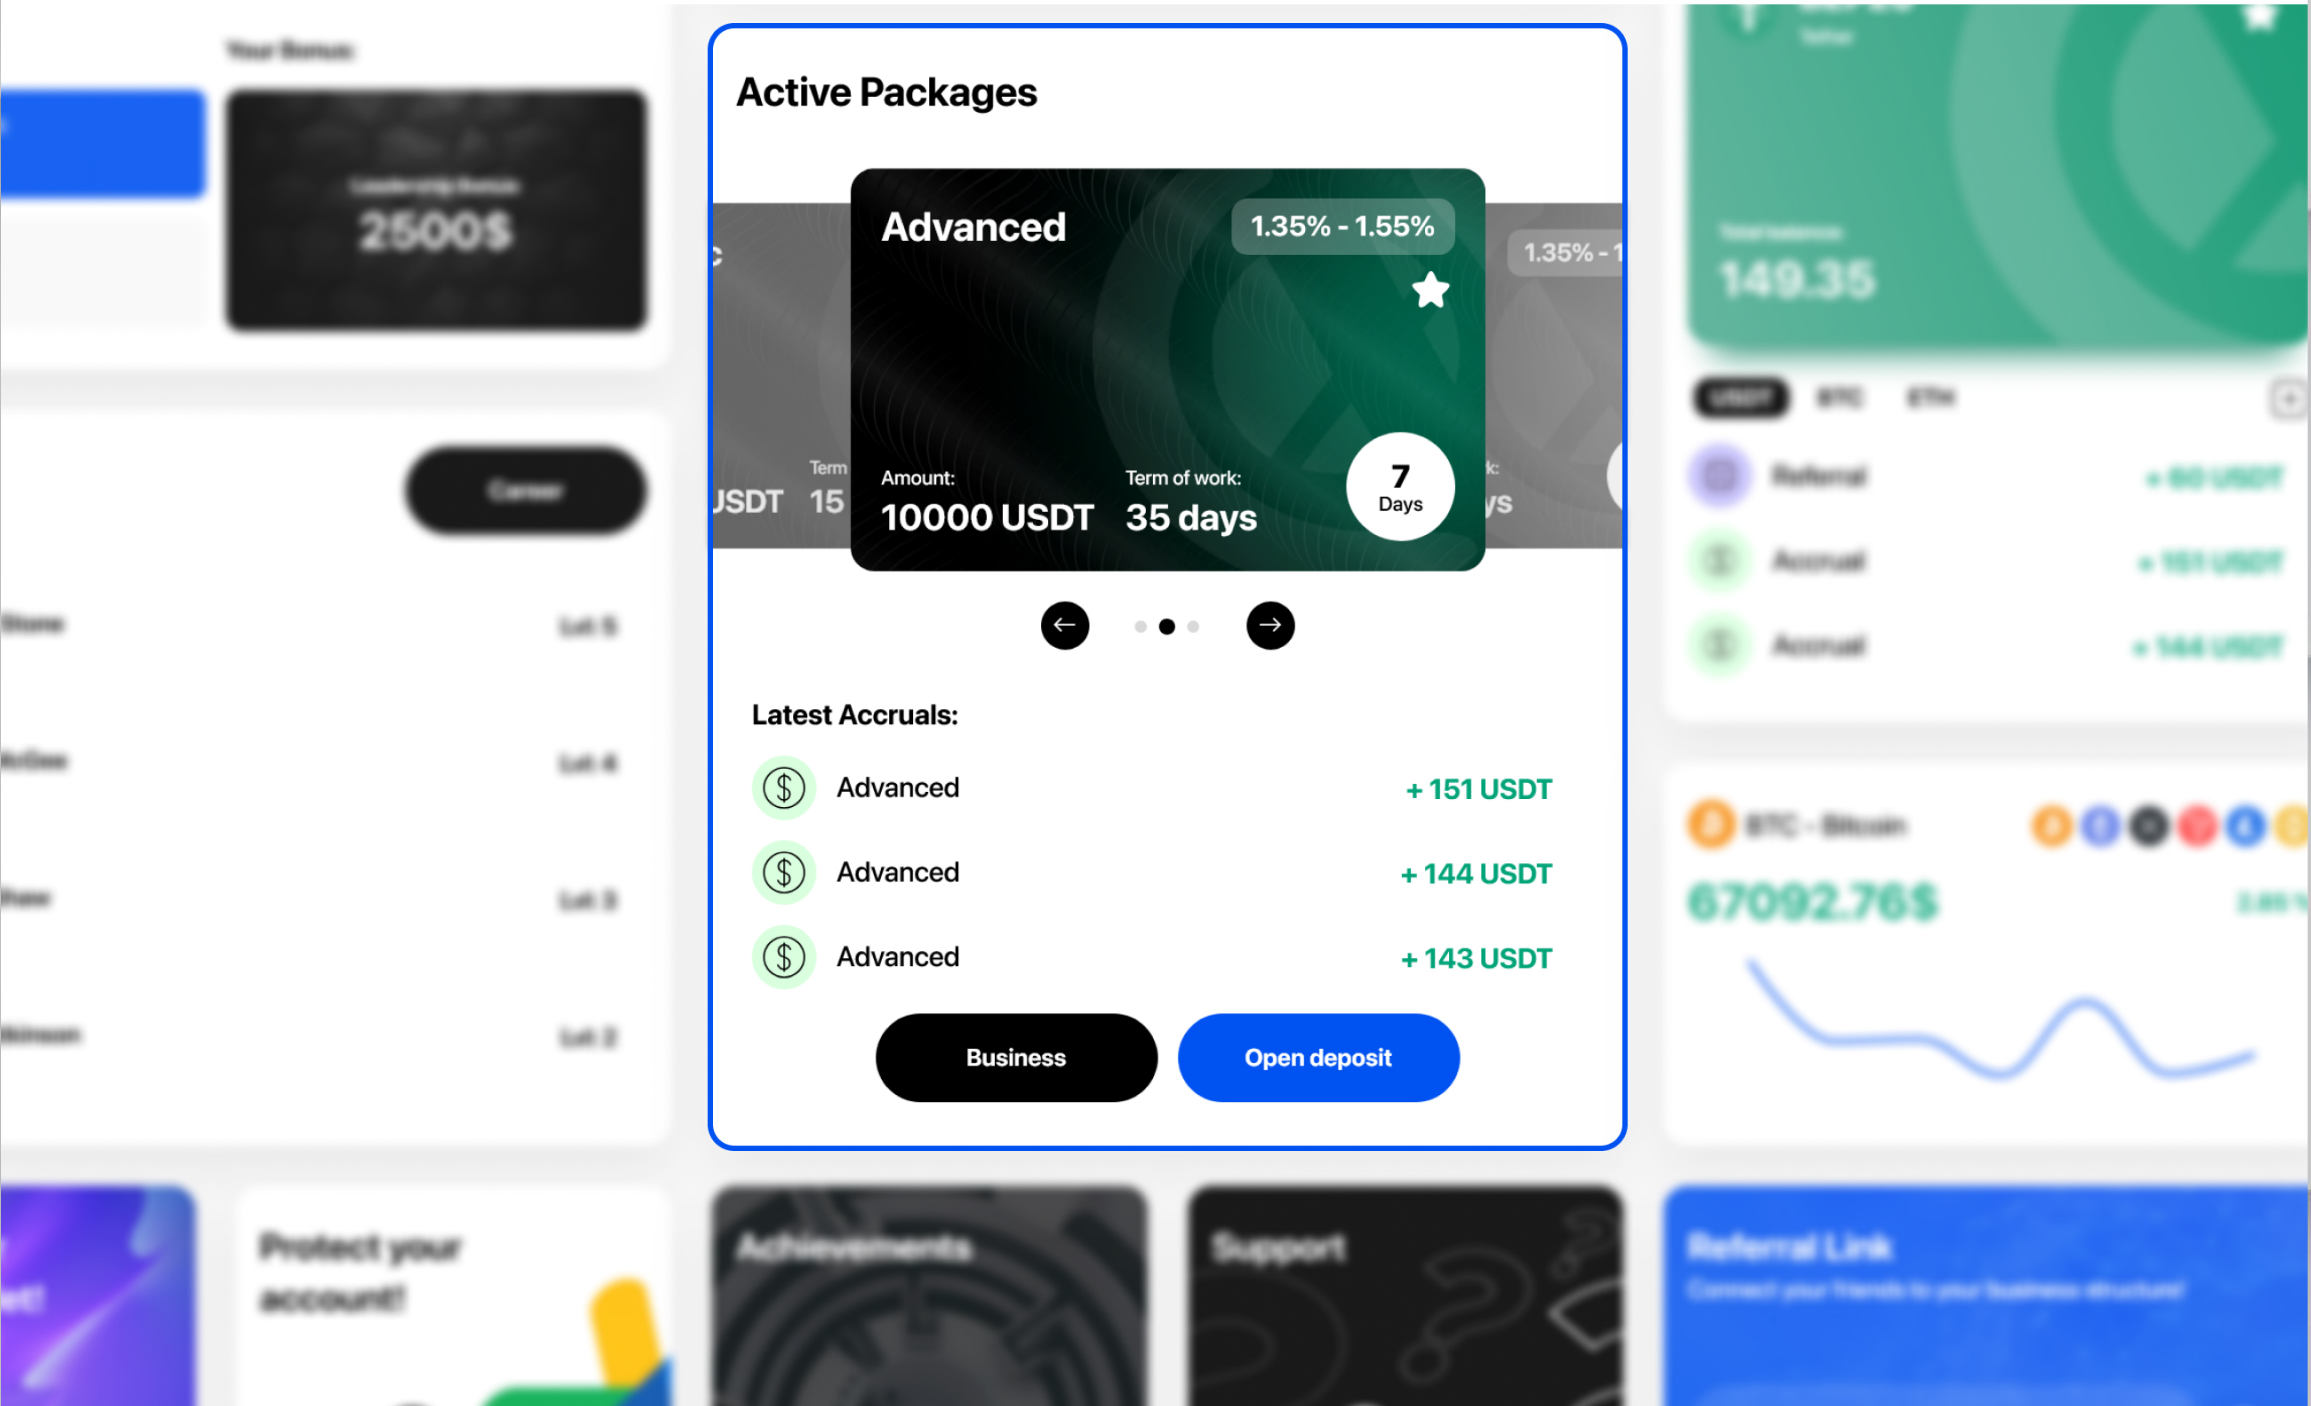

Here we see the personal currency accounts, which were added to the favorites, of the customer personal account. You may add up to 5 currency cards to the favorites for their quick access on the dashboard. Press “Finance” button to proceed to the financial management category and have an access to all currency accounts.

4. Career

Here we see the information about new partners who register with Qwidex company using your personal referral link or your partner’s link. Press to the Partner button to see the more detailed info about him or press Career button to see the carrier statistics in detail.

5. Active packages

Here we see the active packages, which were added to the favorites, as well as their working process. You may add up to 6 active packages to the favorites for their quick access on the dashboard. Press “Business” button to proceed to the business control category and have an access to all active packages and use “Open deposit” for quick activation of new package.

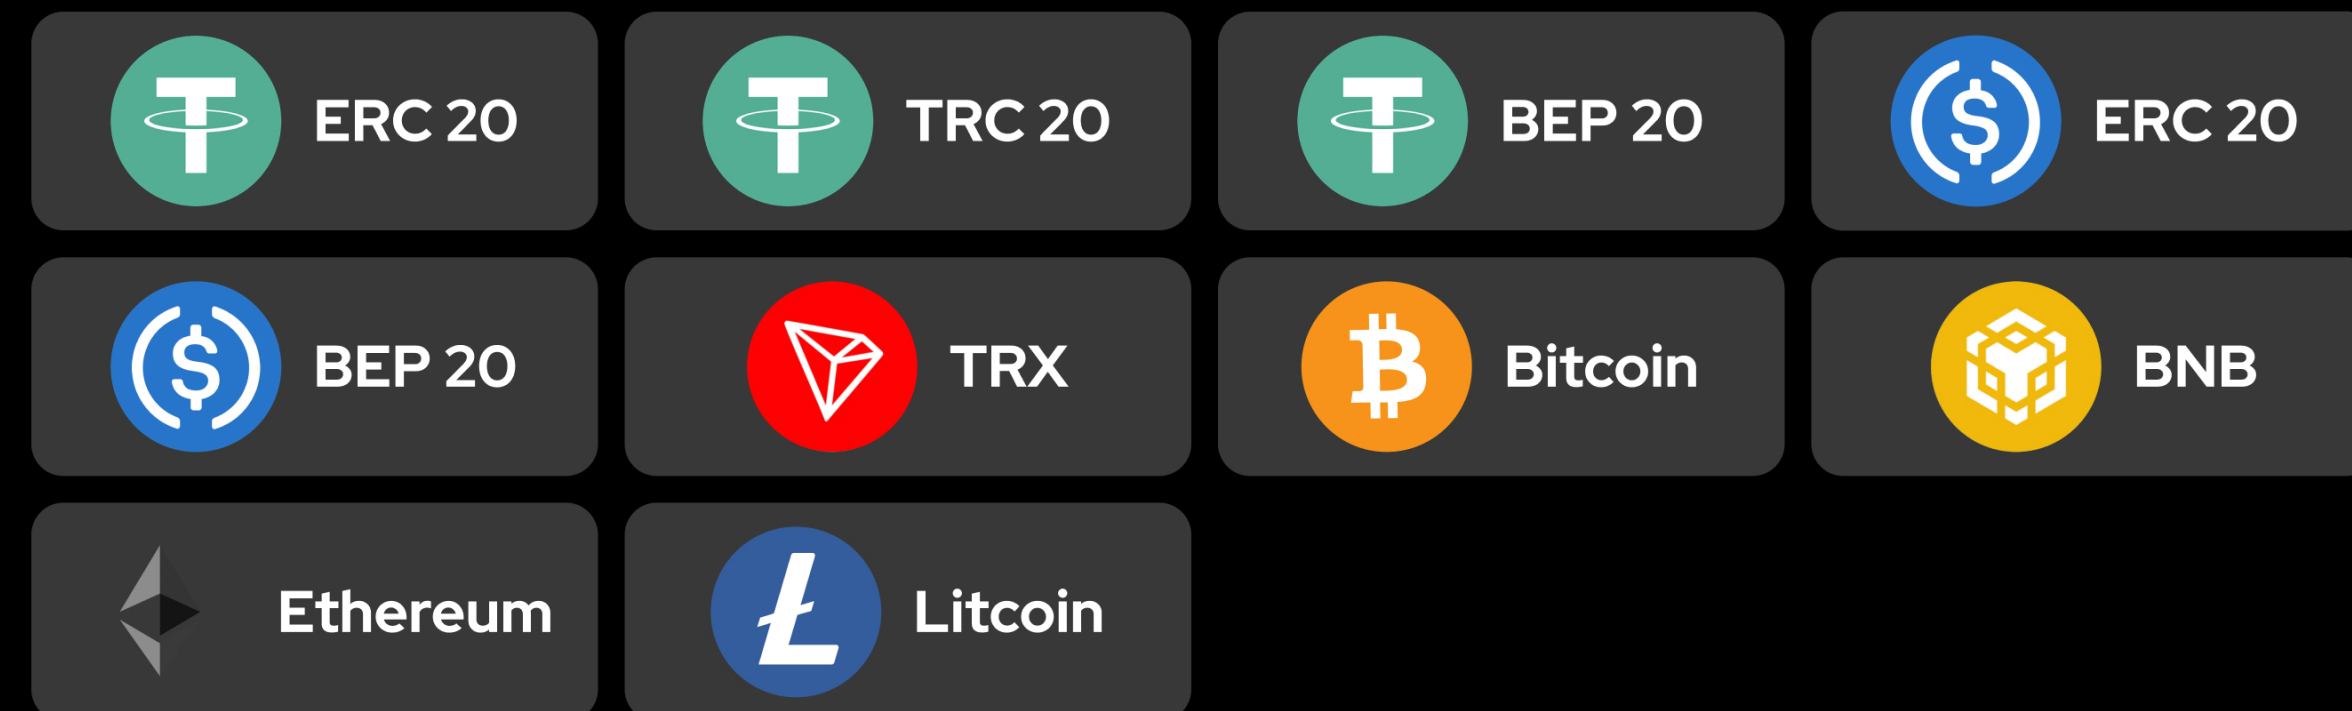

Balance replenishment

The balance replenishment at Qwidex company consists of the several simple steps. Please pay attention to the currency which you will use during replenishment, because this may have an impact on the transaction processing speed.

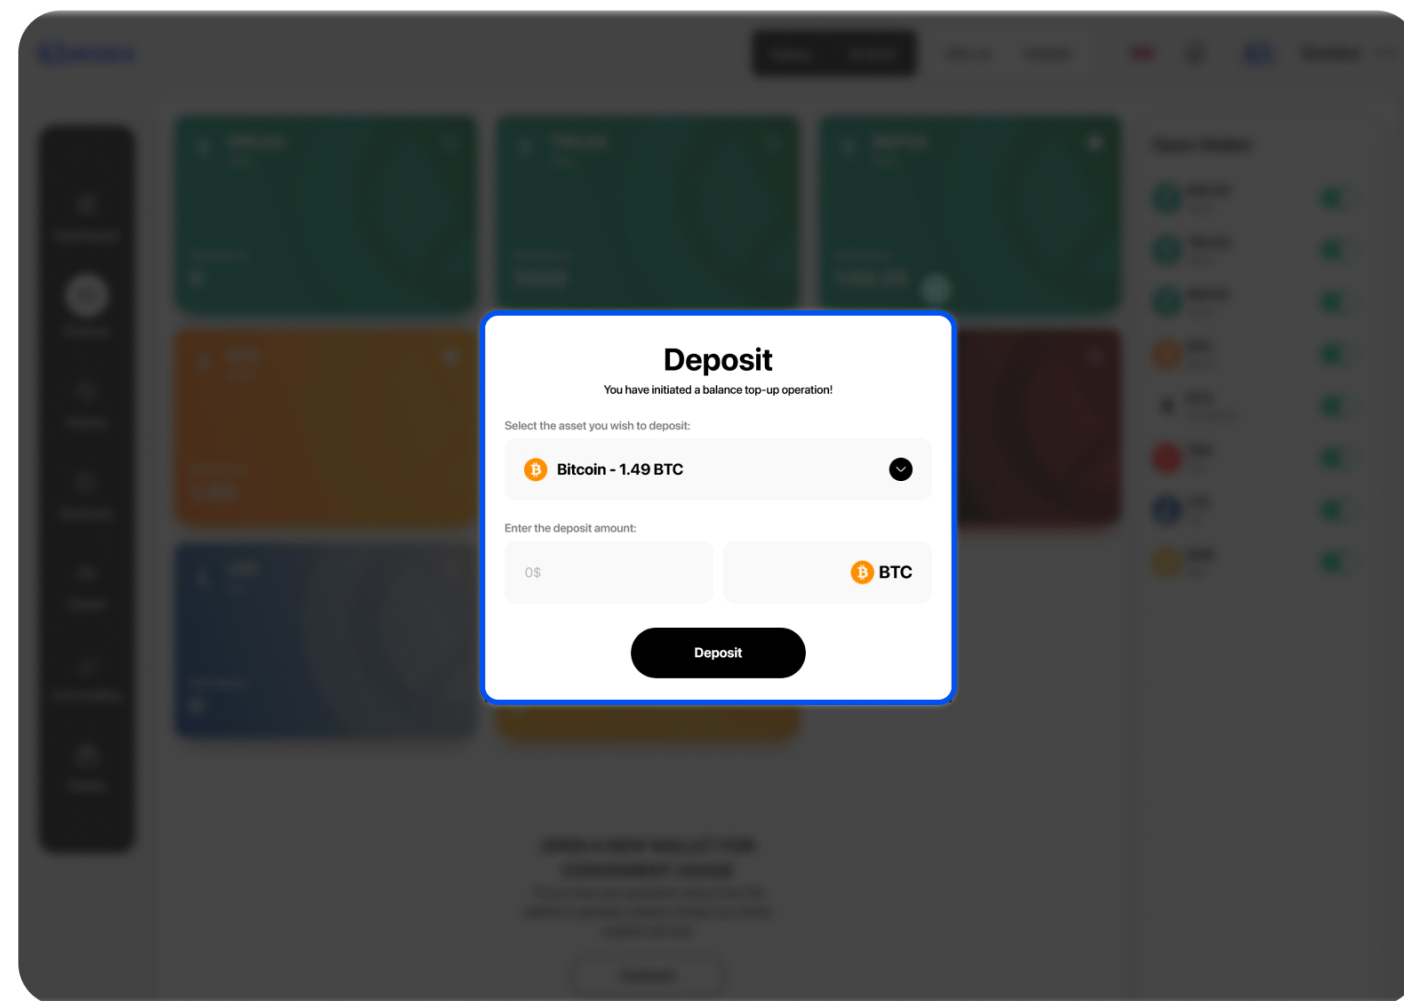

The Qwidex supports 8 currencies which you may use. The list of currencies, supported by the company, you can find below.

We support such currencies as:

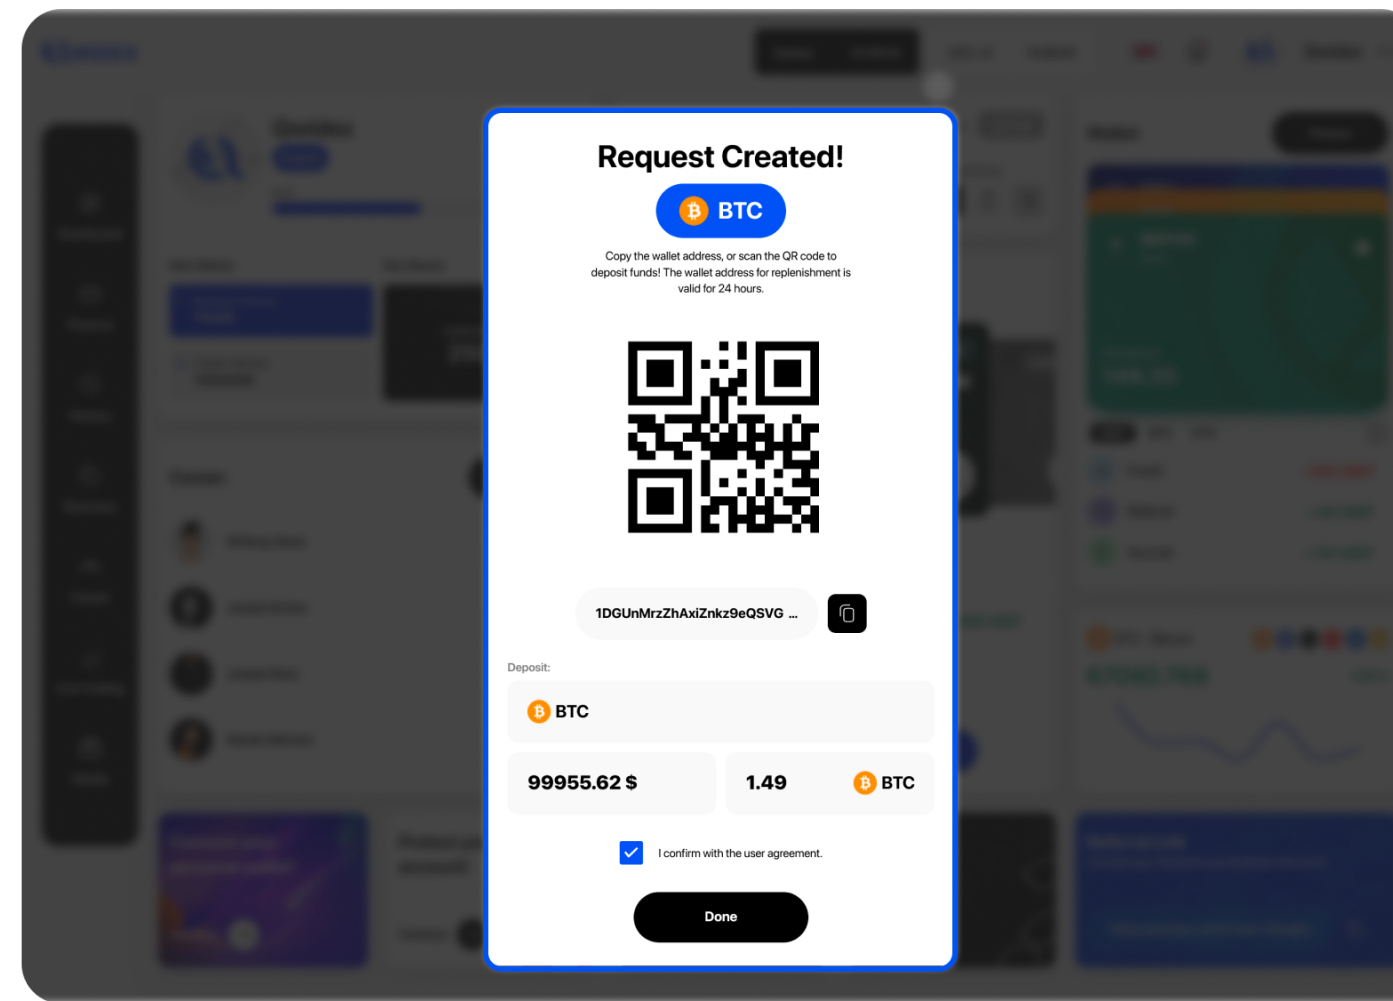

Replenishment Phases

1. Currency selection

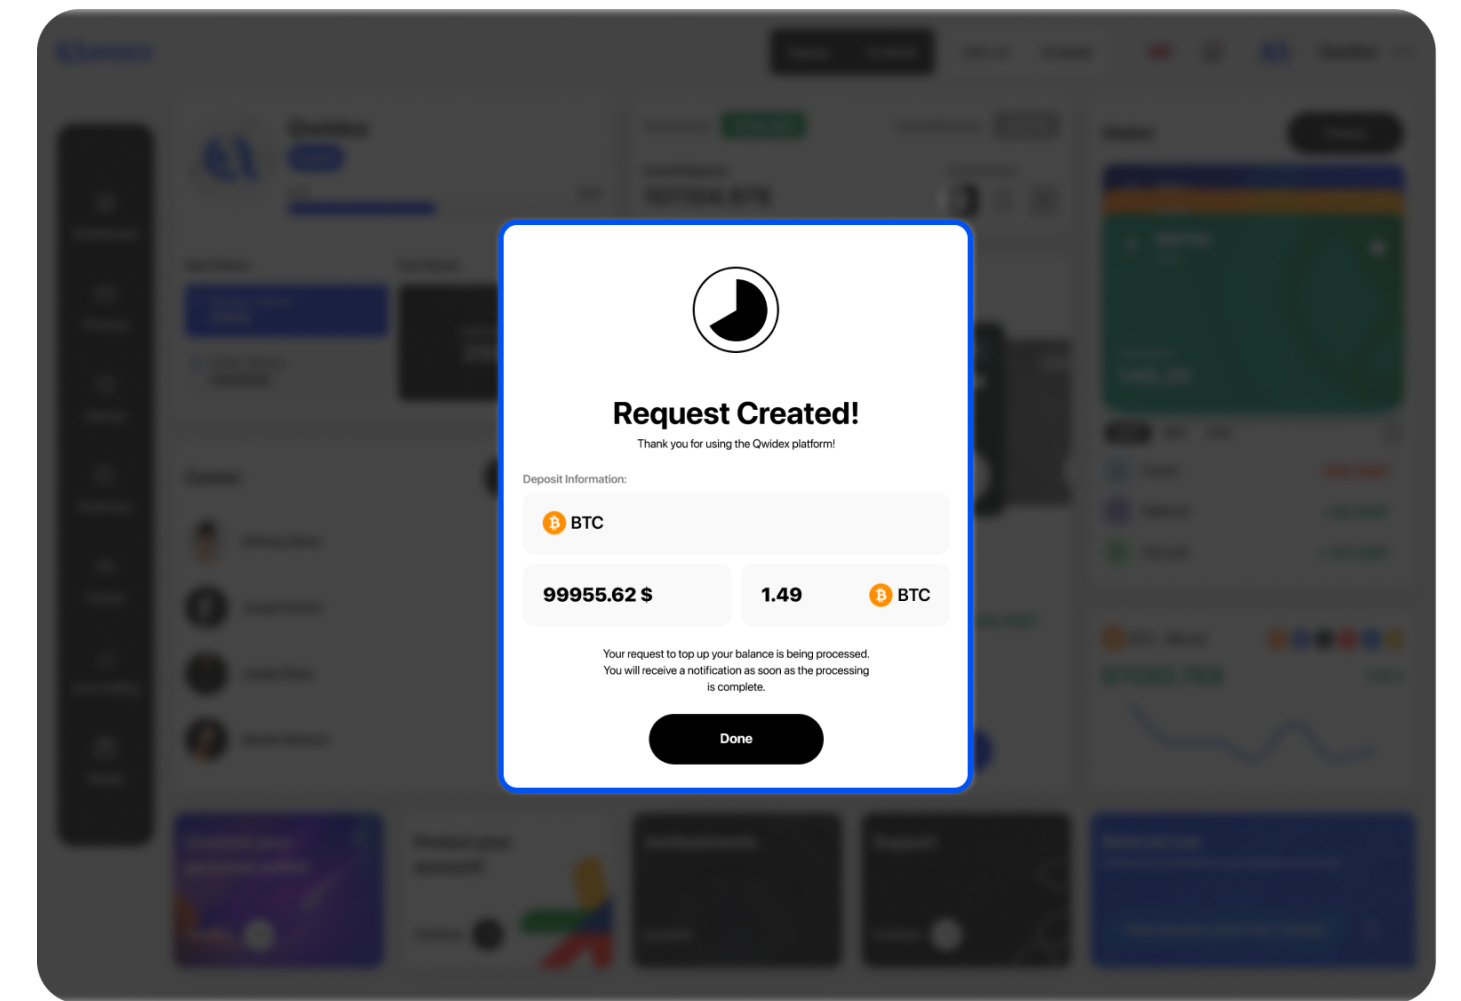

To replenish your balance, you should select currency from the list, enter the replenishment amount and select network if necessary. Please check all the fields and proceed to the next step by pressing “Deposit” button.

2. Balance replenishment

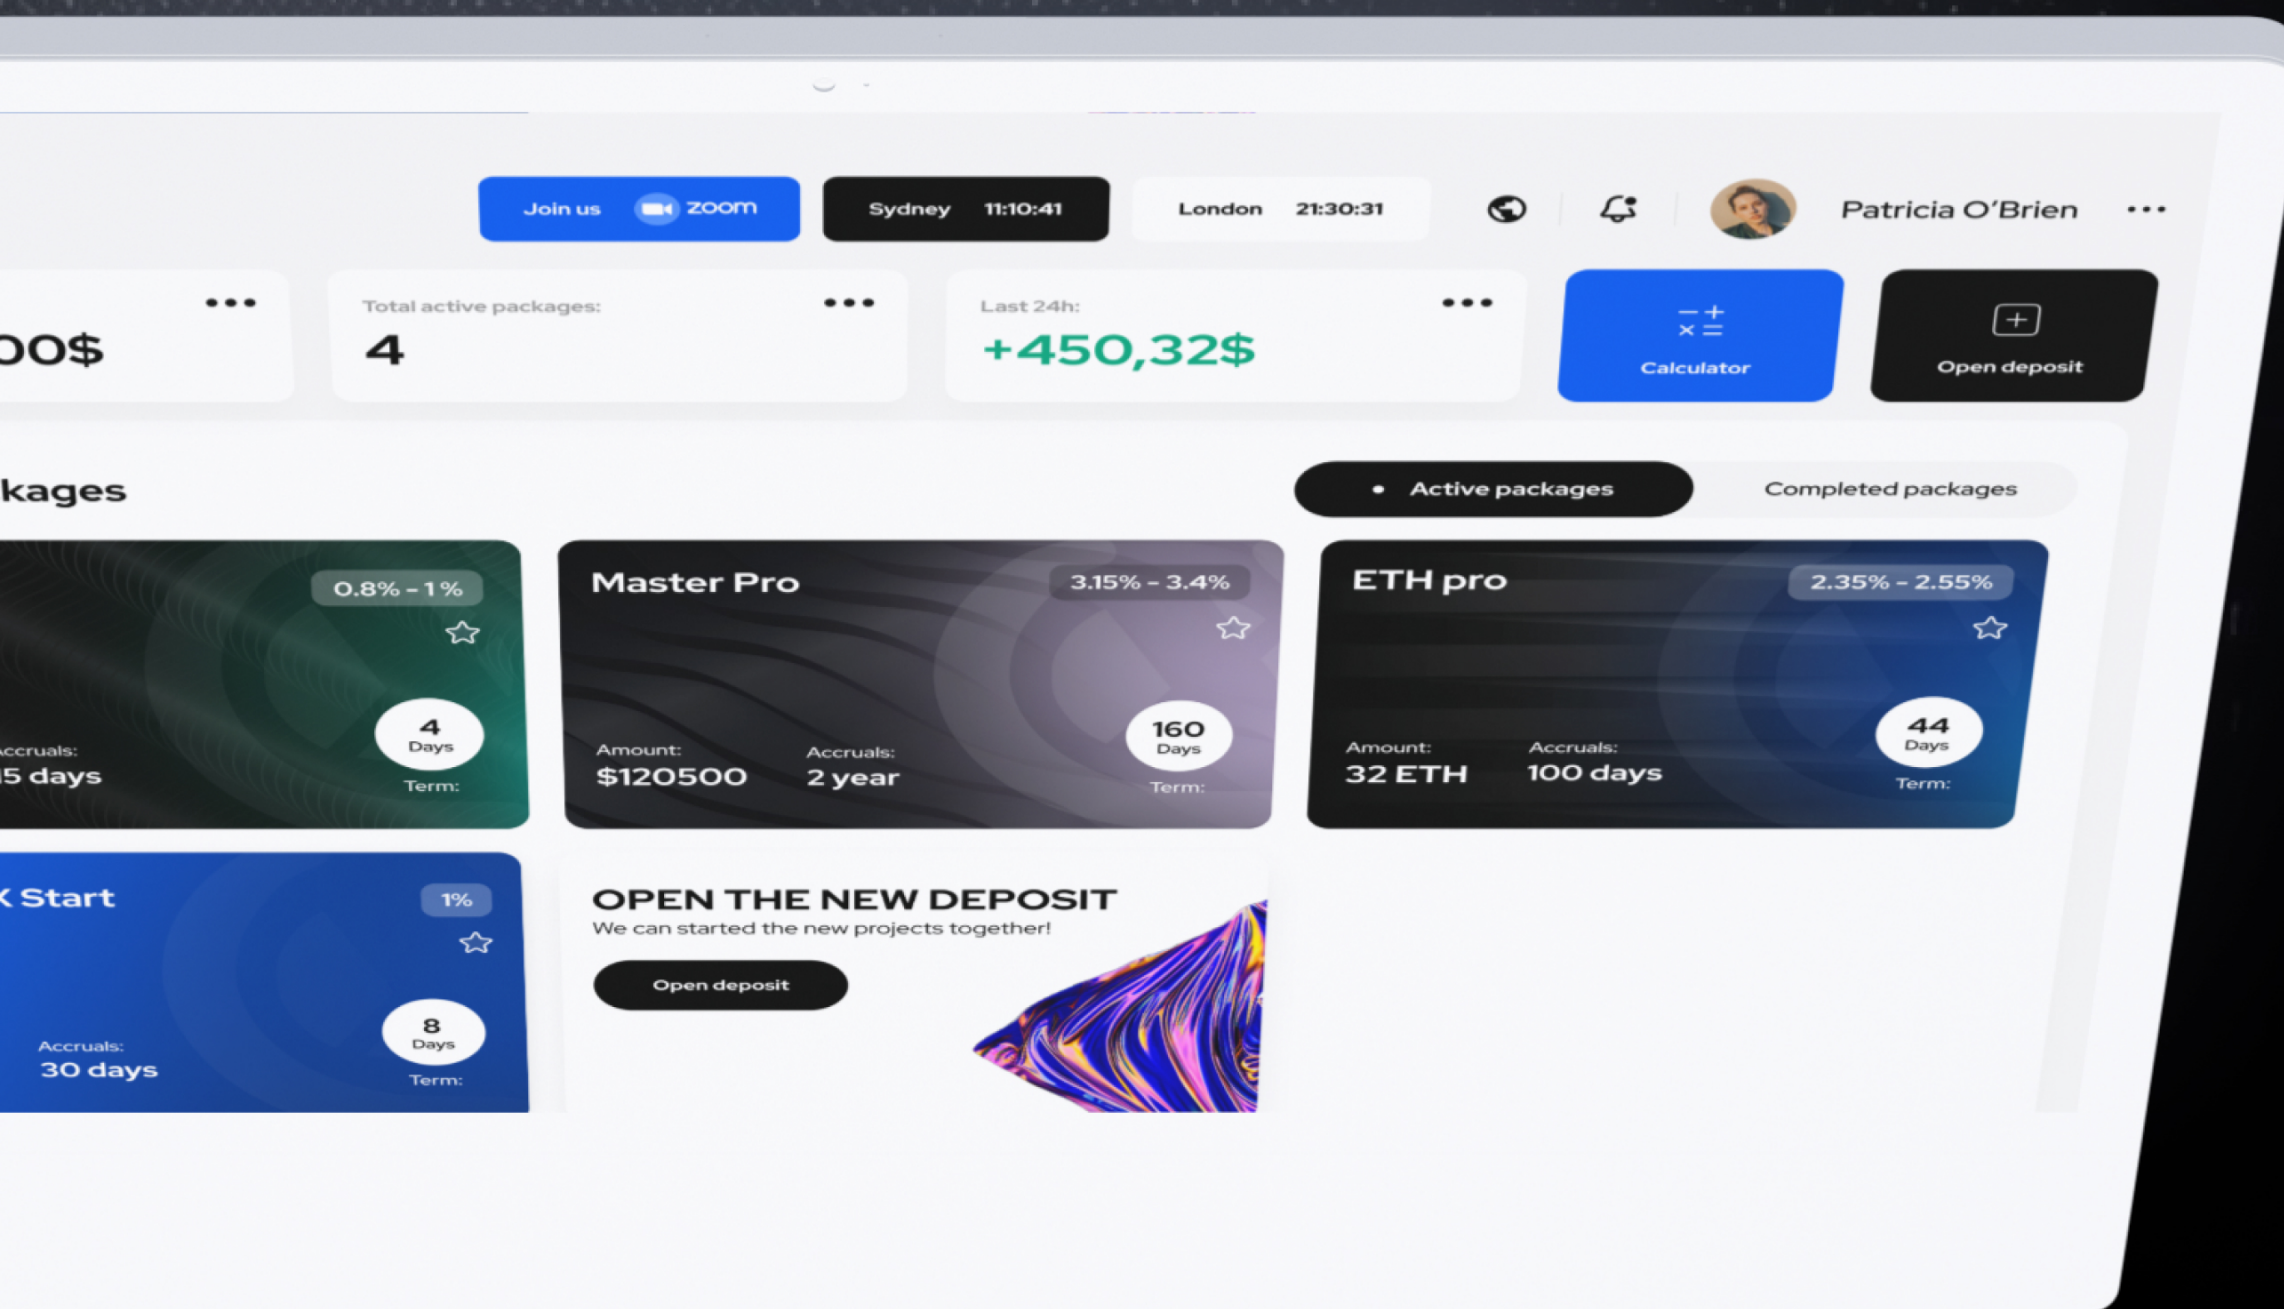

When you have created the request for the balance replenishment, you should transfer the specified amount of funds in the currency which you have already selected at previous step. Please scan QR-code or copy the wallet address for transfer of funds. After transaction you should tick in the corresponding place and press “Complete” button.

3. Operation completion

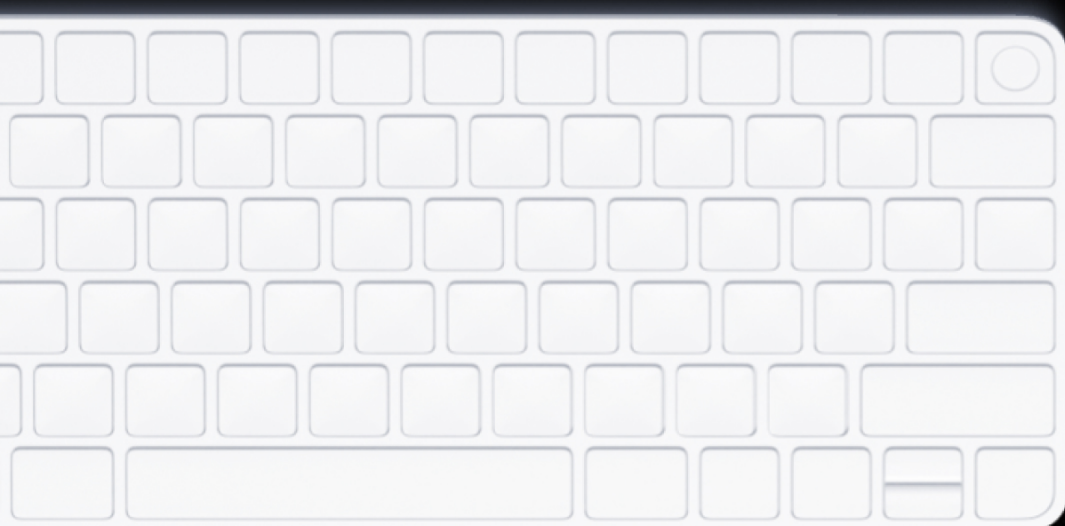

Congratulations, your request for the balance replenishment has been successfully created. When the operation is processed, you will see the corresponding notification in your personal account.

Deposit Package Activation

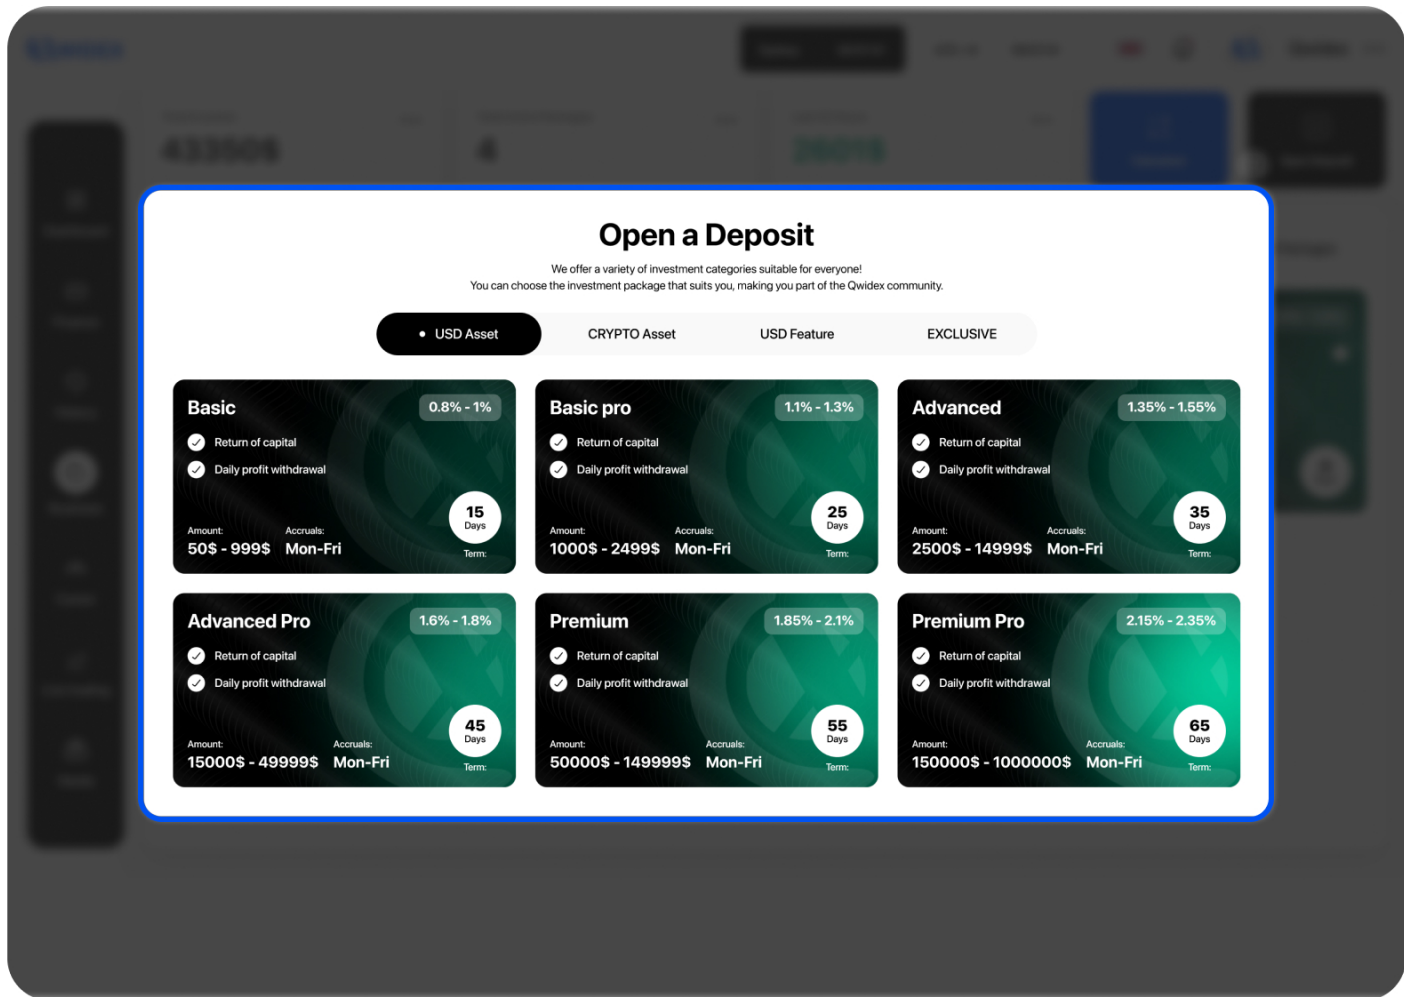

To activate your deposit package, you should go to “Business” category in your private account, then press “Open Deposit” button and select one of the four provided categories. Please note that each category of the deposit packages has different operation conditions.

Calculate the efficiency of your investments in advance by using a unique calculator in “Business” category in your private account.

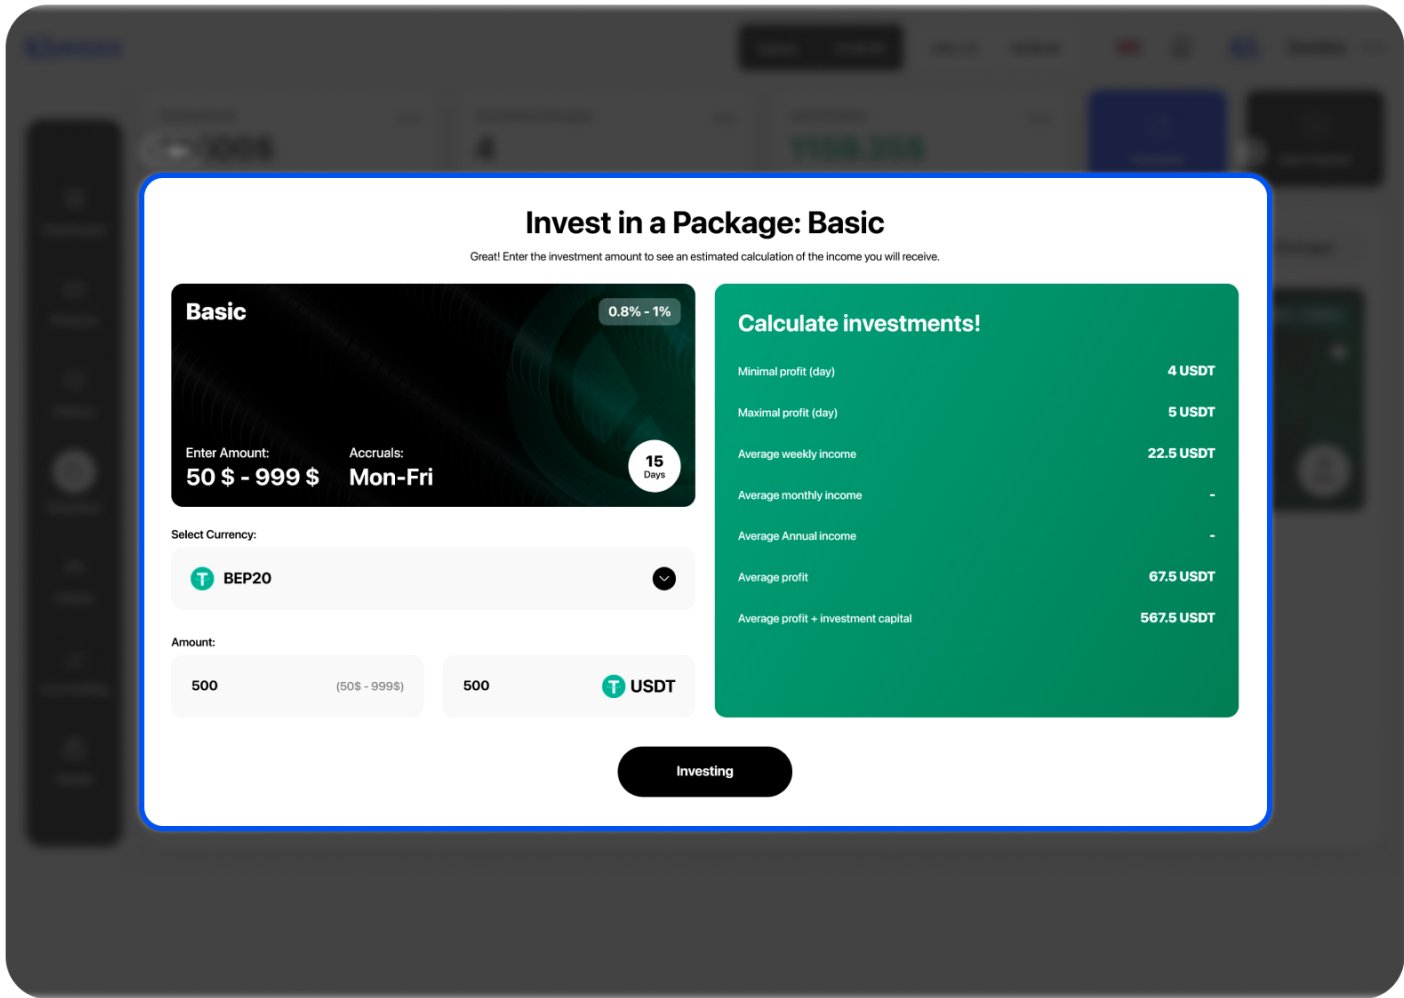

Activation Phases

1. Deposit Package Selection

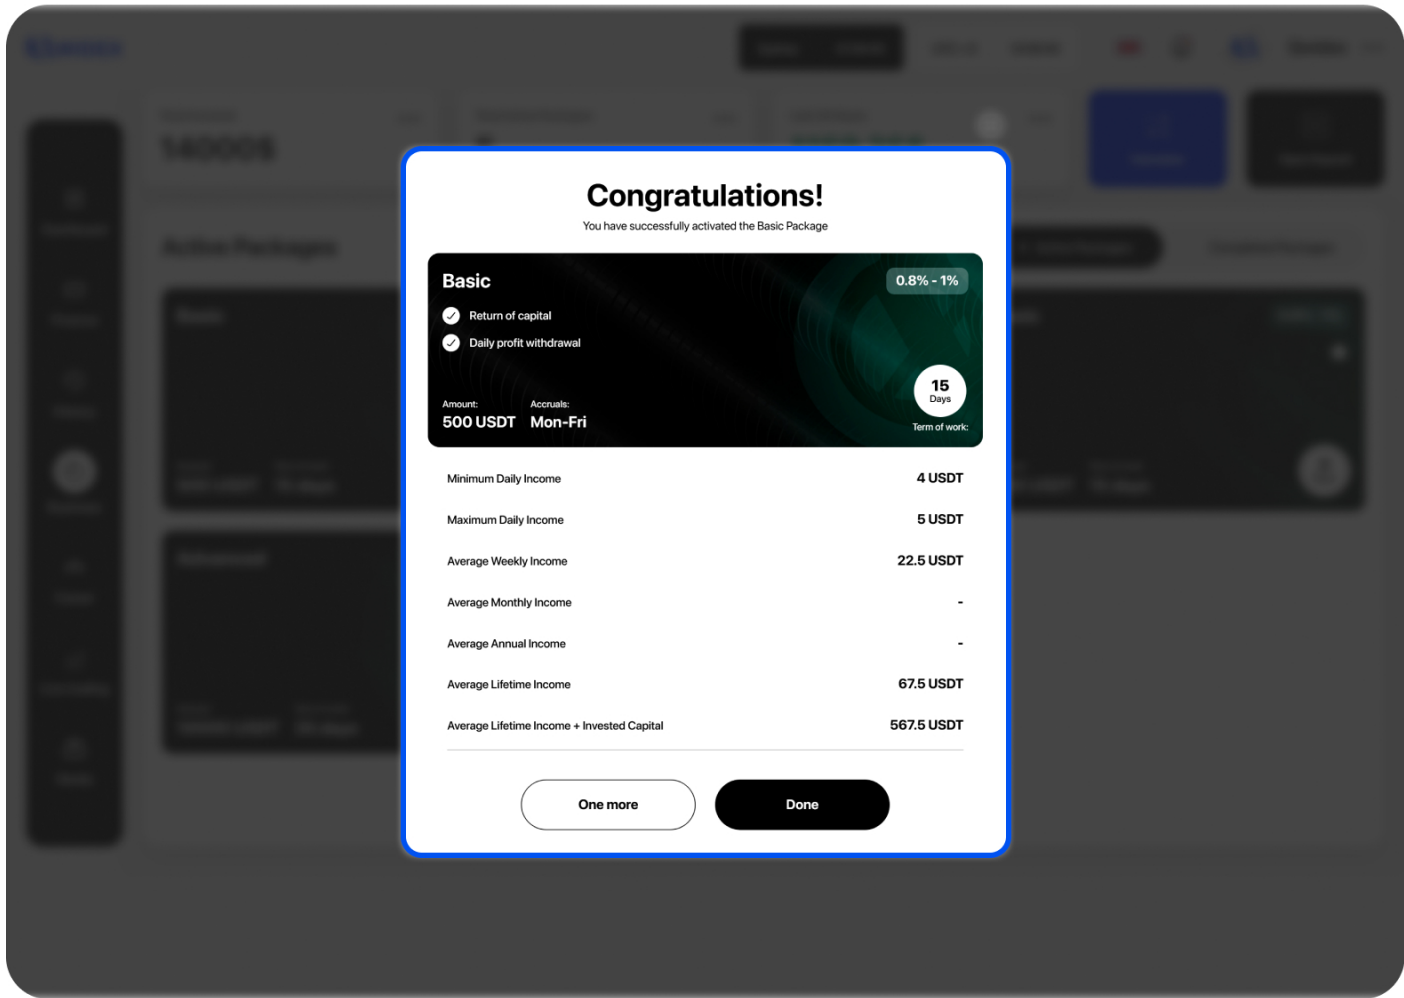

Each of the provided categories has different deposit packages which correspond to different needs of Qwidex customers. Please pay attention to operation conditions of each deposit package for you to select the most appropriate variant.

2. Deposit Package Activation

When you selected the deposit package it is also necessary to select the currency and enter the deposit amount. Please note that the preliminary calculation of investments will show you the preliminary profitability according to the selected deposit package. Press "Investing" button to activate the selected deposit package.

3. Operation Completion

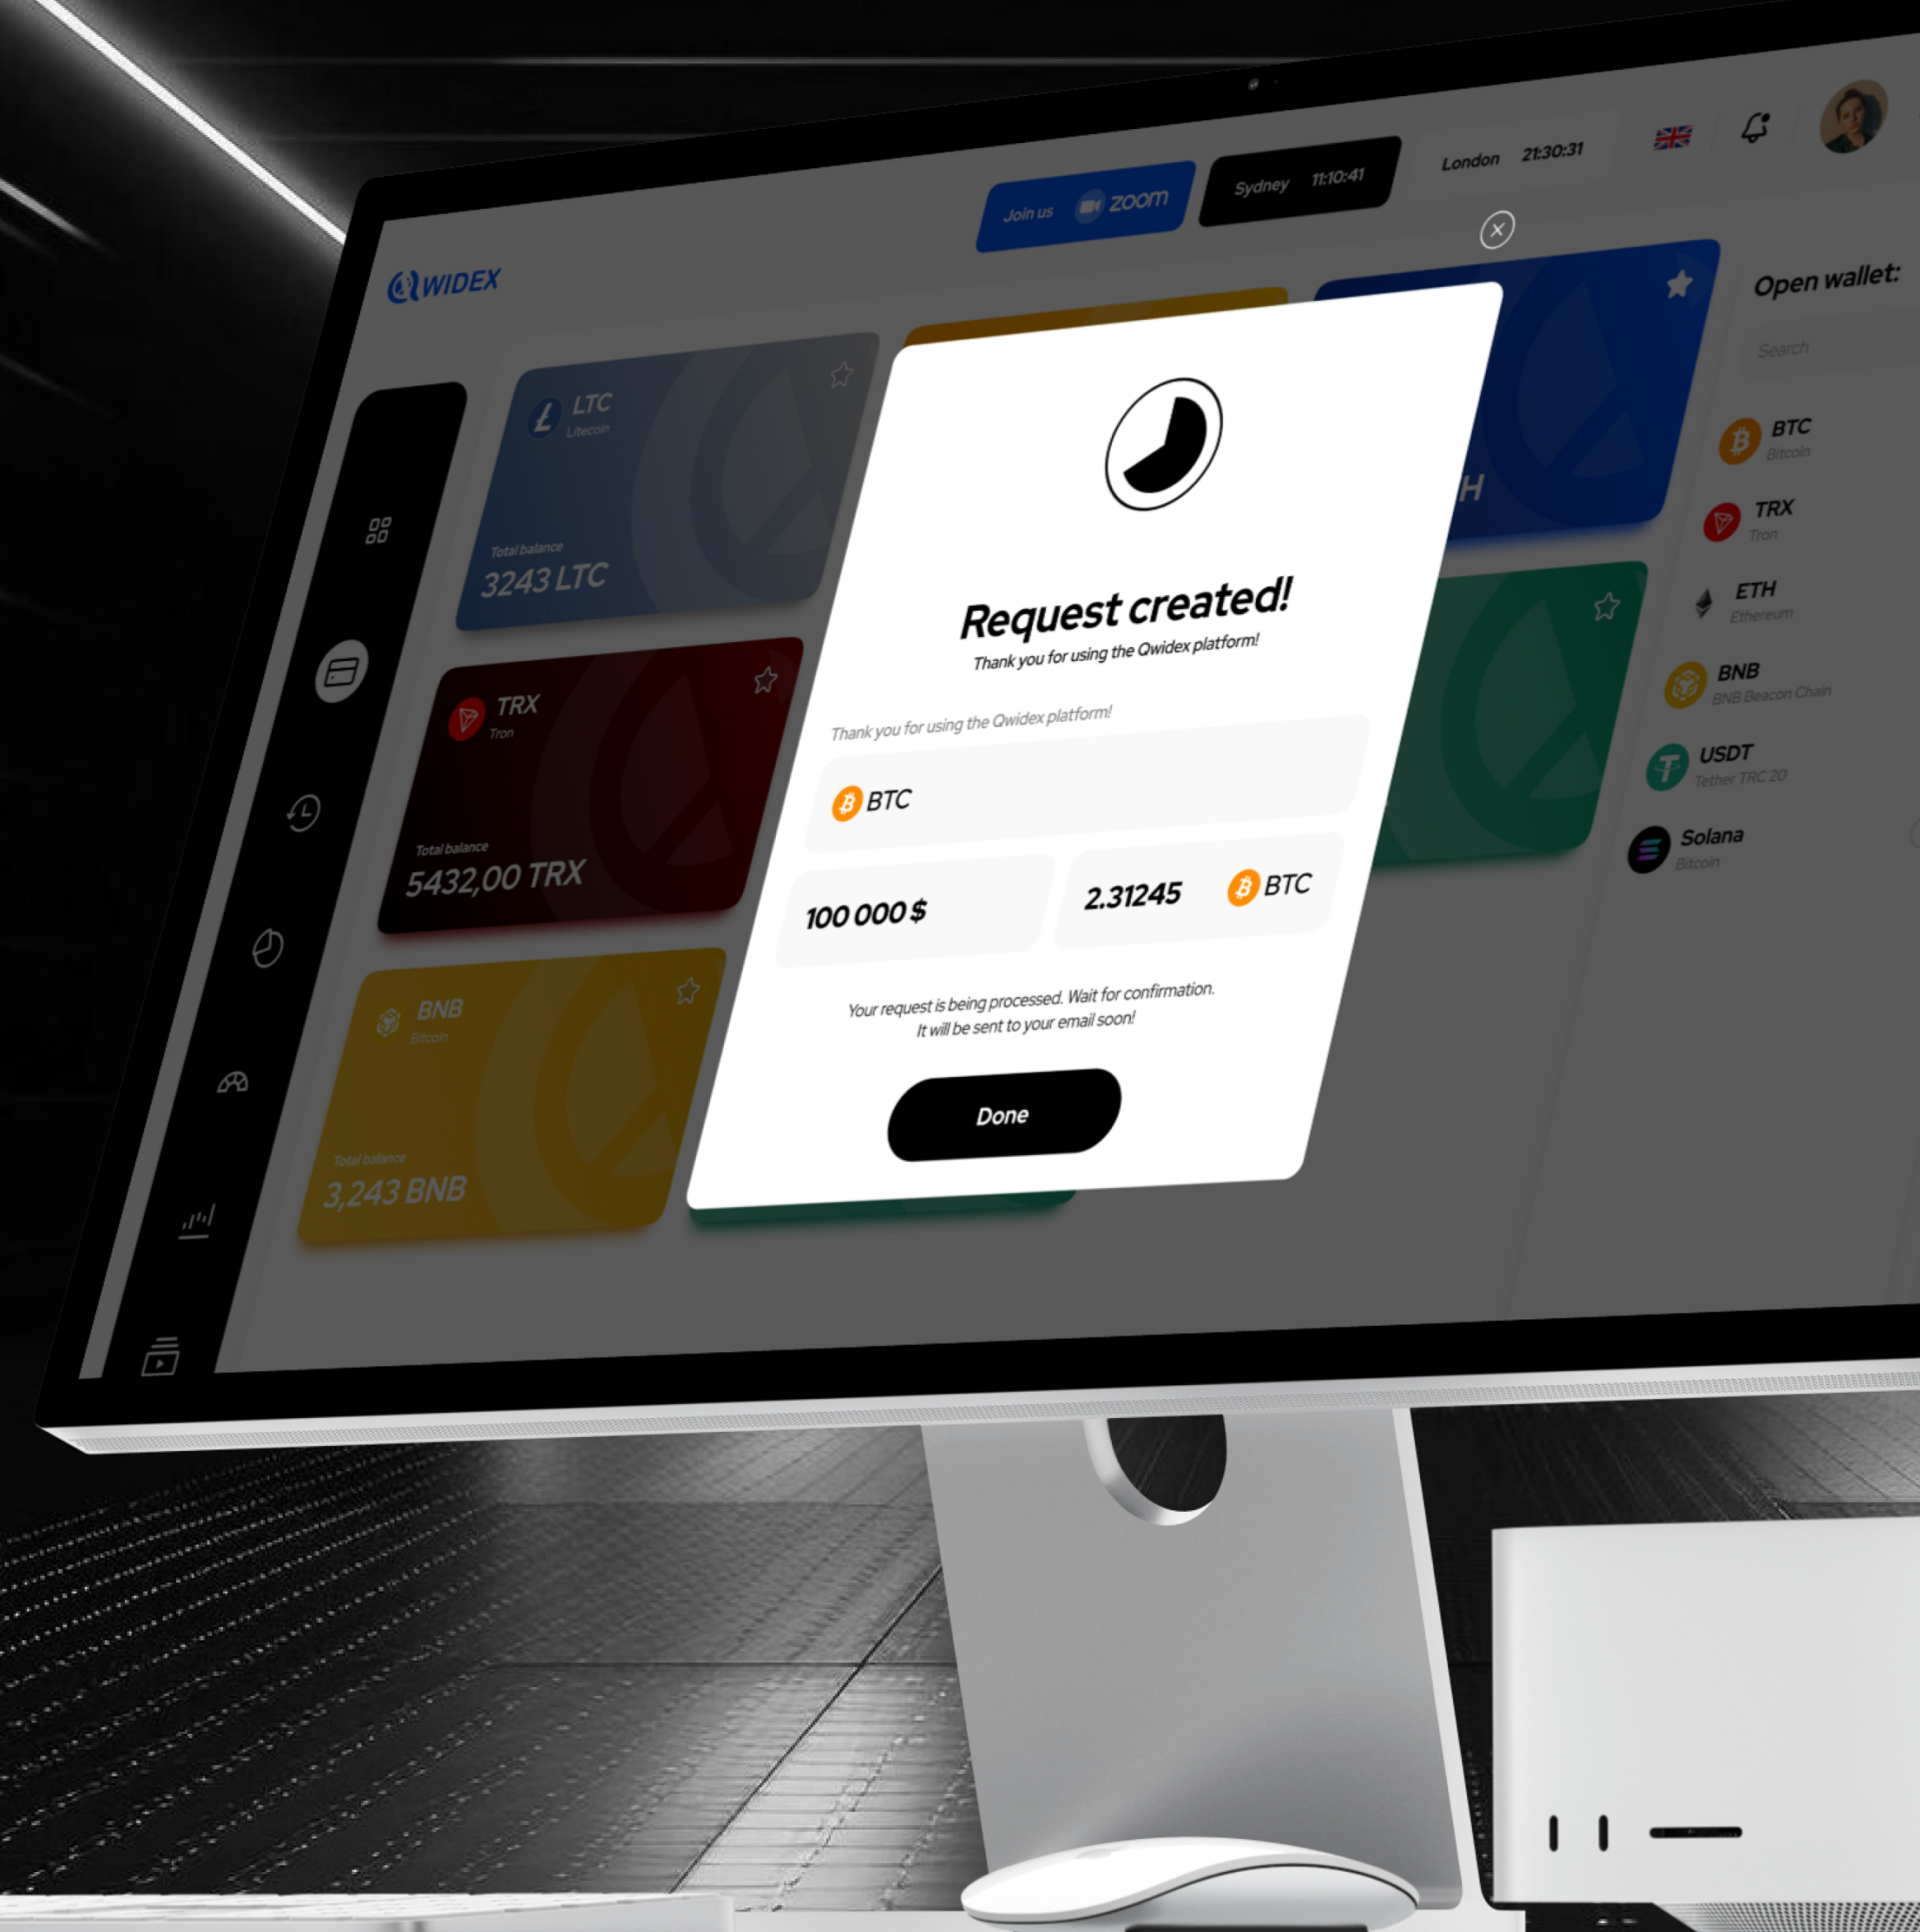

Congratulations, you have successfully activated your deposit package. Please note the preliminary return of the selected deposit package and press "Done" button. To get info about activated deposit package and earned profit, you should go to "Finance" category and press the activated deposit package.

Funds withdrawal

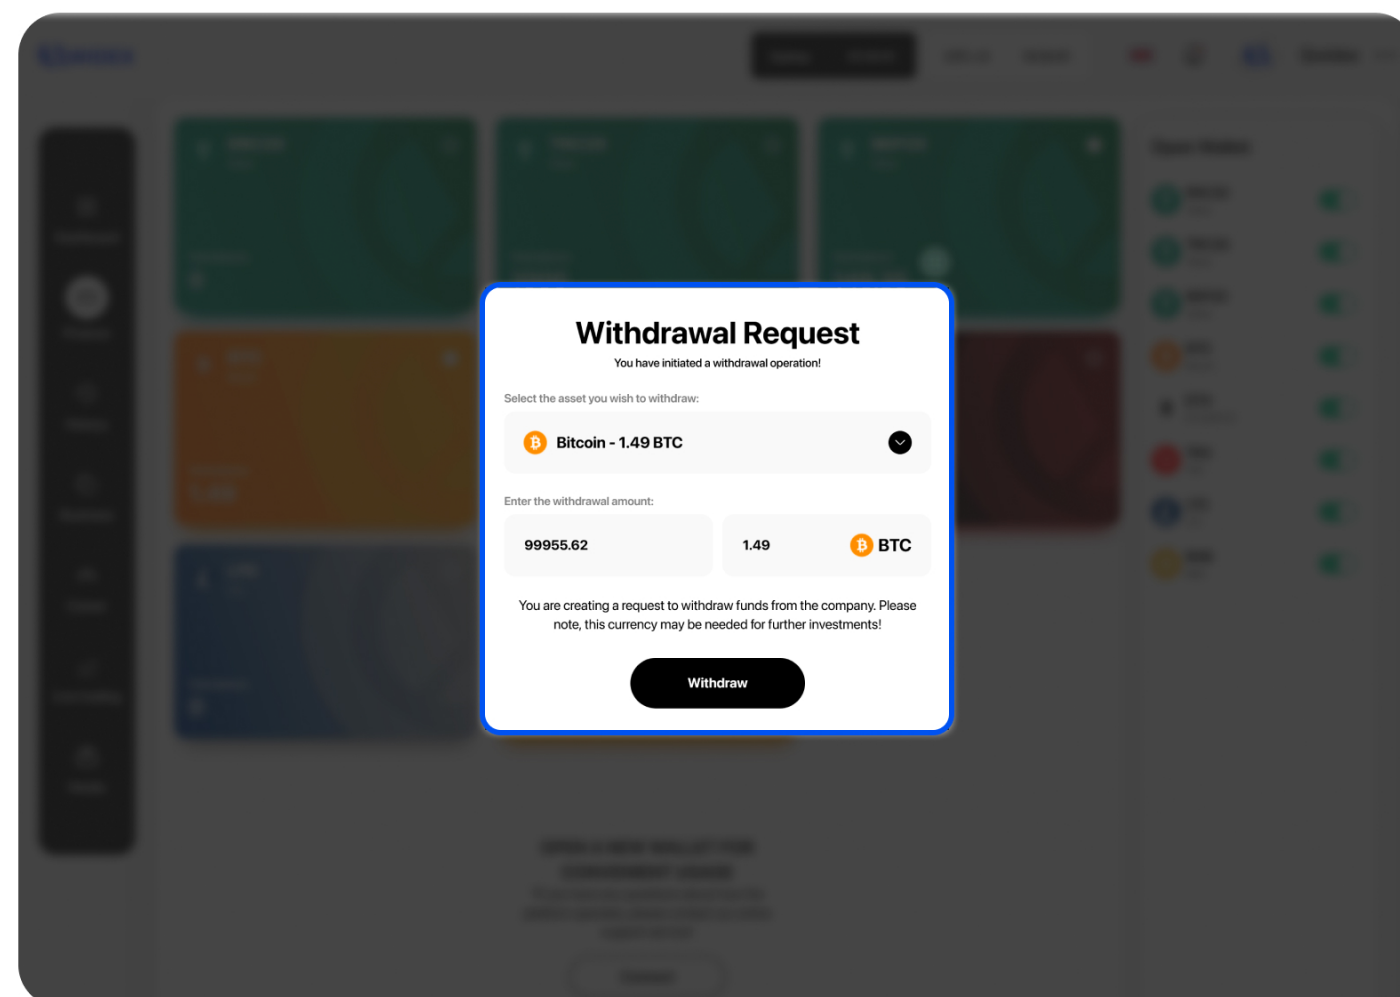

To withdraw your funds from the Qwidex company, you should go to “Finance” category and select the required currency account. Please note that you can also withdraw funds on your private account dashboard page.

Please note that funds withdrawal process consists of the several simple steps and requires an additional confirmation of operation via financial pin-code which you have created during registration process.

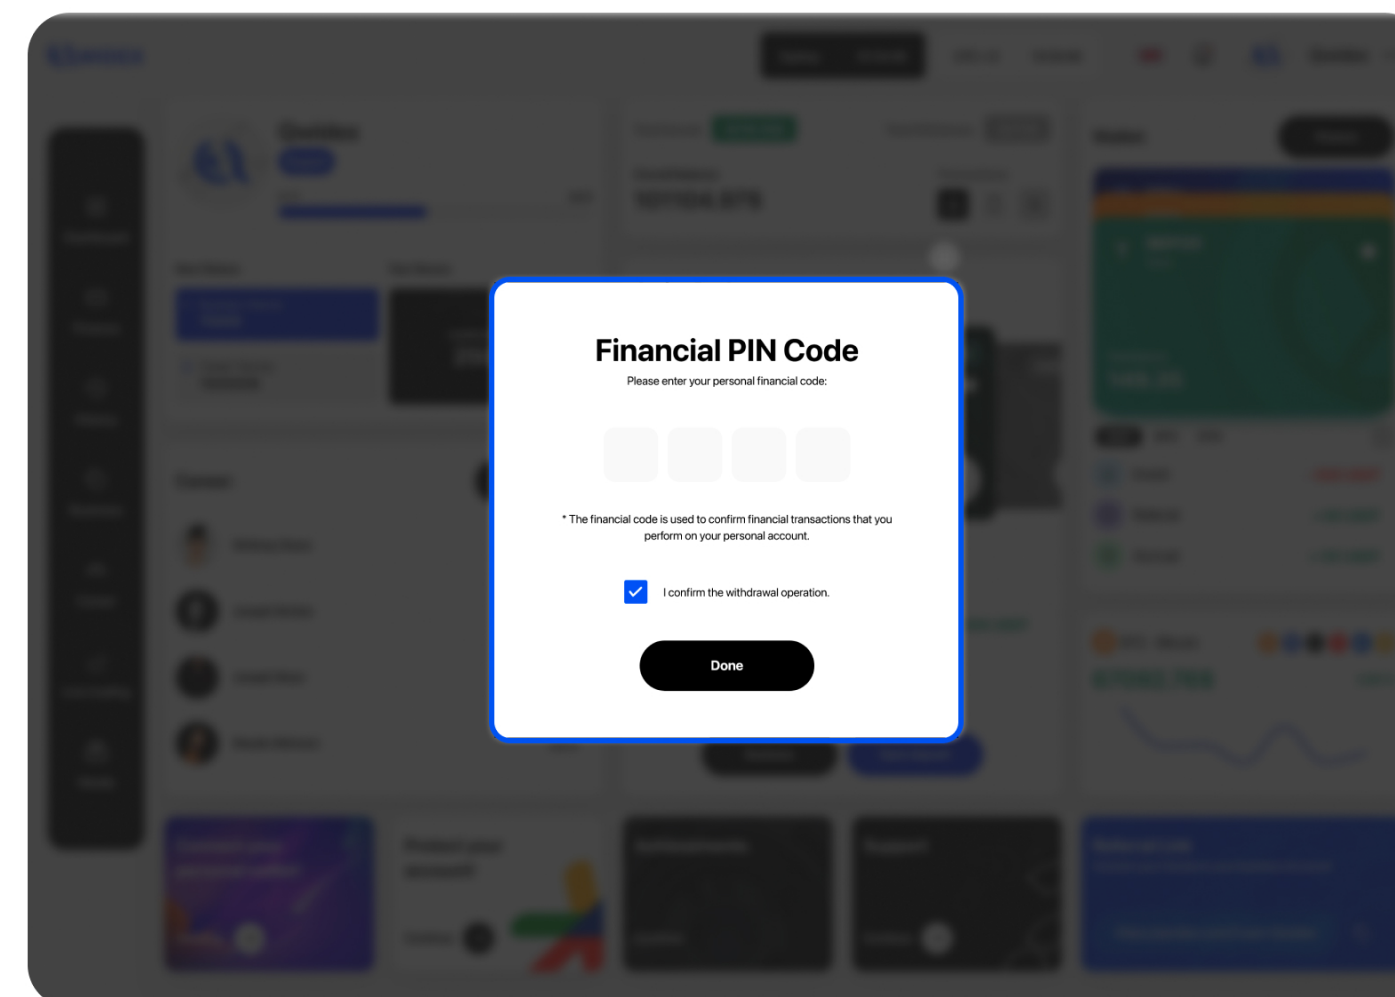

Withdrawal stages:

1. Currency selection

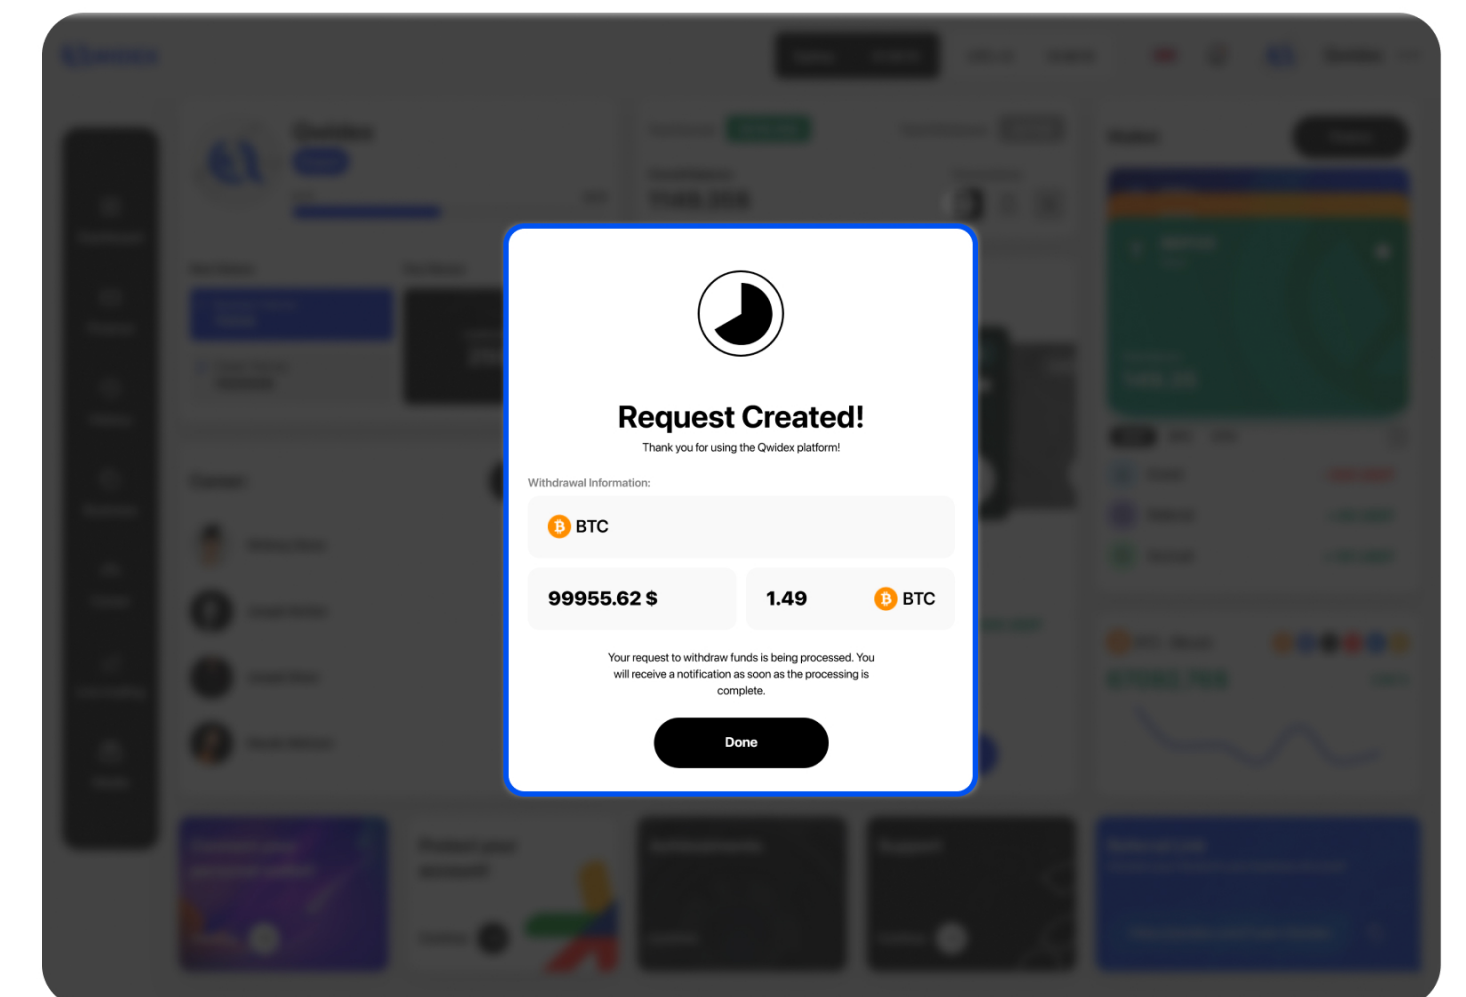

To withdraw your funds, you should select currency from the list, enter the withdrawal amount and select network if necessary. Please check all the fields and proceed to the next step by pressing “Withdrawal” button.

2. Financial Pin-Code

To confirm the withdrawal operation, please enter the financial pin-code which you have created during registration process, then tick in the corresponding place and press “Done” button to proceed to the next step.

3. Operation Completion

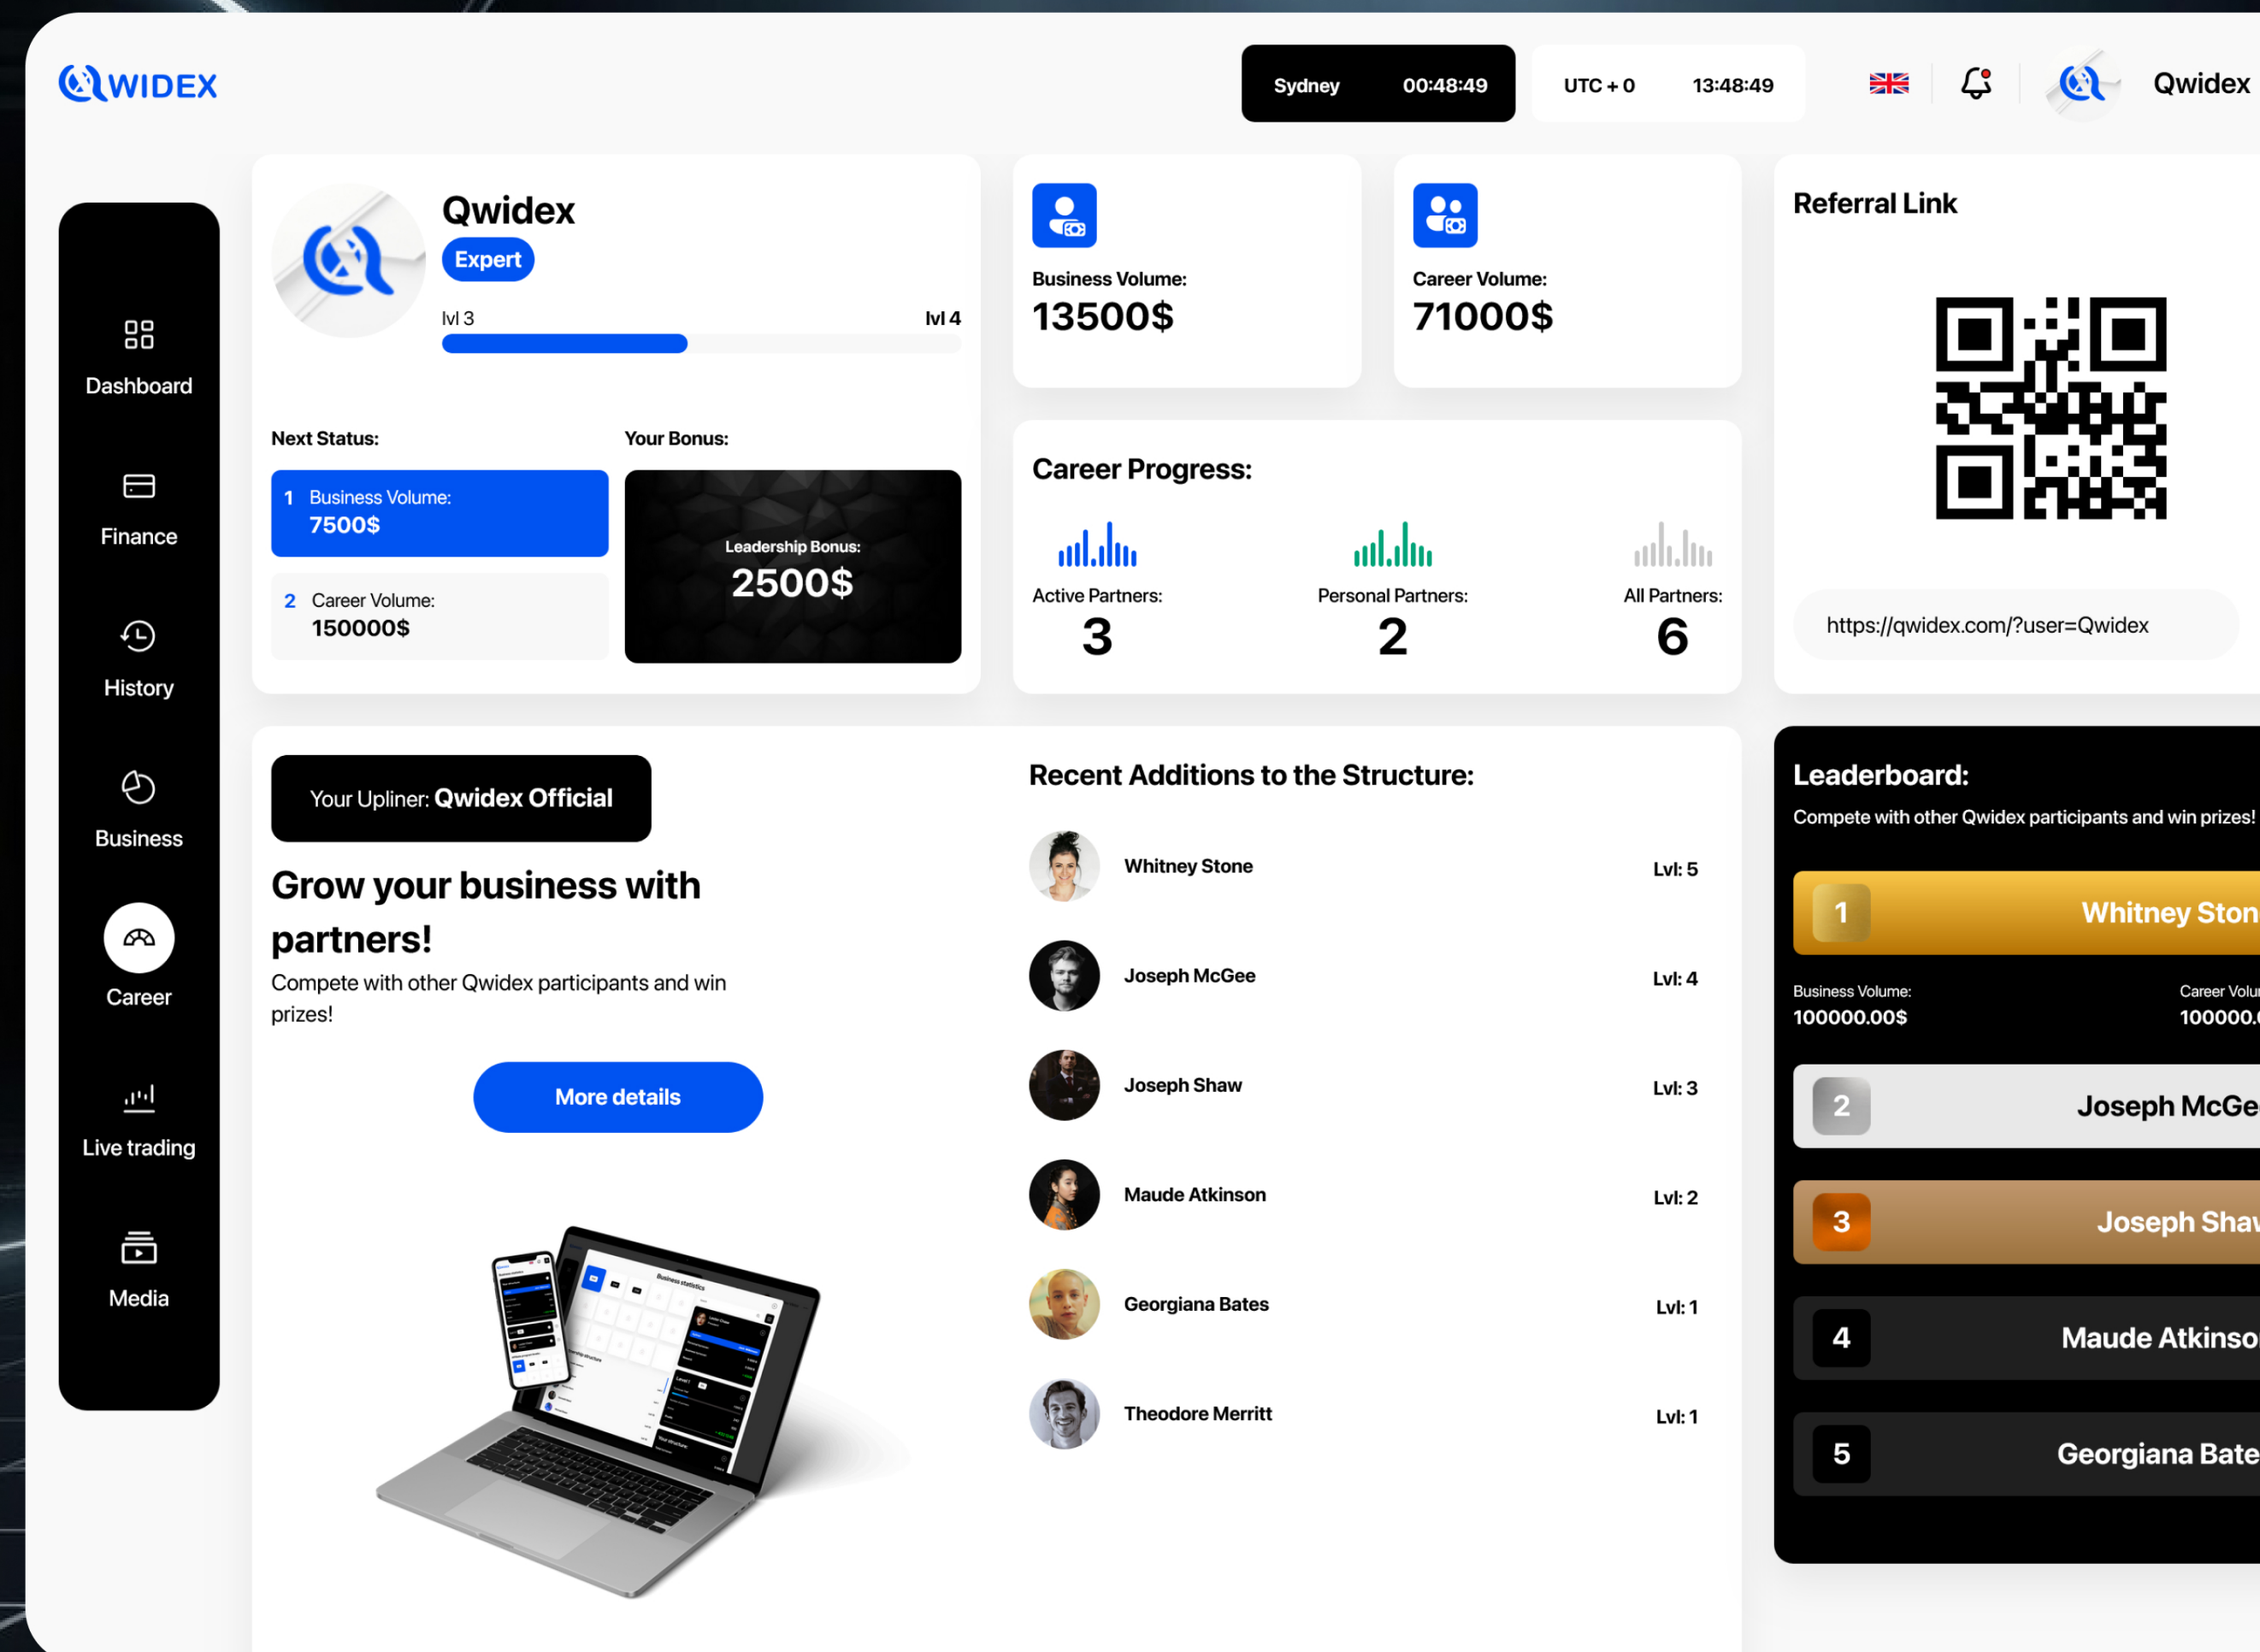

Congratulations, your request for the funds withdrawal has been successfully created. When the operation is processed, you will see the corresponding notification in your personal account

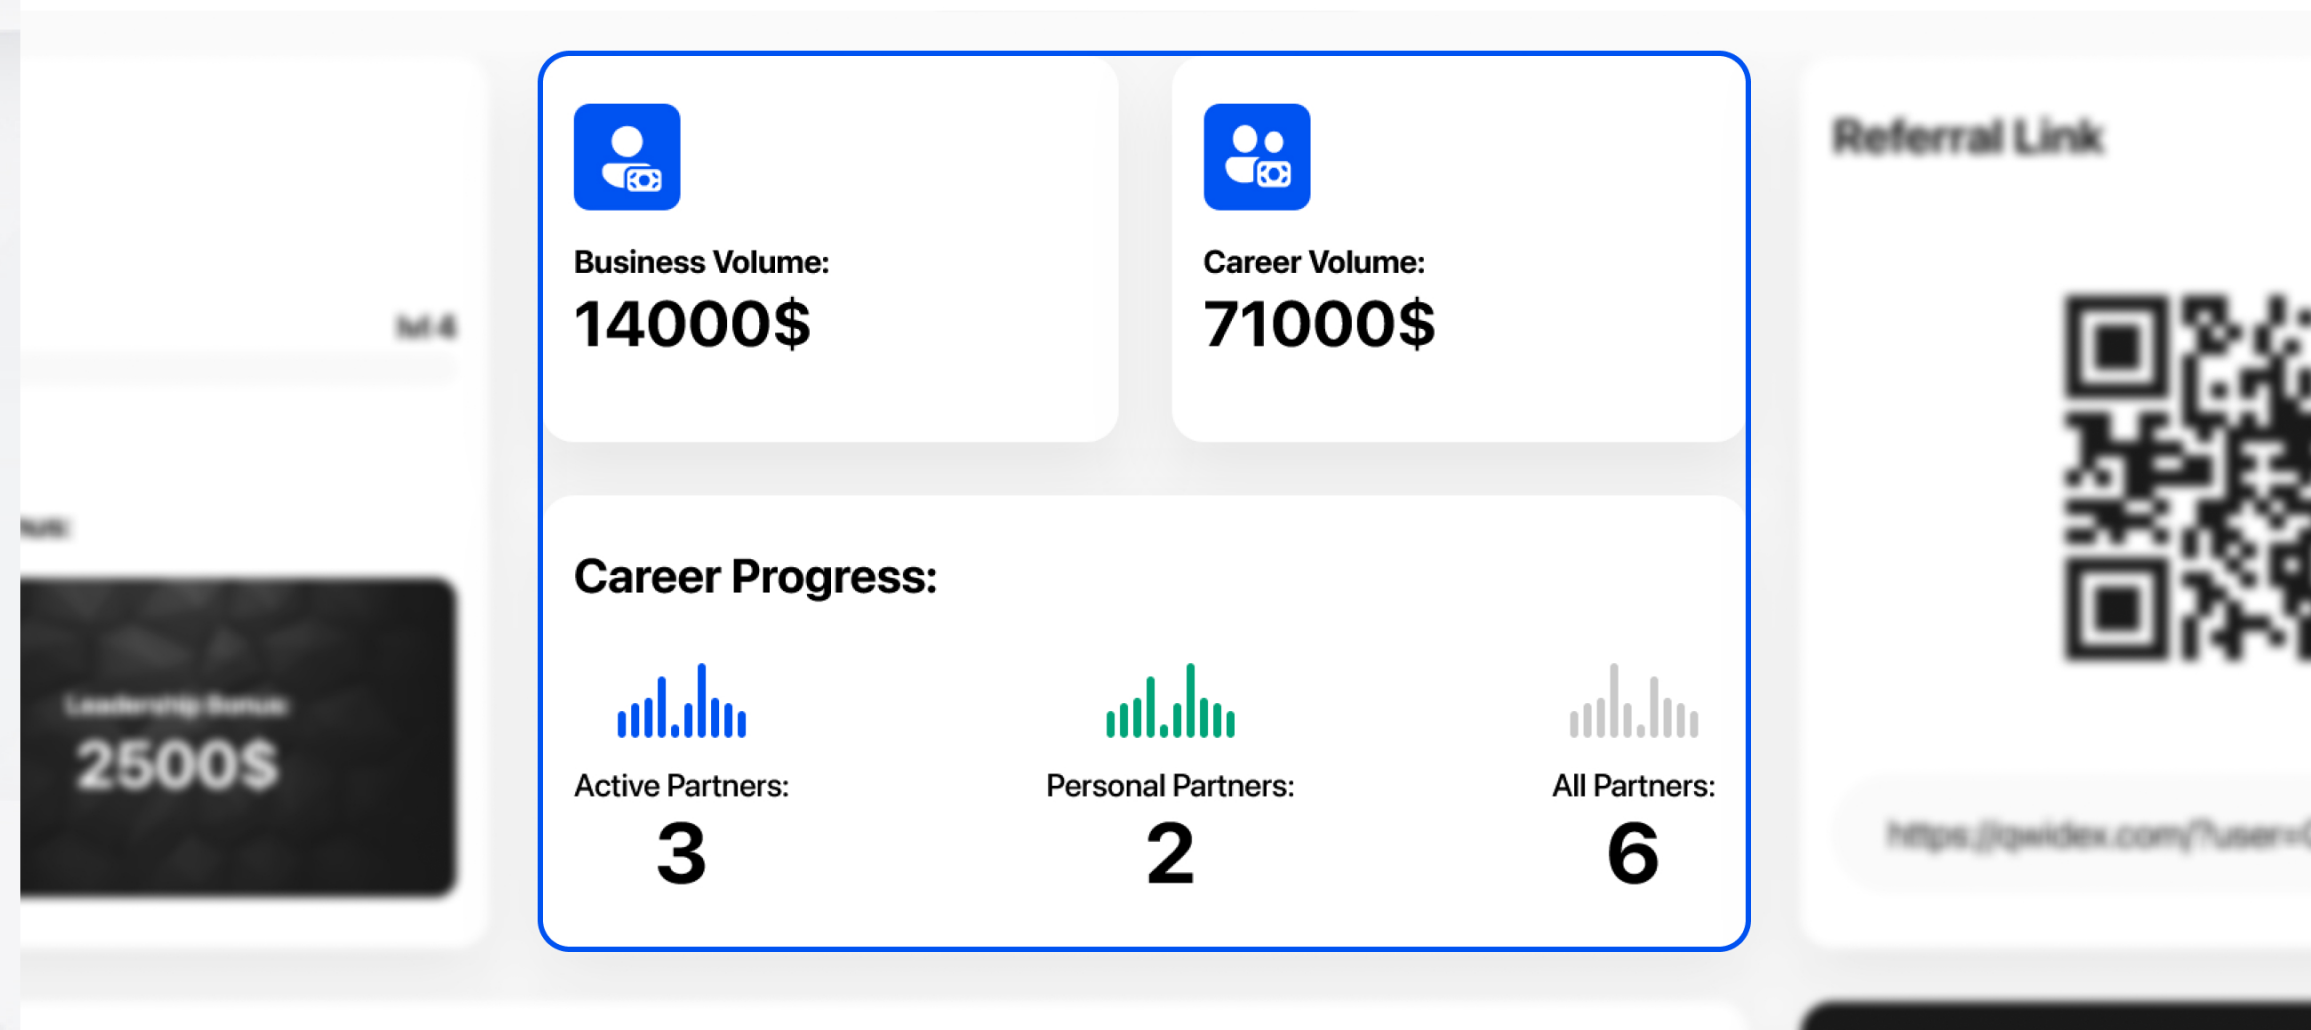

The career growth management has never been such simple and comfortable. Go to “Career” category to review the functional opportunities in detail.

Please note that the career growth consists of 12 statuses which have special goals for their fulfillment. Receive additional awards each time you achieve a new status.

Main functional points

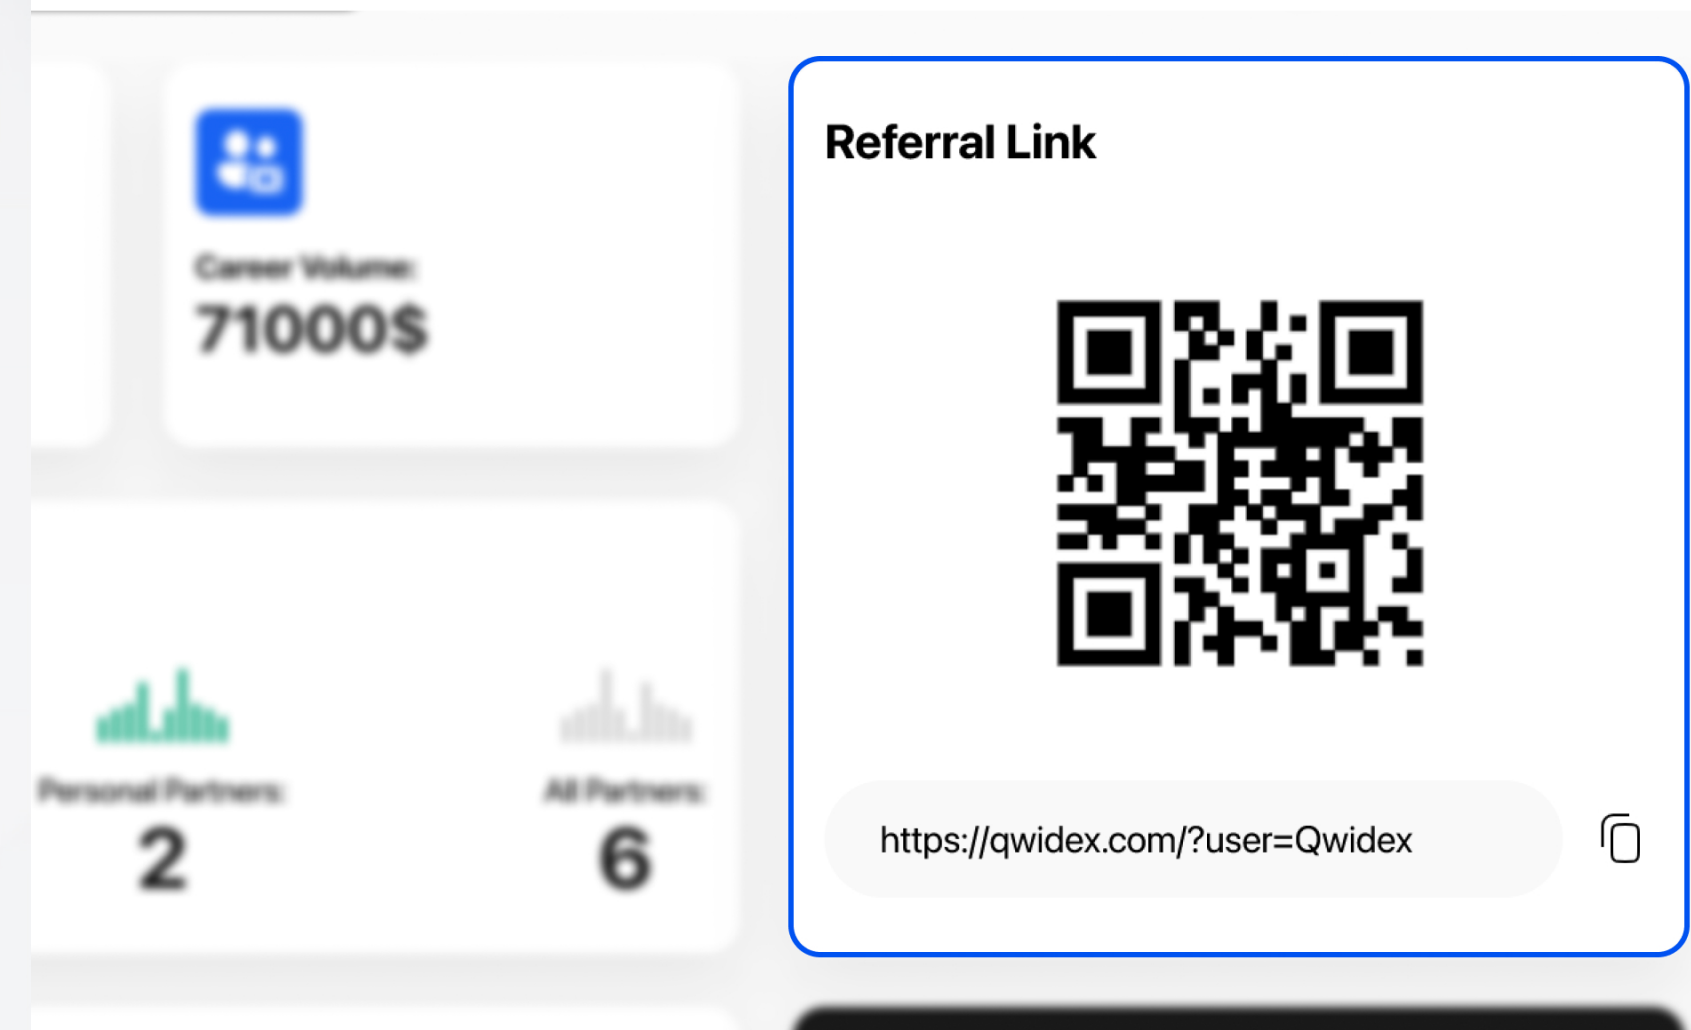

1. General business-statistics

Here we can review the general info about progress of personal and career business.

- **Business-turnover** – total amount of invested funds from the given personal account.
- **Career-turnover** – amount of invested funds from the partners of the personal structure.
- **All partners** – total number of registered partners in the personal structure.
- Personal partners – total number of partners registered with your referral link.
- Active partners – total number of active partners in the personal structure.

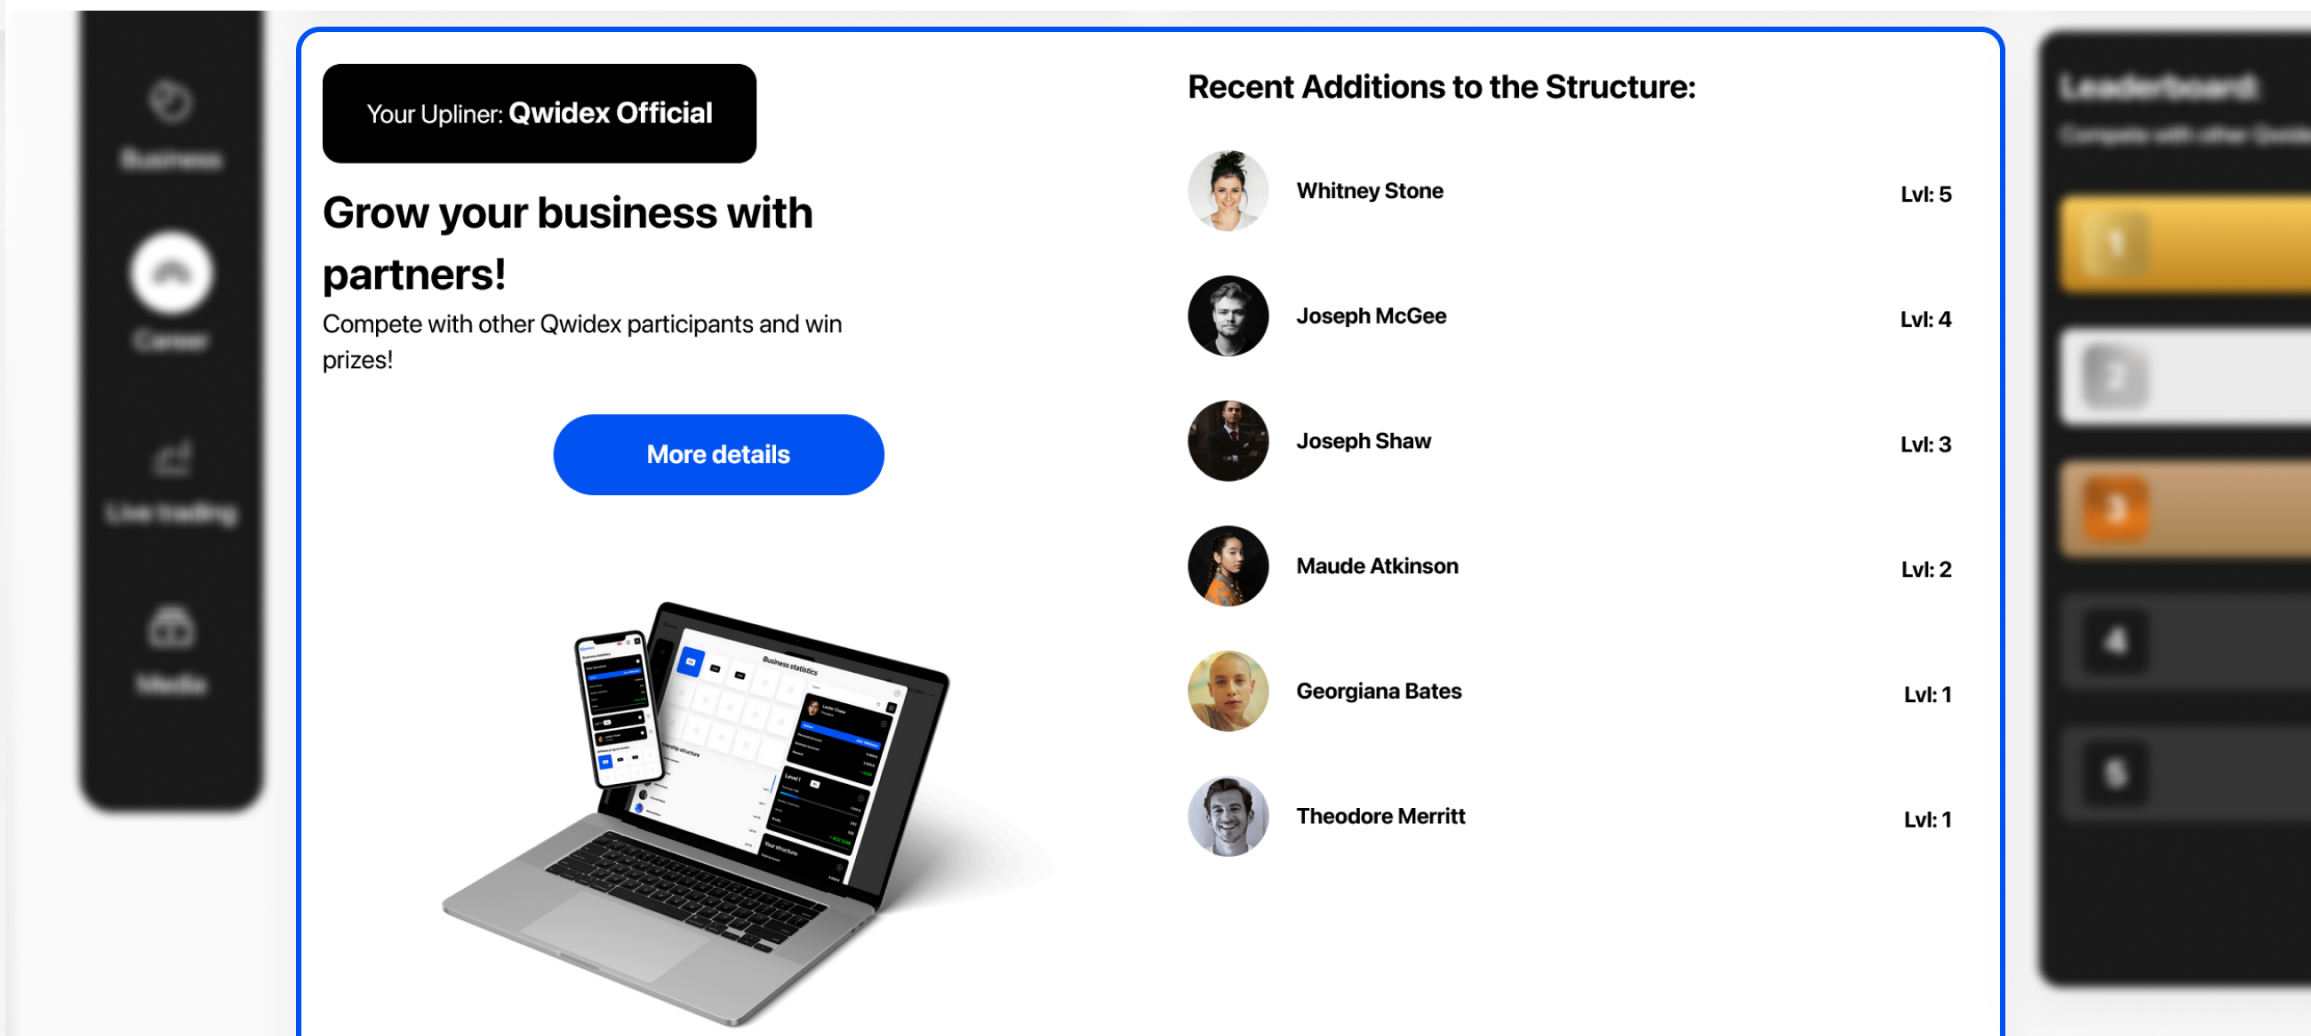

2. Referral Link

Use your personal referral link to invite the partner to join exactly your structure. You should just copy your referral link by pressing the corresponding button or share your personal QR-code to register a new partner.

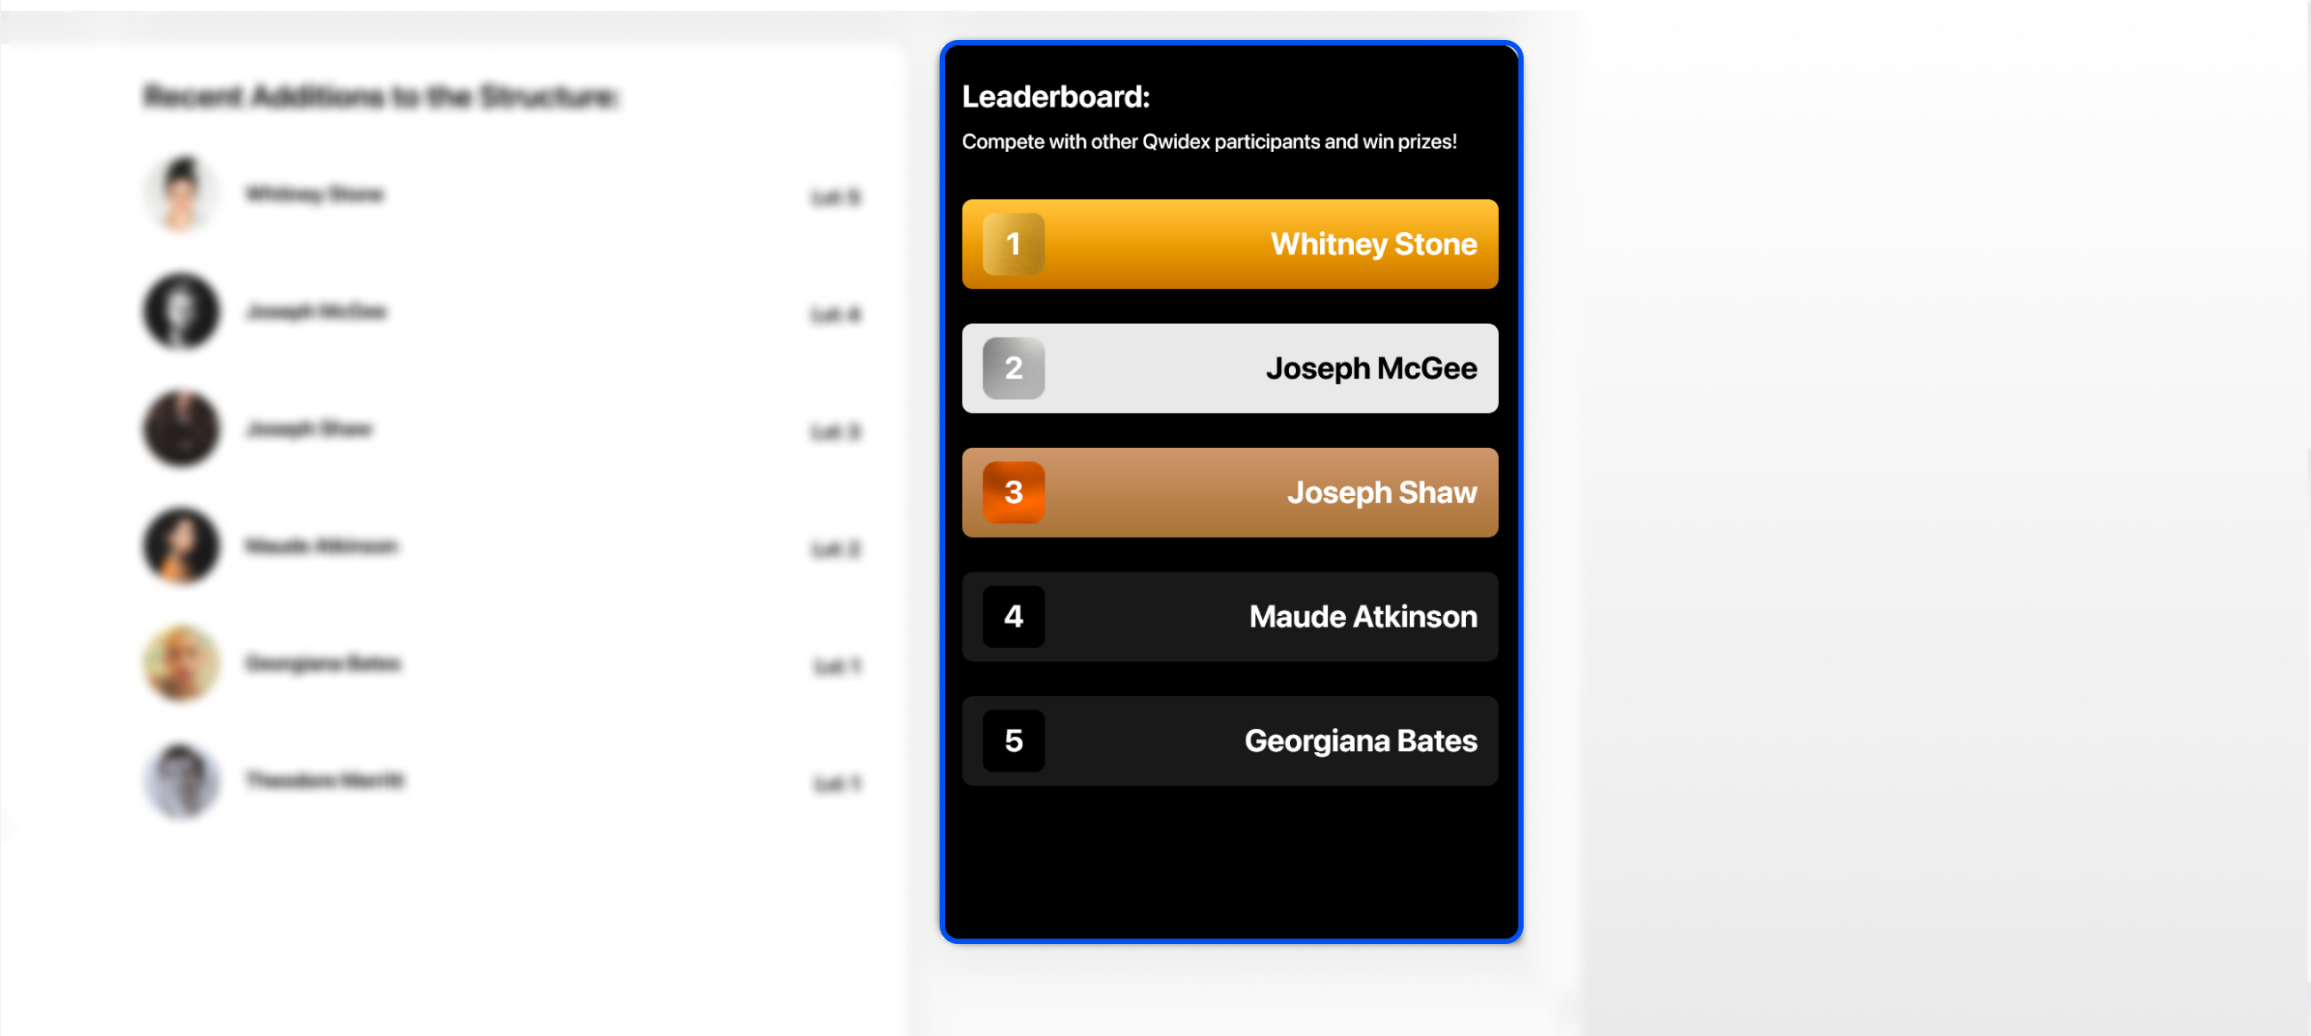

Main functional points

3. Structure Management

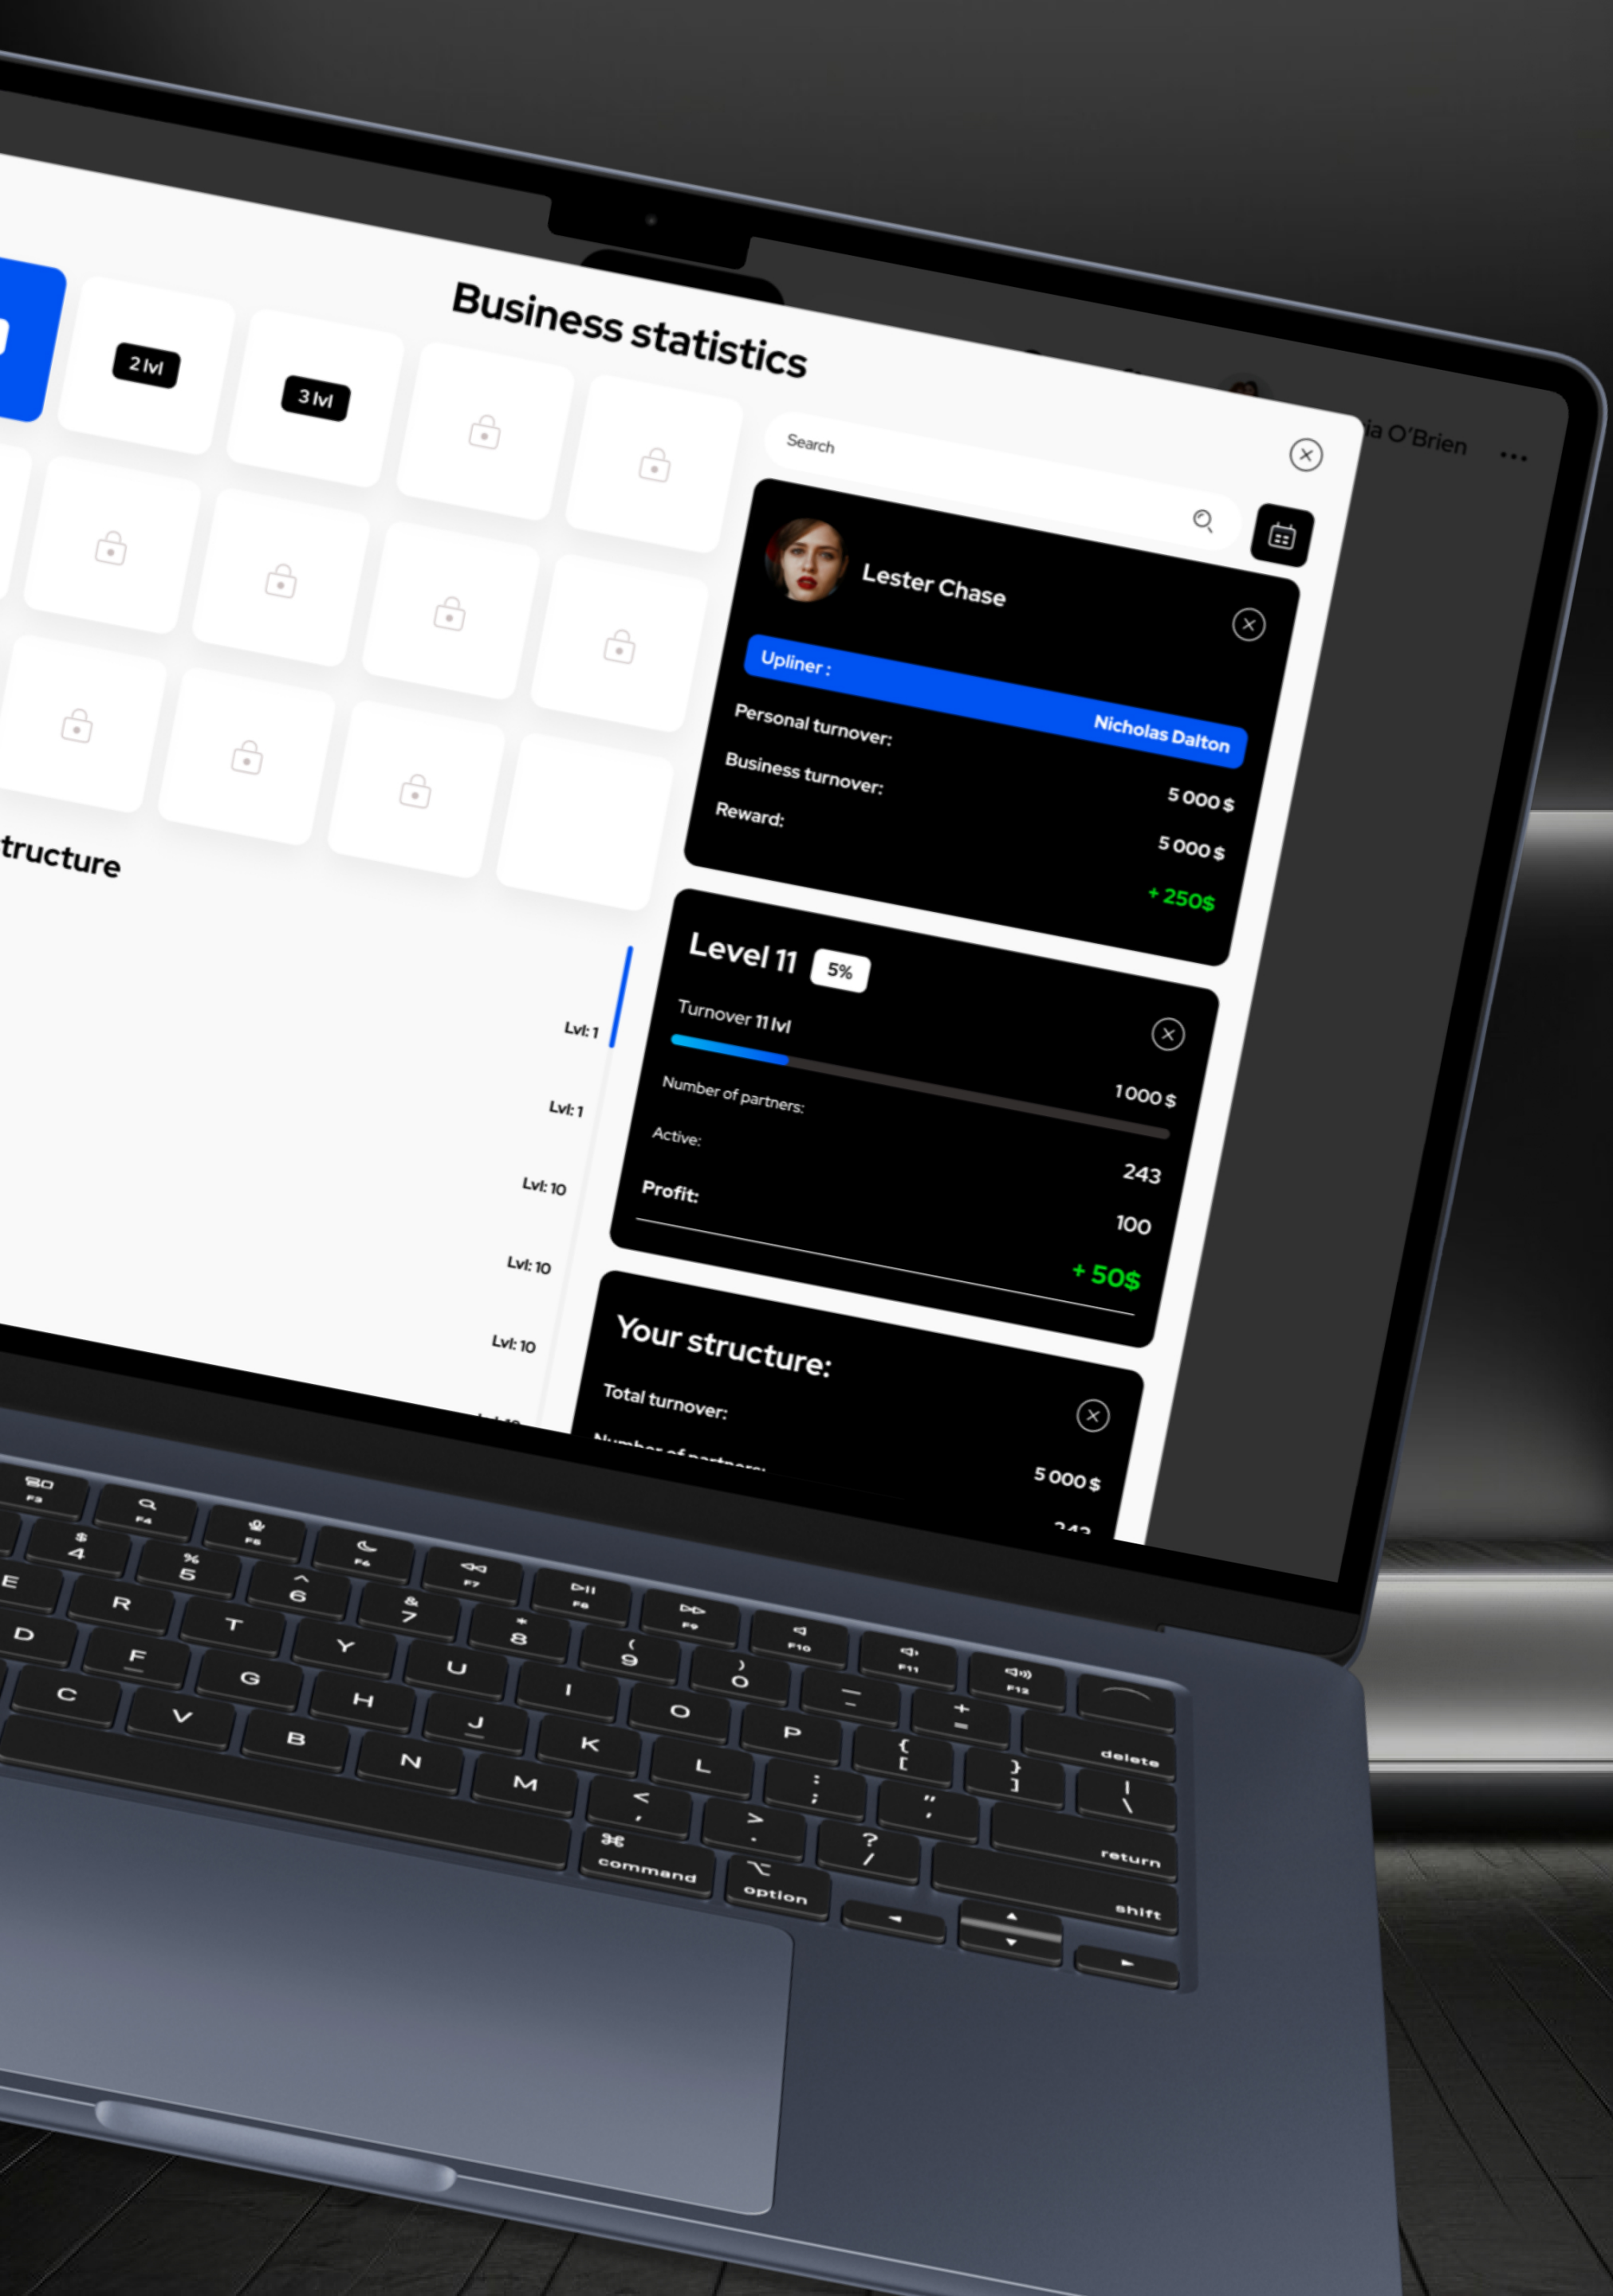

Please note that if you have registered using referral link you will see the corresponding “Upliner” field and name of the partner who invited you. If you have registered without using referral link the “Upliner” field will not be displayed. Press “More details” button to manage the structure or select a partner from the list of last registrations to see the detailed information very quickly.

4. Leaderboard

Develop yourself and increase volume of personal and career business to take up your position in Top 5 monthly list and to receive additional awards every month. Please note that the leaders’ statistics is updated every month and thus each partner of the Qwidex company has an opportunity to take up one of the leading positions.

Structure detailed information

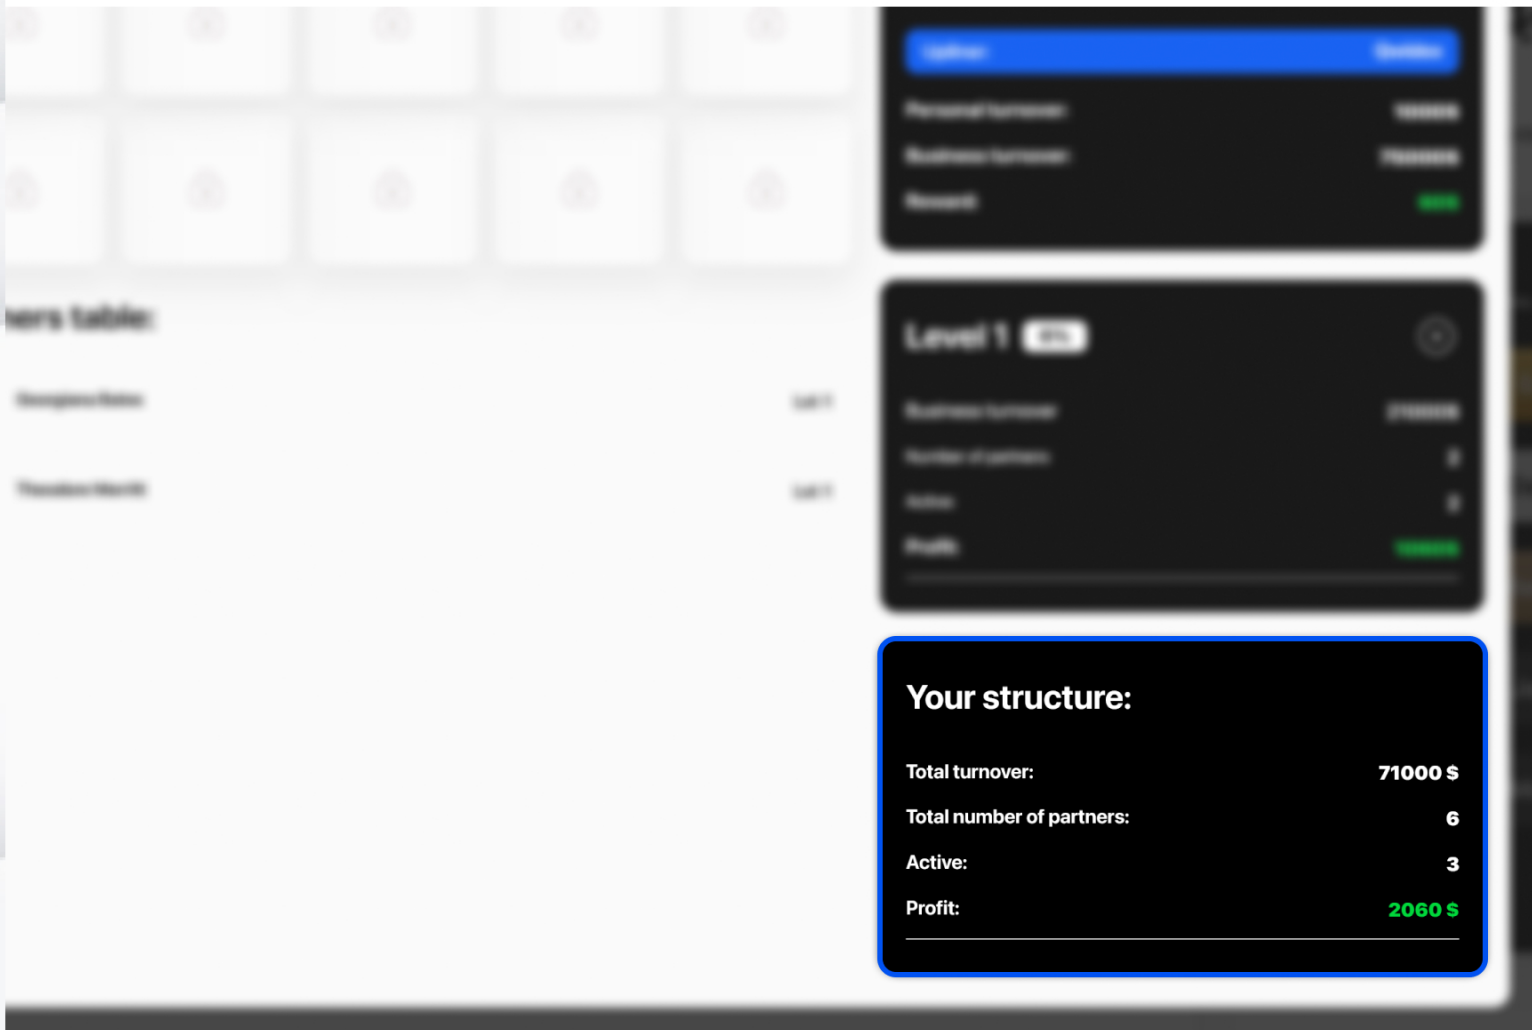

Welcome to the structure management unit. Here you can see detailed information about the personal account career progress as well as the structure itself by selecting the required level or partner from registration list.

Here we see the available levels according to your career status. Press one of the levels to get detailed information about this level and partners.

The Partner List shows all partners of your structure in order of their registration. By selecting one of the available levels the Partner List will display all partners of your structure on the selected level. Press the required partner to get detailed information about him.

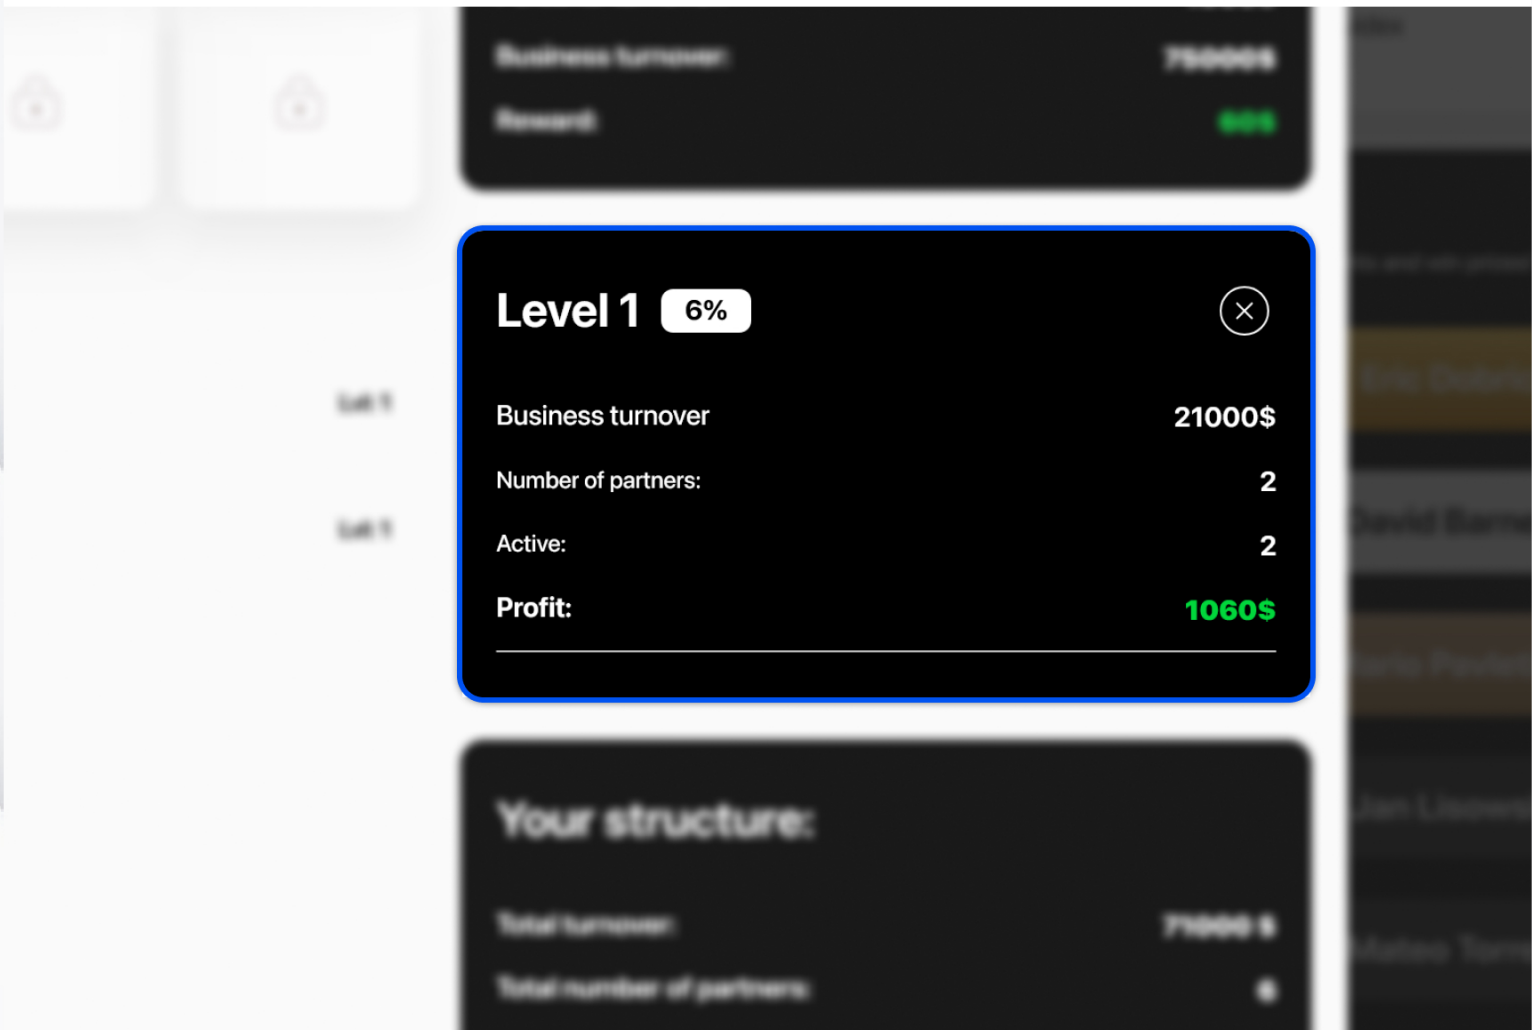

Main functional points

1. Your Structure:

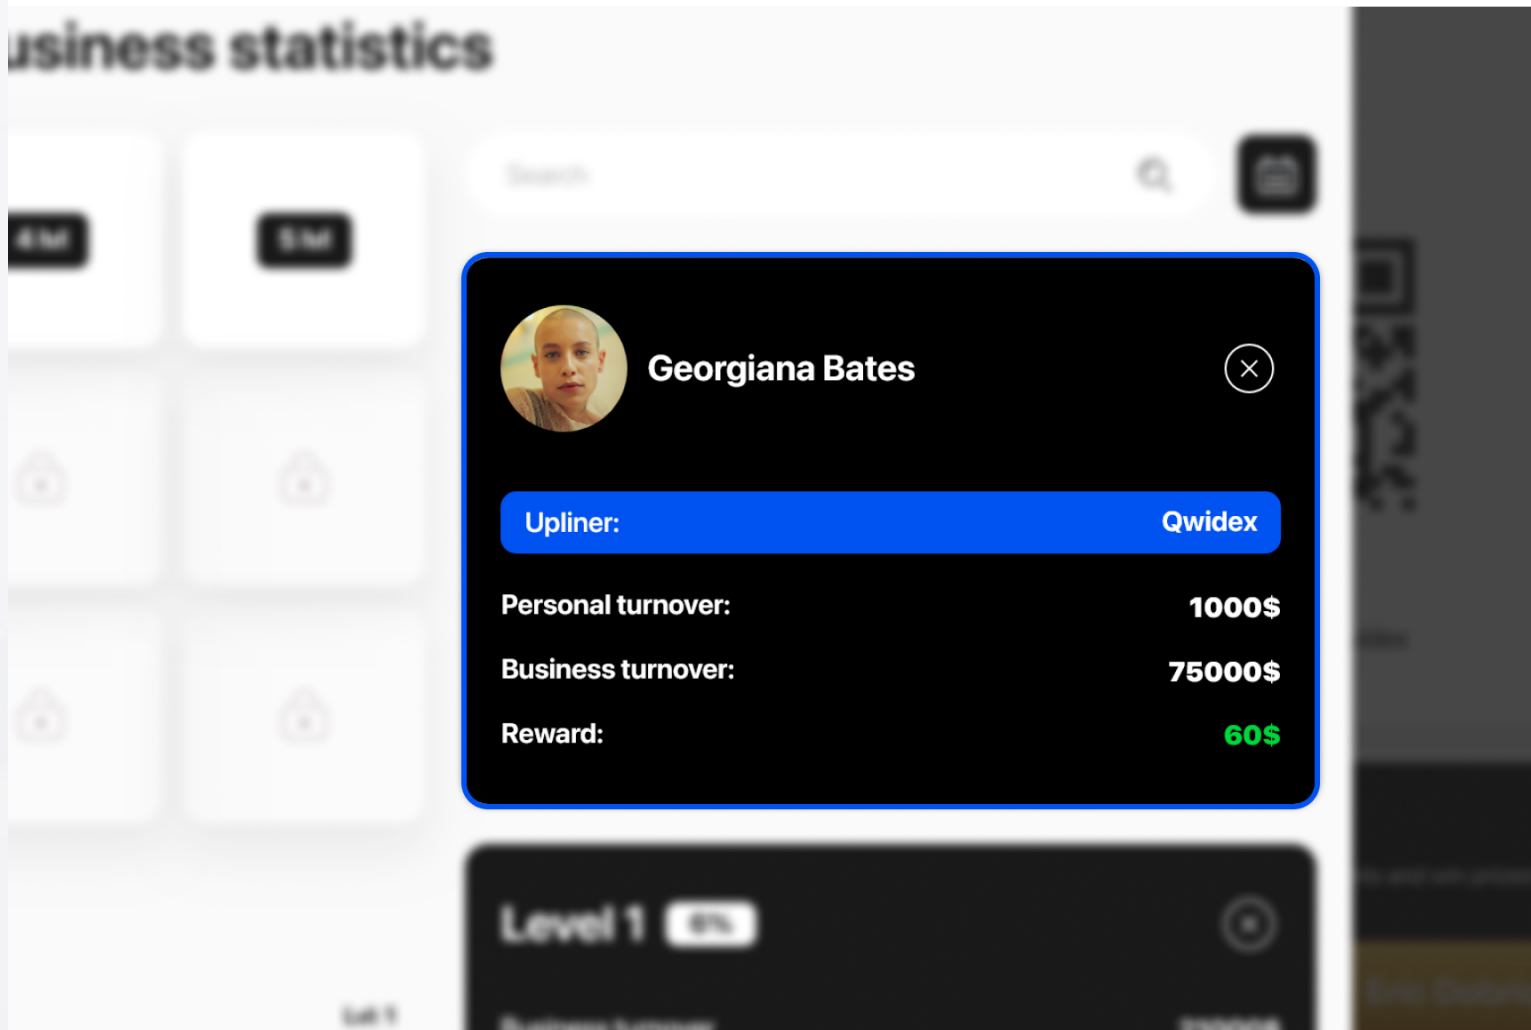

This info unit contains detailed information on your structure in general. Here you can see the total amount of your partners' investments as well as total number of partners registered in your structure, total number of active partners and total amount of the profit earned from the structure.

2. Level:

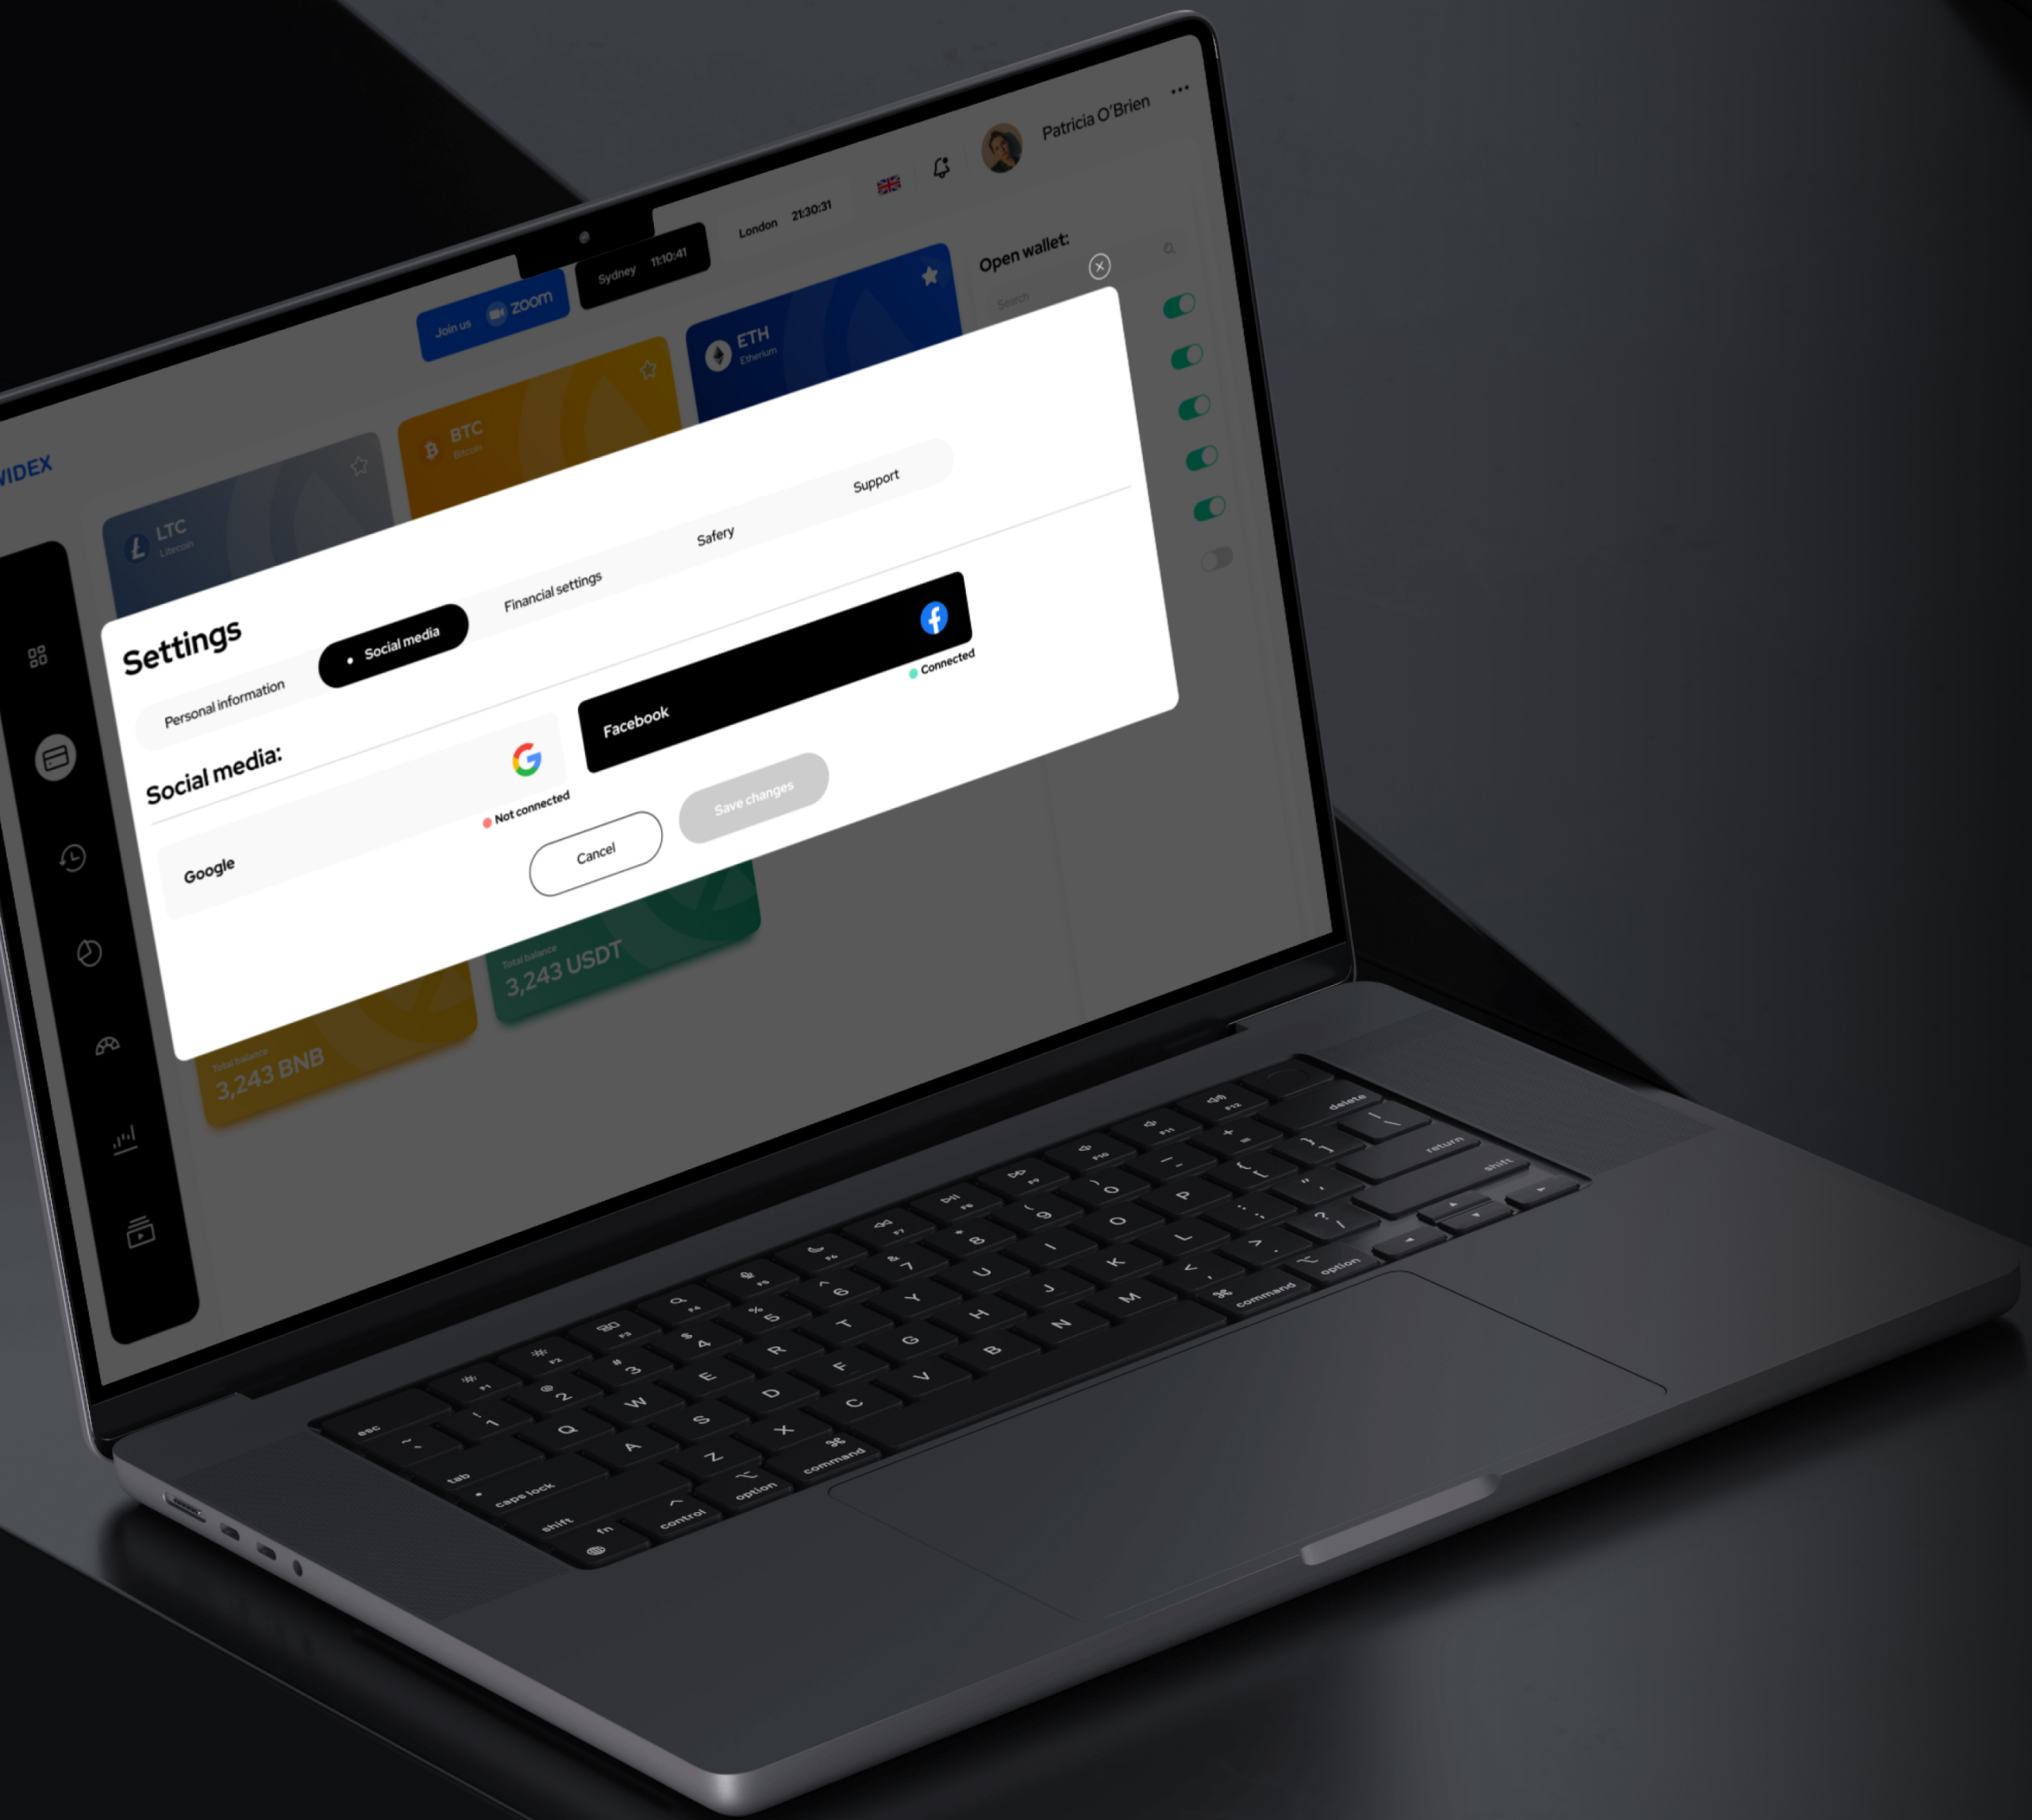

This info unit contains detailed information on the selected level from your structure. Here you can see the percentage from the total amount of your partners' investments for the selected level, total number of active partners as well as total amount of profit earned from the selected level.

3. Partner:

This info unit contains detailed information on the partner selected from your structure. Here you can see the statistics of personal and career business, selected partner as well as total amount of profit earned from the selected partner.

Use search by name to find the required partner very quickly.

Settings

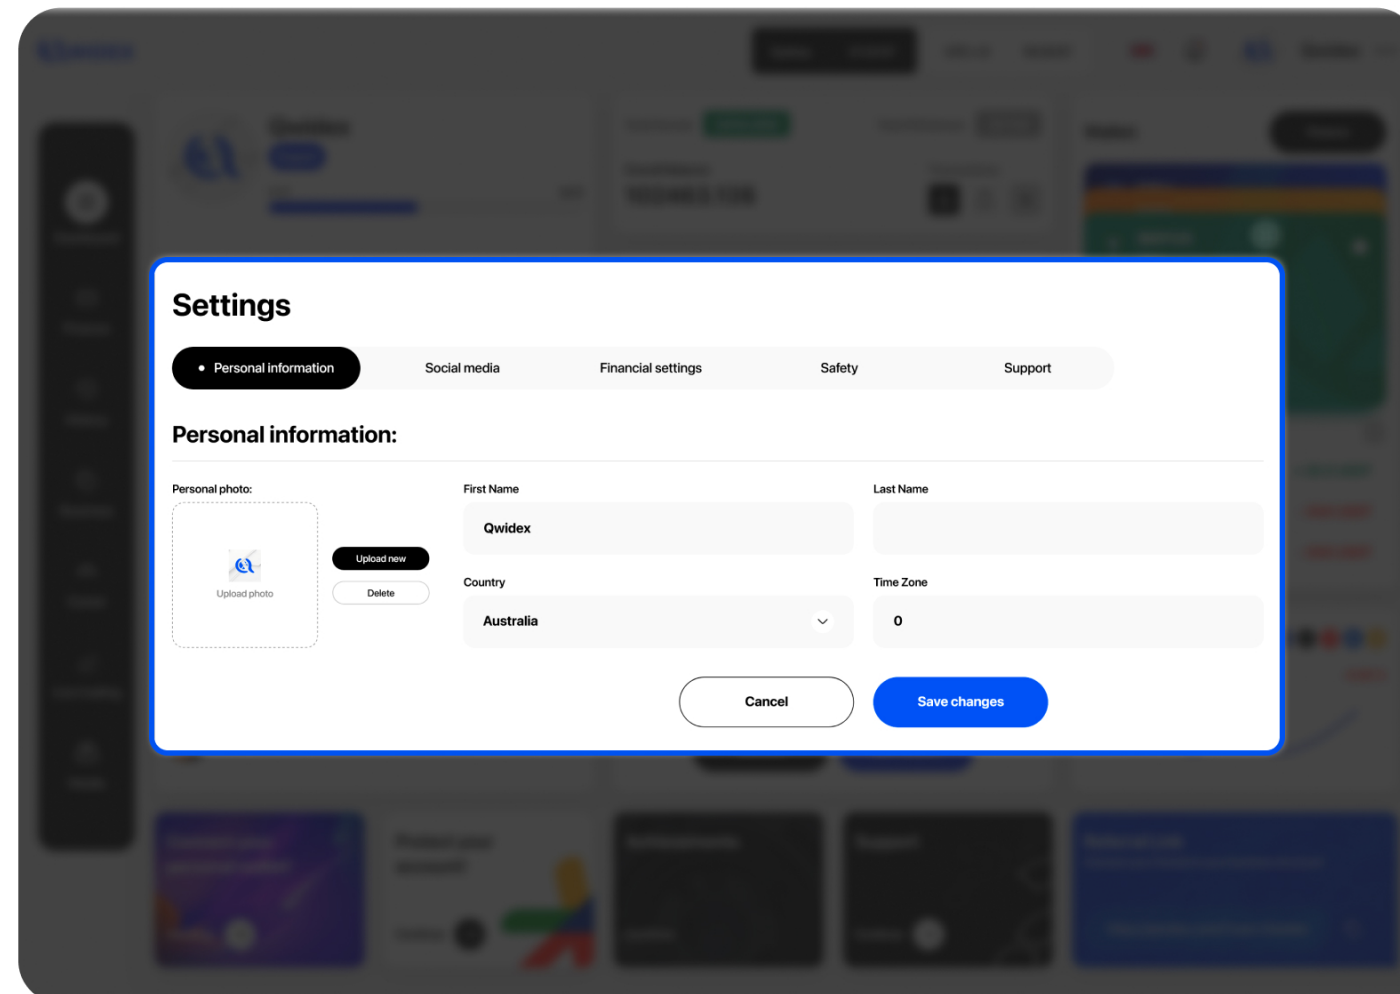

Welcome to your personal account settings. In this Section, using simple navigation, you can make changes in your account, set an advanced security or contact the company support. The function of your personal account settings has simple and comprehensible control interface and thus it will not raise any unnecessary questions.

Pay attention!

Please note that the initial setup and further changes of financial data requires an additional confirmation via financial pin-code which has been created during registration phase. Be vigilant and store your financial pin-code in a safe place.

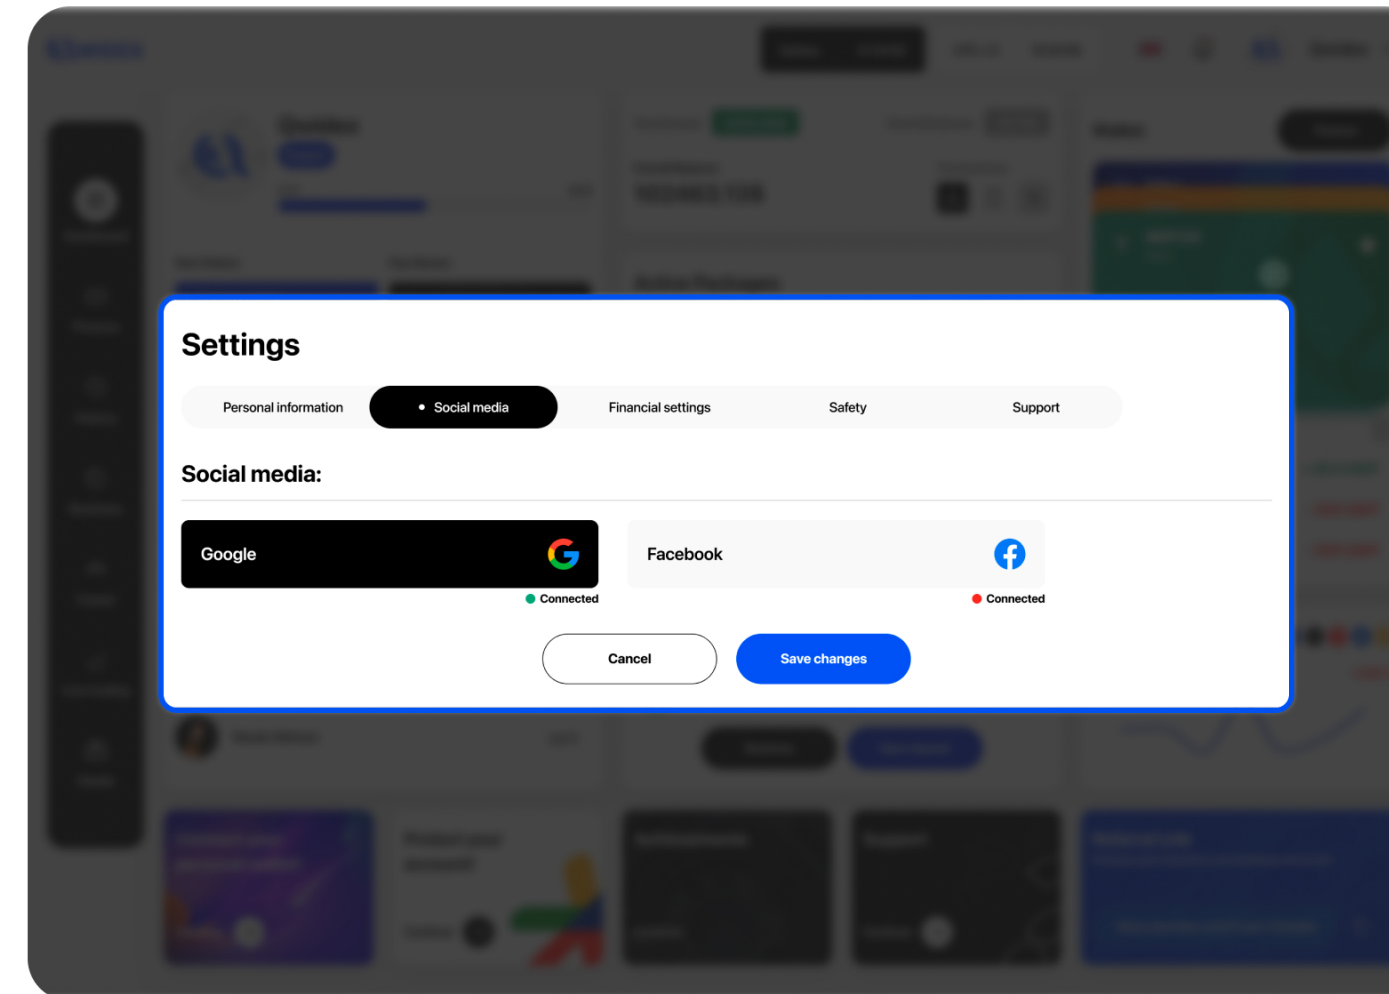

Key points:

1. Profile

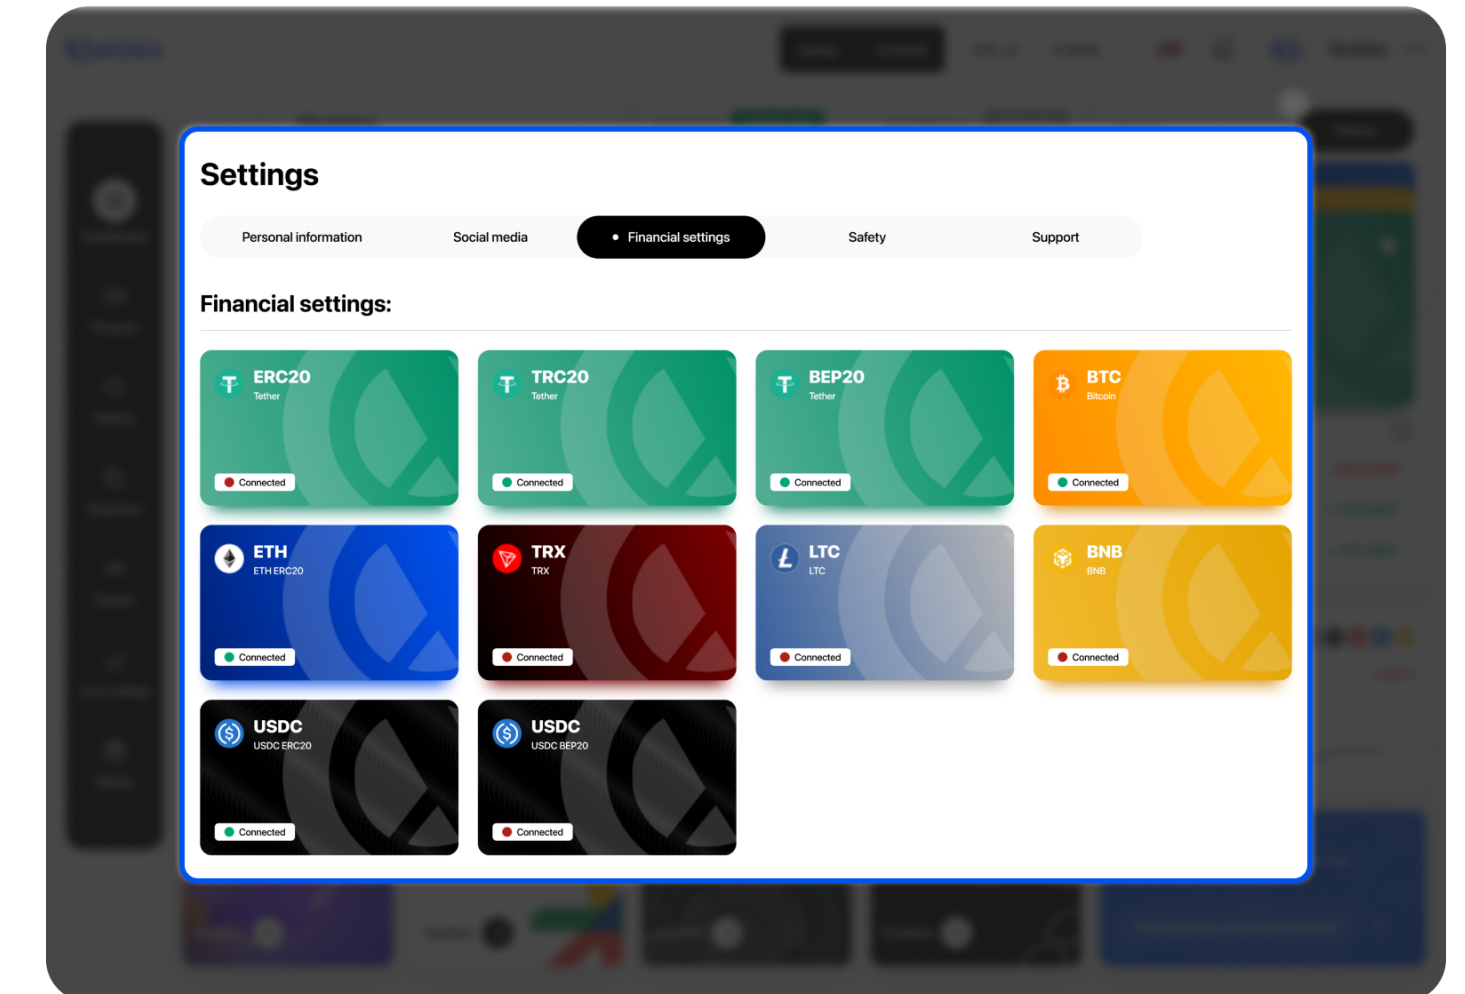

Set the profile photo, change your time zone during travelling for the better adaptation or you can change your personal account basic information specified during registration. Use “Personal Information” Section to easily control your profile settings.

2. Social media

In this section of the settings you can see the authorisation method that was connected to the personal account during the registration process. Please note that authorisation using third-party services can be activated only during the personal account registration process.

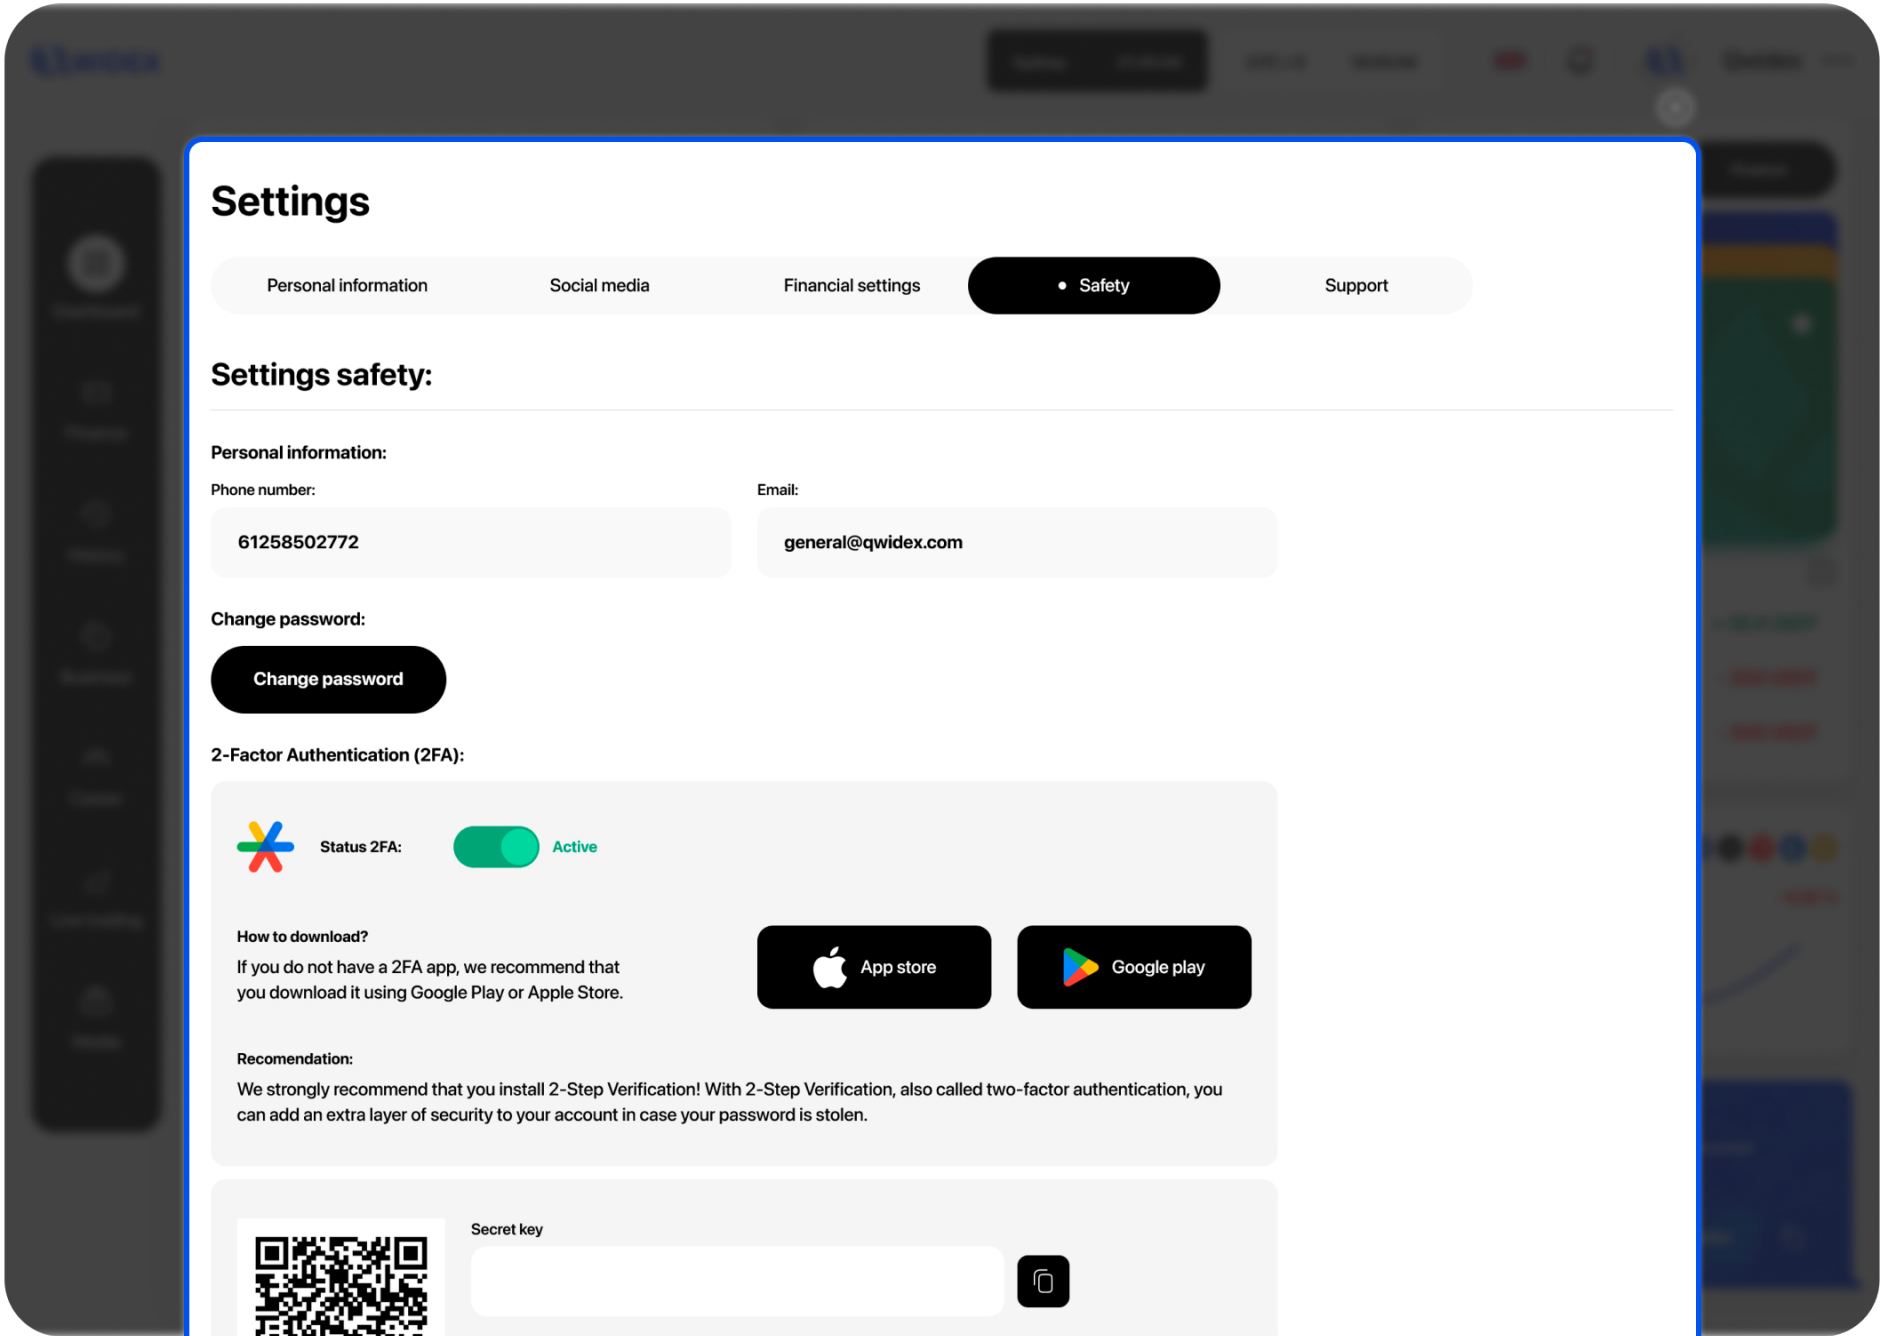

3. Financial settings

This is an important Section for settings of your personal account. It is required for further withdrawal of funds from the company. Use “Add Wallet” button to select the currency and add the wallet address which you want to use for withdrawal of funds or press the existing currency account to change the wallet address which was specified before.

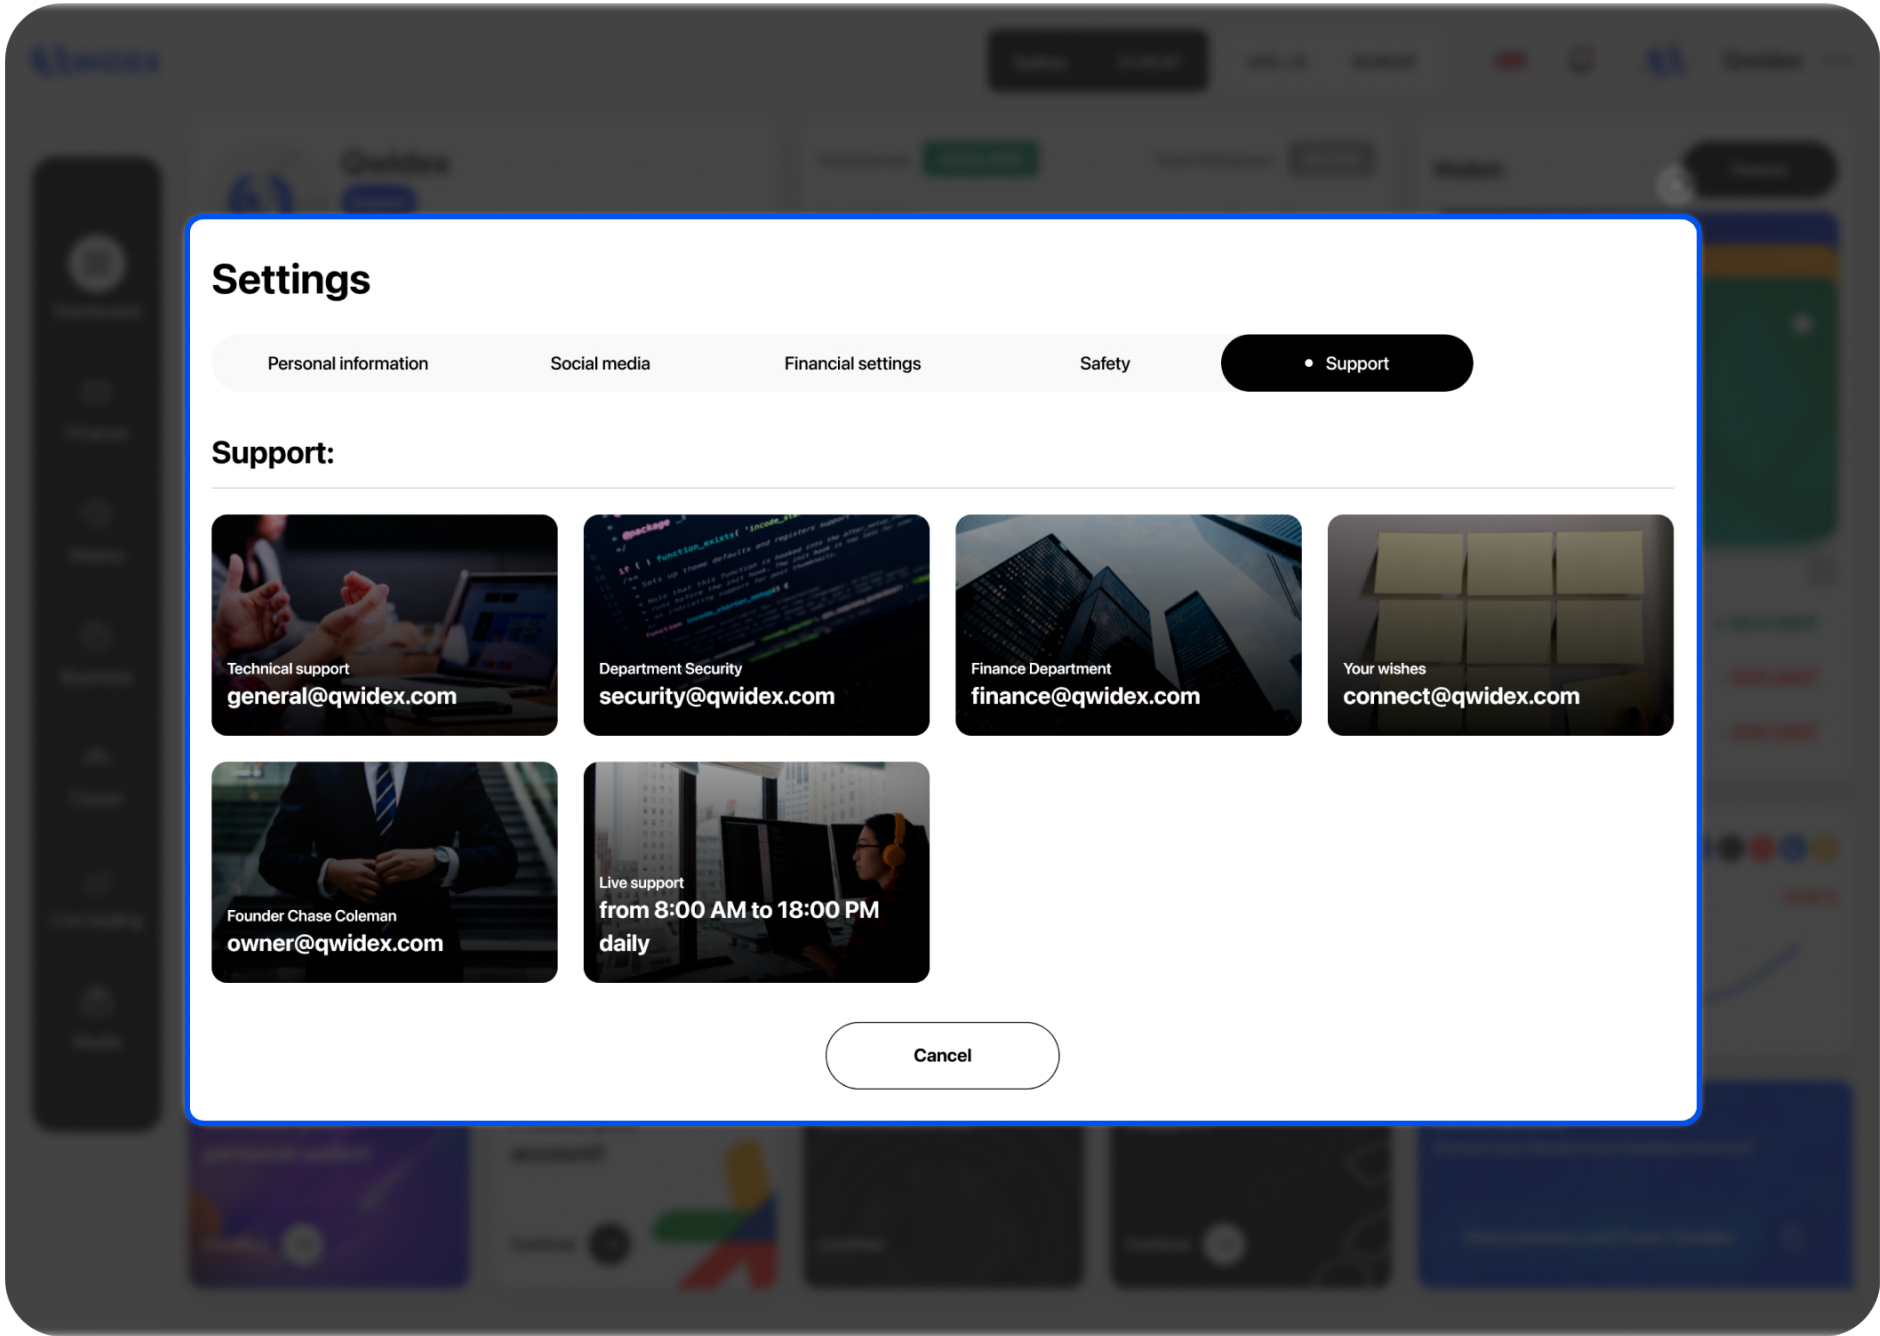

Key points:

4. Safety settings

Here you can change your personal password which you use for access to your personal account as well as set an advanced security for your account via two-factor authentication function.

5. Technical support

You can always contact Qwidex support service to get the detailed answer to your question. The Qwidex support service specialists work 24/7 and will answer any question in the shortest possible time.
